

International Accounting Standard 28

Investments in Associates

This version includes amendments resulting from IFRSs issued up to 31 December 2009.

IAS 28 *Accounting for Investments in Associates* was issued by the International Accounting Standards Committee in April 1989. It replaced those parts of IAS 3 *Consolidated Financial Statements* (issued in June 1976) that had not been replaced by IAS 27. IAS 28 was reformatted in 1994, and amended in 1998, 1999 and 2000.

The Standing Interpretations Committee developed three Interpretations relating to IAS 28:

- SIC-3 *Elimination of Unrealised Profits and Losses on Transactions with Associates* (issued December 1997)
- SIC-20 *Equity Accounting Method—Recognition of Losses* (issued July 2000)
- SIC-33 *Consolidation and Equity Method—Potential Voting Rights and Allocation of Ownership Interests* (issued December 2001).

In April 2001 the International Accounting Standards Board (IASB) resolved that all Standards and Interpretations issued under previous Constitutions continued to be applicable unless and until they were amended or withdrawn.

In December 2003 the IASB issued a revised IAS 28 with a new title—*Investments in Associates*. The revised standard also replaced SIC-3, SIC-20 and SIC-33.

Since then, IAS 28 and its accompanying documents have been amended by the following IFRSs:

- IFRS 3 *Business Combinations* (issued March 2004)
- IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* (issued March 2004)
- IAS 1 *Presentation of Financial Statements* (as revised in September 2007)*
- IFRS 3 *Business Combinations* (as revised in January 2008)†
- IAS 27 *Consolidated and Separate Financial Statements* (as amended in January 2008)†
- *Improvements to IFRSs* (issued May 2008)*
- IFRS 9 *Financial Instruments* (issued November 2009).§

The following Interpretation refers to IAS 28:

- IFRIC 5 *Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds* (issued December 2004).

* effective date 1 January 2009

† effective date 1 July 2009

§ effective date 1 January 2013 (earlier application permitted)

APPROVAL BY THE BOARD OF IAS 28 ISSUED IN DECEMBER 2003

BASIS FOR CONCLUSIONS

DISSENTING OPINION

International Accounting Standard 28 *Investments in Associates* (IAS 28) is set out in paragraphs 1–43 and the Appendix. All the paragraphs have equal authority but retain the IASC format of the Standard when it was adopted by the IASB. IAS 28 should be read in the context of the Basis for Conclusions, the *Preface to International Financial Reporting Standards* and the *Framework for the Preparation and Presentation of Financial Statements*. IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* provides a basis for selecting and applying accounting policies in the absence of explicit guidance.

Introduction

IN1 International Accounting Standard 28 *Investments in Associates* replaces IAS 28 *Accounting for Investments in Associates* (revised in 2000) and should be applied for annual periods beginning on or after 1 January 2005. Earlier application is encouraged. The Standard also replaces the following Interpretations:

- SIC-3 *Elimination of Unrealised Profits and Losses on Transactions with Associates*
- SIC-20 *Equity Accounting Method—Recognition of Losses*
- SIC-33 *Consolidation and Equity Method—Potential Voting Rights and Allocation of Ownership Interests*.

Reasons for revising IAS 28

IN2 The International Accounting Standards Board developed this revised IAS 28 as part of its project on Improvements to International Accounting Standards. The project was undertaken in the light of queries and criticisms raised in relation to the Standards by securities regulators, professional accountants and other interested parties. The objectives of the project were to reduce or eliminate alternatives, redundancies and conflicts within the Standards, to deal with some convergence issues and to make other improvements.

IN3 For IAS 28 the Board's main objective was to reduce alternatives in the application of the equity method and in accounting for investments in associates in separate financial statements. The Board did not reconsider the fundamental approach when accounting for investments in associates using the equity method contained in IAS 28.

The main changes

IN4 The main changes from the previous version of IAS 28 are described below.

Scope

IN5 The Standard does not apply to investments that would otherwise be associates or interests of venturers in jointly controlled entities held by venture capital organisations, mutual funds, unit trusts and similar entities when those investments are accounted for at fair value through profit or loss in accordance with IFRS 9 *Financial Instruments* and IAS 39 *Financial Instruments: Recognition and Measurement*. Those investments are measured at fair value, with changes in fair value recognised in profit or loss in the period in which they occur.

IN6 Furthermore, the Standard provides exemptions from application of the equity method similar to those provided for certain parents not to prepare consolidated financial statements. These exemptions include when the investor is also a parent exempt in accordance with IAS 27 *Consolidated and Separate Financial Statements* from preparing consolidated financial statements (paragraph 13(b)), and when the investor, though not such a parent, can satisfy the same type of conditions that exempt such parents (paragraph 13(c)).

Significant influence

Potential voting rights

- IN7 An entity is required to consider the existence and effect of potential voting rights currently exercisable or convertible when assessing whether it has the power to participate in the financial and operating policy decisions of the investee. This requirement was previously included in SIC-33, which has been superseded.

Equity method

- IN8 The Standard clarifies that investments in associates over which the investor has significant influence must be accounted for using the equity method whether or not the investor also has investments in subsidiaries and prepares consolidated financial statements. However, the investor does not apply the equity method when presenting separate financial statements prepared in accordance with IAS 27.

Exemption from applying the equity method

- IN9 The Standard does not require the equity method to be applied when an associate is acquired and held with a view to its disposal within twelve months of acquisition. There must be evidence that the investment is acquired with the intention to dispose of it and that management is actively seeking a buyer. The words 'in the near future' were replaced with the words 'within twelve months'. When such an associate is not disposed of within twelve months it must be accounted for using the equity method as from the date of acquisition, except in narrowly specified circumstances.*
- IN10 The Standard does not permit an investor that continues to have significant influence over an associate not to apply the equity method when the associate is operating under severe long-term restrictions that significantly impair its ability to transfer funds to the investor. Significant influence must be lost before the equity method ceases to be applicable.

Elimination of unrealised profits and losses on transactions with associates

- IN11 Profits and losses resulting from 'upstream' and 'downstream' transactions between an investor and an associate must be eliminated to the extent of the investor's interest in the associate. The consensus in SIC-3 has been incorporated into the Standard.

Non-coterminous year-ends

- IN12 When financial statements of an associate used in applying the equity method are prepared as at the end of the reporting period that is different from that of the investor, the difference must be no greater than three months.

* In March 2004, the Board issued IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*. IFRS 5 removes this scope exclusion and now eliminates the exemption from applying the equity method when significant influence over an associate is intended to be temporary. See IFRS 5 Basis for Conclusions for further discussion.

Uniform accounting policies

- IN13 The Standard requires an investor to make appropriate adjustments to the associate's financial statements to conform them to the investor's accounting policies for reporting like transactions and other events in similar circumstances. The previous version of IAS 28 provided an exception to this requirement when it was 'not practicable to use uniform accounting policies'.

Recognition of losses

- IN14 An investor must consider the carrying amount of its investment in the equity of the associate and its other long-term interests in the associate when recognising its share of losses of the associate. SIC-20 limited the recognition of the investor's share of losses to the carrying amount of its investment in the equity of the associate. Therefore, that Interpretation has been superseded.

Separate financial statements

- IN15 The requirements for the preparation of an investor's separate financial statements are established by reference to IAS 27.

International Accounting Standard 28

Investments in Associates

Scope

- 1 This Standard shall be applied in accounting for investments in associates. However, it does not apply to investments in associates held by:

- (a) venture capital organisations, or
- (b) mutual funds, unit trusts and similar entities including investment-linked insurance funds

that are measured at fair value through profit or loss in accordance with IFRS 9 *Financial Instruments* and IAS 39 *Financial Instruments: Recognition and Measurement*. An entity shall measure such investments at fair value through profit or loss in accordance with IFRS 9. An entity holding such an investment shall make the disclosures required by paragraph 37(f).

Definitions

- 2 The following terms are used in this Standard with the meanings specified:

An associate is an entity, including an unincorporated entity such as a partnership, over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture.

Consolidated financial statements are the financial statements of a group presented as those of a single economic entity.

Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The equity method is a method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the investor's share of net assets of the investee. The profit or loss of the investor includes the investor's share of the profit or loss of the investee.

Joint control is the contractually agreed sharing of control over an economic activity, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Separate financial statements are those presented by a parent, an investor in an associate or a venturer in a jointly controlled entity, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A subsidiary is an entity, including an unincorporated entity such as a partnership, that is controlled by another entity (known as the parent).

- 3 Financial statements in which the equity method is applied are not separate financial statements, nor are the financial statements of an entity that does not have a subsidiary, associate or venturer's interest in a joint venture.
- 4 Separate financial statements are those presented in addition to consolidated financial statements, financial statements in which investments are accounted for using the equity method and financial statements in which venturers' interests in joint ventures are proportionately consolidated. Separate financial statements may or may not be appended to, or accompany, those financial statements.
- 5 Entities that are exempted in accordance with paragraph 10 of IAS 27 *Consolidated and Separate Financial Statements* from consolidation, paragraph 2 of IAS 31 *Interests in Joint Ventures* from applying proportionate consolidation or paragraph 13(c) of this Standard from applying the equity method may present separate financial statements as their only financial statements.

Significant influence

- 6 If an investor holds, directly or indirectly (eg through subsidiaries), 20 per cent or more of the voting power of the investee, it is presumed that the investor has significant influence, unless it can be clearly demonstrated that this is not the case. Conversely, if the investor holds, directly or indirectly (eg through subsidiaries), less than 20 per cent of the voting power of the investee, it is presumed that the investor does not have significant influence, unless such influence can be clearly demonstrated. A substantial or majority ownership by another investor does not necessarily preclude an investor from having significant influence.
- 7 The existence of significant influence by an investor is usually evidenced in one or more of the following ways:
 - (a) representation on the board of directors or equivalent governing body of the investee;
 - (b) participation in policy-making processes, including participation in decisions about dividends or other distributions;
 - (c) material transactions between the investor and the investee;
 - (d) interchange of managerial personnel; or
 - (e) provision of essential technical information.
- 8 An entity may own share warrants, share call options, debt or equity instruments that are convertible into ordinary shares, or other similar instruments that have the potential, if exercised or converted, to give the entity additional voting power or reduce another party's voting power over the financial and operating policies of another entity (ie potential voting rights). The existence and effect of potential voting rights that are currently exercisable or convertible, including potential voting rights held by other entities, are considered when assessing whether an entity has significant influence. Potential voting rights are not currently exercisable or convertible when, for example, they cannot be exercised or converted until a future date or until the occurrence of a future event.

- 9 In assessing whether potential voting rights contribute to significant influence, the entity examines all facts and circumstances (including the terms of exercise of the potential voting rights and any other contractual arrangements whether considered individually or in combination) that affect potential rights, except the intention of management and the financial ability to exercise or convert.
- 10 An entity loses significant influence over an investee when it loses the power to participate in the financial and operating policy decisions of that investee. The loss of significant influence can occur with or without a change in absolute or relative ownership levels. It could occur, for example, when an associate becomes subject to the control of a government, court, administrator or regulator. It could also occur as a result of a contractual agreement.

Equity method

- 11 Under the equity method, the investment in an associate is initially recognised at cost and the carrying amount is increased or decreased to recognise the investor's share of the profit or loss of the investee after the date of acquisition. The investor's share of the profit or loss of the investee is recognised in the investor's profit or loss. Distributions received from an investee reduce the carrying amount of the investment. Adjustments to the carrying amount may also be necessary for changes in the investor's proportionate interest in the investee arising from changes in the investee's other comprehensive income. Such changes include those arising from the revaluation of property, plant and equipment and from foreign exchange translation differences. The investor's share of those changes is recognised in other comprehensive income of the investor (see IAS 1 *Presentation of Financial Statements* (as revised in 2007)).
- 12 When potential voting rights exist, the investor's share of profit or loss of the investee and of changes in the investee's equity is determined on the basis of present ownership interests and does not reflect the possible exercise or conversion of potential voting rights.

Application of the equity method

- 13 **An investment in an associate shall be accounted for using the equity method except when:**
- (a) **the investment is classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*;**
 - (b) **the exception in paragraph 10 of IAS 27, allowing a parent that also has an investment in an associate not to present consolidated financial statements, applies; or**
 - (c) **all of the following apply:**
 - (i) **the investor is a wholly-owned subsidiary, or is a partially-owned subsidiary of another entity and its other owners, including those not otherwise entitled to vote, have been informed about, and do not object to, the investor not applying the equity method;**

- (ii) the investor's debt or equity instruments are not traded in a public market (a domestic or foreign stock exchange or an over-the-counter market, including local and regional markets);
 - (iii) the investor did not file, nor is it in the process of filing, its financial statements with a securities commission or other regulatory organisation, for the purpose of issuing any class of instruments in a public market; and
 - (iv) the ultimate or any intermediate parent of the investor produces consolidated financial statements available for public use that comply with International Financial Reporting Standards.
- 14 **Investments described in paragraph 13(a) shall be accounted for in accordance with IFRS 5.**
- 15 When an investment in an associate previously classified as held for sale no longer meets the criteria to be so classified, it shall be accounted for using the equity method as from the date of its classification as held for sale. Financial statements for the periods since classification as held for sale shall be amended accordingly.
- 16 [Deleted]
- 17 The recognition of income on the basis of distributions received may not be an adequate measure of the income earned by an investor on an investment in an associate because the distributions received may bear little relation to the performance of the associate. Because the investor has significant influence over the associate, the investor has an interest in the associate's performance and, as a result, the return on its investment. The investor accounts for this interest by extending the scope of its financial statements to include its share of profits or losses of such an associate. As a result, application of the equity method provides more informative reporting of the net assets and profit or loss of the investor.
- 18 **An investor shall discontinue the use of the equity method from the date when it ceases to have significant influence over an associate and shall account for the investment in accordance with IFRS 9 and IAS 39 from that date, provided the associate does not become a subsidiary or a joint venture as defined in IAS 31. On the loss of significant influence, the investor shall measure at fair value any investment the investor retains in the former associate. The investor shall recognise in profit or loss any difference between:**
- (a) the fair value of any retained investment and any proceeds from disposing of the part interest in the associate; and
 - (b) the carrying amount of the investment at the date when significant influence is lost.
- 19 **When an investment ceases to be an associate and is accounted for in accordance with IAS 39, the fair value of the investment at the date when it ceases to be an associate shall be regarded as its fair value on initial recognition as a financial asset in accordance with IAS 39.**

- 19A If an investor loses significant influence over an associate, the investor shall account for all amounts recognised in other comprehensive income in relation to that associate on the same basis as would be required if the associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognised in other comprehensive income by an associate would be reclassified to profit or loss on the disposal of the related assets or liabilities, the investor reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses significant influence over the associate. For example, if an associate has cumulative exchange differences relating to a foreign operation and the investor loses significant influence over the associate, the investor shall reclassify to profit or loss the gain or loss previously recognised in other comprehensive income in relation to the foreign operation. If an investor's ownership interest in an associate is reduced, but the investment continues to be an associate, the investor shall reclassify to profit or loss only a proportionate amount of the gain or loss previously recognised in other comprehensive income.
- 20 Many of the procedures appropriate for the application of the equity method are similar to the consolidation procedures described in IAS 27. Furthermore, the concepts underlying the procedures used in accounting for the acquisition of a subsidiary are also adopted in accounting for the acquisition of an investment in an associate.
- 21 A group's share in an associate is the aggregate of the holdings in that associate by the parent and its subsidiaries. The holdings of the group's other associates or joint ventures are ignored for this purpose. When an associate has subsidiaries, associates, or joint ventures, the profits or losses and net assets taken into account in applying the equity method are those recognised in the associate's financial statements (including the associate's share of the profits or losses and net assets of its associates and joint ventures), after any adjustments necessary to give effect to uniform accounting policies (see paragraphs 26 and 27).
- 22 Profits and losses resulting from 'upstream' and 'downstream' transactions between an investor (including its consolidated subsidiaries) and an associate are recognised in the investor's financial statements only to the extent of unrelated investors' interests in the associate. 'Upstream' transactions are, for example, sales of assets from an associate to the investor. 'Downstream' transactions are, for example, sales of assets from the investor to an associate. The investor's share in the associate's profits and losses resulting from these transactions is eliminated.
- 23 An investment in an associate is accounted for using the equity method from the date on which it becomes an associate. On acquisition of the investment any difference between the cost of the investment and the investor's share of the net fair value of the associate's identifiable assets and liabilities is accounted for as follows:
- (a) goodwill relating to an associate is included in the carrying amount of the investment. Amortisation of that goodwill is not permitted.
 - (b) any excess of the investor's share of the net fair value of the associate's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the investor's share of the associate's profit or loss in the period in which the investment is acquired.

Appropriate adjustments to the investor's share of the associate's profits or losses after acquisition are also made to account, for example, for depreciation of the depreciable assets based on their fair values at the acquisition date. Similarly, appropriate adjustments to the investor's share of the associate's profits or losses after acquisition are made for impairment losses recognised by the associate, such as for goodwill or property, plant and equipment.

- 24 The most recent available financial statements of the associate are used by the investor in applying the equity method. When the end of the reporting period of the investor is different from that of the associate, the associate prepares, for the use of the investor, financial statements as of the same date as the financial statements of the investor unless it is impracticable to do so.**
- 25 When, in accordance with paragraph 24, the financial statements of an associate used in applying the equity method are prepared as of a different date from that of the investor, adjustments shall be made for the effects of significant transactions or events that occur between that date and the date of the investor's financial statements. In any case, the difference between the end of the reporting period of the associate and that of the investor shall be no more than three months. The length of the reporting periods and any difference between the ends of the reporting periods shall be the same from period to period.**
- 26 The investor's financial statements shall be prepared using uniform accounting policies for like transactions and events in similar circumstances.**
- 27 If an associate uses accounting policies other than those of the investor for like transactions and events in similar circumstances, adjustments shall be made to conform the associate's accounting policies to those of the investor when the associate's financial statements are used by the investor in applying the equity method.
- 28 If an associate has outstanding cumulative preference shares that are held by parties other than the investor and classified as equity, the investor computes its share of profits or losses after adjusting for the dividends on such shares, whether or not the dividends have been declared.
- 29 If an investor's share of losses of an associate equals or exceeds its interest in the associate, the investor discontinues recognising its share of further losses. The interest in an associate is the carrying amount of the investment in the associate under the equity method together with any long-term interests that, in substance, form part of the investor's net investment in the associate. For example, an item for which settlement is neither planned nor likely to occur in the foreseeable future is, in substance, an extension of the entity's investment in that associate. Such items may include preference shares and long-term receivables or loans but do not include trade receivables, trade payables or any long-term receivables for which adequate collateral exists, such as secured loans. Losses recognised under the equity method in excess of the investor's investment in ordinary shares are applied to the other components of the investor's interest in an associate in the reverse order of their seniority (ie priority in liquidation).

- 30 After the investor's interest is reduced to zero, additional losses are provided for, and a liability is recognised, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the investor resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

Impairment losses

- 31 After application of the equity method, including recognising the associate's losses in accordance with paragraph 29, the investor applies the requirements of IAS 39 to determine whether it is necessary to recognise any additional impairment loss with respect to the investor's net investment in the associate.
- 32 The investor also applies the requirements of IAS 39 to determine whether any additional impairment loss is recognised with respect to the investor's interest in the associate that does not constitute part of the net investment and the amount of that impairment loss.
- 33 Because goodwill that forms part of the carrying amount of an investment in an associate is not separately recognised, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 *Impairment of Assets*. Instead, the entire carrying amount of the investment is tested for impairment in accordance with IAS 36 as a single asset, by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, whenever application of the requirements in IAS 39 indicates that the investment may be impaired. An impairment loss recognised in those circumstances is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment in the associate. Accordingly, any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases. In determining the value in use of the investment, an entity estimates:
- (a) its share of the present value of the estimated future cash flows expected to be generated by the associate, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
 - (b) the present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Under appropriate assumptions, both methods give the same result.

- 34 The recoverable amount of an investment in an associate is assessed for each associate, unless the associate does not generate cash inflows from continuing use that are largely independent of those from other assets of the entity.

Separate financial statements

- 35 **An investment in an associate shall be accounted for in the investor's separate financial statements in accordance with paragraphs 38–43 of IAS 27.**

- 36 This Standard does not mandate which entities produce separate financial statements available for public use.

Disclosure

- 37 The following disclosures shall be made:
- (a) the fair value of investments in associates for which there are published price quotations;
 - (b) summarised financial information of associates, including the aggregated amounts of assets, liabilities, revenues and profit or loss;
 - (c) the reasons why the presumption that an investor does not have significant influence is overcome if the investor holds, directly or indirectly through subsidiaries, less than 20 per cent of the voting or potential voting power of the investee but concludes that it has significant influence;
 - (d) the reasons why the presumption that an investor has significant influence is overcome if the investor holds, directly or indirectly through subsidiaries, 20 per cent or more of the voting or potential voting power of the investee but concludes that it does not have significant influence;
 - (e) the end of the reporting period of the financial statements of an associate, when such financial statements are used in applying the equity method and are as of a date or for a period that is different from that of the investor, and the reason for using a different date or different period;
 - (f) the nature and extent of any significant restrictions (eg resulting from borrowing arrangements or regulatory requirements) on the ability of associates to transfer funds to the investor in the form of cash dividends, or repayment of loans or advances;
 - (g) the unrecognised share of losses of an associate, both for the period and cumulatively, if an investor has discontinued recognition of its share of losses of an associate;
 - (h) the fact that an associate is not accounted for using the equity method in accordance with paragraph 13; and
 - (i) summarised financial information of associates, either individually or in groups, that are not accounted for using the equity method, including the amounts of total assets, total liabilities, revenues and profit or loss.
- 38 Investments in associates accounted for using the equity method shall be classified as non-current assets. The investor's share of the profit or loss of such associates, and the carrying amount of those investments, shall be separately disclosed. The investor's share of any discontinued operations of such associates shall also be separately disclosed.
- 39 The investor's share of changes recognised in other comprehensive income by the associate shall be recognised by the investor in other comprehensive income.

- 40 In accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* the investor shall disclose:**
- (a) its share of the contingent liabilities of an associate incurred jointly with other investors; and**
 - (b) those contingent liabilities that arise because the investor is severally liable for all or part of the liabilities of the associate.**

Effective date and transition

- 41** An entity shall apply this Standard for annual periods beginning on or after 1 January 2005. Earlier application is encouraged. If an entity applies this Standard for a period beginning before 1 January 2005, it shall disclose that fact.
- 41A** IAS 1 (as revised in 2007) amended the terminology used throughout IFRSs. In addition it amended paragraphs 11 and 39. An entity shall apply those amendments for annual periods beginning on or after 1 January 2009. If an entity applies IAS 1 (revised 2007) for an earlier period, the amendments shall be applied for that earlier period.
- 41B** IAS 27 (as amended in 2008) amended paragraphs 18, 19 and 35 and added paragraph 19A. An entity shall apply those amendments for annual periods beginning on or after 1 July 2009. If an entity applies IAS 27 (amended 2008) for an earlier period, the amendments shall be applied for that earlier period.
- 41C** Paragraphs 1 and 33 were amended by *Improvements to IFRSs* issued in May 2008. An entity shall apply those amendments for annual periods beginning on or after 1 January 2009. Earlier application is permitted. If an entity applies the amendments for an earlier period it shall disclose that fact and apply for that earlier period the amendments to paragraph 3 of IFRS 7 *Financial Instruments: Disclosures*, paragraph 1 of IAS 31 and paragraph 4 of IAS 32 *Financial Instruments: Presentation* issued in May 2008. An entity is permitted to apply the amendments prospectively.
- 41D** IFRS 9, issued in November 2009, amended paragraphs 1 and 18–19A. An entity shall apply those amendments when it applies IFRS 9.

Withdrawal of other pronouncements

- 42** This Standard supersedes IAS 28 *Accounting for Investments in Associates* (revised in 2000).
- 43** This Standard supersedes the following Interpretations:
- (a)** SIC-3 *Elimination of Unrealised Profits and Losses on Transactions with Associates*;
 - (b)** SIC-20 *Equity Accounting Method—Recognition of Losses*; and
 - (c)** SIC-33 *Consolidation and Equity Method—Potential Voting Rights and Allocation of Ownership Interests*.

Appendix

Amendments to other pronouncements

The amendments in this appendix shall be applied for annual periods beginning on or after 1 January 2005. If an entity applies this Standard for an earlier period, these amendments shall be applied for that earlier period.

* * * * *

The amendments contained in this appendix when this Standard was issued in 2003 have been incorporated into the relevant pronouncements published in this volume.
