

The Real Failure!!!

A man in a brown robe and red hood stands on a rocky outcrop, looking down at a valley. In the background, a large stone bridge with multiple arches spans a river. The scene is framed by bare, dark tree branches in the foreground. The overall atmosphere is somber and contemplative.

Do you dread failure? Does the thought of failing scare you? Do you worry that your family, your friends, your well-wishers will think of less of you if you fail. The thought of failure **keeps many of us from taking the steps to reach our goal.**

Many of us are so paralyzed by **the fear of failure** that we don't dare even to begin.
The bottom-line is that failure scares us.
We are all afraid of it.

I am sure you dream of success. We all do. But fear stops you from taking action. We fear failure and its consequences but rarely realize **the consequences of not trying**, the results of not even taking a shot.

When it comes to succeeding and reaching the top try is a very weak word. Either you fling yourself completely into the task or do not touch it, but at times **giving a try** is all that is necessary to get you onto the right track.

A try is all that is needed to push you on.
Failure is not final, neither is it fatal. **It's only
a temporary stop.** You shouldn't fear failure
so much as lack of effort or a failure to try.

Every great success story is also the story of a great failure. Every success story is filled with failures. Successful men are those who refused to give in to failure. **They tried, kept on trying. They pushed on until they moved beyond failure.**

A person wearing a red and black striped shirt and plaid shorts is crouching on the edge of a dark, rocky cliff. They are looking down into a river where a large splash of water is visible, creating a misty spray. The background shows a riverbank with green trees and bushes under a hazy sky.

Failure is considered with the condition or situation when you tried to do something and **it did not work out and you could not do it** and that's it!!!

You are fail. This is a whole wrong explanation to the failure. Failure is nothing but **a state from where you can turn back or move ahead.**

Failure doesn't mean you are
a failure; It does mean **you**
haven't succeeded yet.

Failure doesn't mean you don't have it; It does mean you have **to do something in a different way.**

Failure doesn't mean you
are inferior; It does mean
you are not perfect.

**Failure doesn't mean you've
wasted your life; It does mean
you've a reason to start afresh.**

Failure doesn't mean you
should give up; It does mean
you should try harder.

Failure doesn't mean you'll
never make it; It does mean
it will take a little longer.

Failure doesn't mean you have
been a fool; It does mean
you had a lot of faith.

Failure doesn't mean you
have accomplished nothing;
It does mean **you have
learned something.**

Failure doesn't mean you have
been disgraced; It does mean
you were willing to try.

The next time when you catch yourself saying “Oh! I just can’t do it” **at least give it a try.**

Perhaps it could work out or
it might not. **At least give it
a shot** before you decide
that you cannot do it.

If you do not try chances are that in future you will end up with regret that you could have been successful if only you had taken that chance. **It's better to take a chance now than end up with regret later. So give it a try, won't you?**

The only real failure in
life is **the failure to try**

Let's try it once!!!
