

EXCEL BUG

Open fresh excel sheet.

Enter in A1 =77.1*850 then hit enter.

What is the value shown in A1?

If A1 shows 65535, then there is no problem, carry on your work.

But, if A1 shows 100000, your excel having the **bug...**, check all the below calculations also.

					<u>Actual</u>
77.10	x	850.00	=	100000.00	65535.00
5.10	x	12850.00	=	100000.00	65535.00
10.20	x	6425.00	=	100000.00	65535.00
20.40	x	3212.50	=	100000.00	65535.00
40.80	x	1606.25	=	100000.00	65535.00
154.20	x	425.00	=	100000.00	65535.00
212.50	x	308.40	=	100000.00	65535.00
308.40	x	212.50	=	100000.00	65535.00
425.00	x	154.20	=	100000.00	65535.00
38.55	x	1700.00	=	100000.00	65535.00
10.28	x	6375.00	=	100000.00	65535.00
6425.00	x	10.20	=	100000.00	65535.00
12750.00	x	5.14	=	100000.00	65535.00
12850.00	x	5.10	=	100000.00	65535.00
25500.00	x	2.57	=	100000.00	65535.00
25700.00	x	2.55	=	100000.00	65535.00
106.25	x	616.8	=	100000.00	65535.00
803.125	x	81.6	=	100000.00	65535.00
401.5625	x	163.2	=	100000.00	65535.00

If your excel shows as 100000, then try the following solution.

SOLUTION

To resolve this problem, install the latest Service Pack of your Microsoft office version and confirm the above error solved or not.

NOTE : When we got this error in Excel 2007, we installed the Service Pack-2 (Office 2007 SP_2), then the above problem solved.
