LAW JOURNAL

BACKGROUND

With the Indian economy slated to grow at 7% in the current financial year and with a vision of a US\$5 trillion economy by 2030, the business landscape in India looks promising, driven by consistent investment growth and consumption. The recent Union Budget outlines several key policy measures intended to support accessibility to local markets and initiatives to fast track the projected growth.

However, the Indian growth story is closely intertwined with the world economy and the related geopolitical environment. The growing investment trajectory may begin to turn with a host of global risks starting to play out, including intensifying global trade policies; the “upsurge in” nationalistic, anti-globalization sentiment; growing commodity prices; and more generally tightening of global monetary policies.

It is with this background that the Indian Chamber of Commerce (ICC) is organising the 2nd Edition of Karnataka Legal Summit – Operating in the New Normal World Economy on 17th September 2019 in Hotel Taj MG Road, Bengaluru.

OBJECTIVES

- To debate on the emerging areas of legal positions for corporate India.
- To understand the changing dynamics of today's business & identification of legal risk associated with it.
- To build connections between more than 150 business leaders, members of the Judiciary, senior policy-makers, leading counsels, general counsels of large MNCs, corporate leaders, consultants, academicians, company secretaries and chartered accountants.

KEY FOCUS

The summit will focus on some of the significant legal, regulatory and operational issues impacting companies operating in India given the digital transformation and convergence of new age technology. The summit also provides an excellent platform to network with industry peers and explores new ideas.

BENEFITS

The summit will provide an excellent opportunity to participants to discuss, share experiences & case studies, network with industry leaders and learn about the current legal scenario and the best practices in India.

KEY TOPICS

- Driving growth through strategic M&A and Post Acquisition Integration
- Privacy and Data Localization – managing competing demands
- Re-thinking Dispute Resolution strategies – new opportunities and avenues
- The Future of Work and Managing work in a Gig Economy
