Any Profession is known for integrity, objectivity, professional competence, due care, confidentiality and professional behaviour. Responsibility, accountability and Regulation are the troikas of all Professions including the Company Secretaries. It is apparent that Company Secretaries are contributing significantly to the development of a defined system of corporate governance. These professionals are obliged to always act in the public interest.

The continuous performance and Quality in professional services is the hallmark of success in a competitive environment. The performance and quality can be enhanced to the level of excellence only if professionals follow high Technical, Professional and Ethical Standards while serving the client or society.
