Ways To Win

The Battles Of LIFE

A low-angle photograph looking up at massive ancient Egyptian columns. The columns are made of light-colored stone and feature intricate hieroglyphs and carvings. The sky is a clear, bright blue. The perspective makes the columns appear to converge towards the top of the frame, creating a sense of height and grandeur.

“The battle of life is, in most cases, fought uphill; and to win it without a struggle were perhaps to win it without honor. If there were no difficulties there would be no success; if there were nothing to struggle for, there would be nothing to be achieved.”
- Samuel Smiles

You are a warrior. You might not be able to fight wars with swords, spears and shields like in the olden days but there are numerous battles to be fought everyday. The game might have changed but the rules are still the same; **you have to be strong, you must fight to win.** As a modern age warrior you must choose your weapons carefully to face your enemies.

Way # 1 : Weapons–Courage and Bravery

You might not have any swords or guns but you must remember that courage is the greatest weapon any man can possess. Guns, tanks, bows and arrows amount to nothing before the mighty weapon called courage. A man armed with courage can take on 10 men with swords and spears. Even if you have all the wealth, knowledge and luxuries in the world without courage they are all useless.

A firefighter in silhouette is shown from the side, wearing a helmet and holding a hose. The background is a bright, intense fire with orange and yellow flames. The firefighter's face is partially visible through the helmet's visor.

**Boldness has magic
in it.** It can get you
through any situation
and will help you win
the war of life.

Way # 2 : Shield—Hope and Faith

You need a shield to protect yourself from enemy attack. Hope for better things and a faith in your abilities can protect even amidst the most violent of wars. A man without hope is lost even before the battle has begun. It is essential that you make this shield strong. Make it hard and impenetrable.

Make your shield so strong
that **it is impossible to
break it.** Such a strong
shield will keep you safe
and going in the face of
difficulties and challenges.

Way # 3 : Enemies—Fear, Misery and Worry

Unlike in the olden days, today your greatest enemies are invisible. They strike with rapidity and disappear but leave behind damage and destruction in their path. You have to be on guard not to let these enemies have their way. You must not give into their demands. You must not sway to their commands. Though invisible; the damage they cause at times can be permanent and lasting.

To face these enemies you need to sharpen you weapons and strengthen your shield. Let your sword of courage cut through these enemies like a reaper that cuts through corn. You should always be ready to face them. Only when you are **able to defeat these enemies you will be able to achieve success.**

Way # 4 : Chariot—Action

Just as a horse carries a warrior in the battlefield let action carry you forward. Let there be continuous action and movement in your life. A swift horse can give you speed and safety and it will allow you to navigate the battlefield with ease. With swift action you can reach your goals faster. It will propel you to victory much faster.

A fisherman in a small boat on a body of water at sunset, holding a large net. The sun is low on the horizon, casting a golden glow over the scene. The fisherman is silhouetted against the bright light of the sun. The net is large and made of a fine mesh, with a red float visible. The water is calm, reflecting the light from the sun. In the background, the silhouettes of other boats and structures are visible on the horizon.

All the difficulties that
arise can be sorted out
along the way with **swift**
and **planned action**.

Way # 5 : Army—Contacts and Team

You cannot win any war alone. You need to have an army to help you. To succeed in the present age you need to build a strong team of advisors. You need to choose people carefully. You must choose your generals wisely, those who could guide you and help you on the road to success. It is also equally important that you know the right people to get things done.

You must have the right contacts to **help you move faster.
A strong team is essential for success and can go a long way
in determining the outcome of any war.**

Way # 6 : War—A fight for your dreams

You may not be able to wage wars for conquering lands and kingdoms but today's wars are about achieving success. The battle is all about making your dreams come true.

"All our dreams can come
true, if we **have the courage**
to pursue them."
- Walt Disney

Way # 7 : Victory—Success and happiness

In the end the victory everyone strives for is success and happiness. It is the ultimate prize for waging any war. To emerge victorious in the modern day war you need to use your weapons, shields, horses and your army effectively. You need to act on plans. Before getting into a war you need to think strategically and plan carefully to maximize your chances of victory.

A man in a dark suit is captured in mid-air, jumping over a horizontal red ribbon. He is holding a dark briefcase in his left hand and has his right arm raised in a celebratory gesture. The background is a bright, warm yellow-orange gradient, suggesting a sunrise or sunset. The overall mood is one of triumph and achievement.

If you believe in yourself
and have **dedication** and
pride - and **never quit**,
you'll be a winner. The
price of victory is high
but so are the rewards.
- Paul Bryant

You are a modern day warrior,
life is your battlefield. It's time
for you to **wage your war,
defeat your enemies and
emerge victorious.**

The battle is yours for the
fighting. **Go on and win it!!!**

Summary Of Thoughts

What are you waiting for???
