An articled assistant who has already completed three years / three & half years of articled service and has taken leave in excess of the period allowed under Regulation 59 is required to serve for a period equivalent to the excess leave taken in order that his training may be completed. The supplementary deed in duplicate along with Form 108 for the period already served should be sent so as to reach the office of the Institute within 60 days of the expiry of the normal term of articles.

In case there is a break in the continuity of training and / or there is a change in the employer and / or there is a delay in submission of the papers beyond 60 days, as referred to in the previous paragraph, an agreement in Form No.109 would not be valid.

In such a case, a fresh agreement in Form 102 should be entered into and the particulars in Form 103 along with Form No.108 for the period already served, should be sent to the office of the Institute for registration within 30 days of the commencement of training.

A member may be granted an additional vacancy to engage an articled assistant whose normal term of training is over and he (the articled assistant) is found to have taken excess leave which is to be made up by an additional period of articles. It is the duty of the employer in such a case to ensure that the articled assistant completes the period of training under him including the period of excess leave. The benefit of an additional vacancy in such case is given only where it could not have been reasonably anticipated that the articled assistant would have to serve an extra period on account of the excess leave taken. Such additional vacancy may be given to the previous employer or to any other chartered accountant entitled to train articled assistant(s).

48. What is 3-year articled training scheme? Who can undergo training under this scheme?

F. AUDIT TRAINING

49. Is an audit training equivalent to articleship training?

No. 8 months of audit training is treated as equivalent to 6 months of articleship training.
