The Tally 9 Advantage

When your business runs on Tally 9 you will begin to see clear business benefits accrue almost immediately. With Tally 9 you work towards increasing revenue, while lowering operating costs and enhancing competitive advantage.

Salient Features	Benefits
Concurrent Multi-lingual Capability	Allows you to enter accounts, view them and print reports in any language of your choice... at the same time.
Payroll	Offers enhanced payroll management with automatic calculation of salaries and payslip generation.
POS Invoicing	Allows faster data entry and printing in 40 column continuous stationery. Also provides barcode support.
Unlimited Companies	Allows creation and maintenance of multiple companies concurrently.
Data Synchronisation	Helps synchronise and update data across multiple locations, thus enabling fast and easy access/exchange of business information between offices and branches, across various geographies.
Consolidation of Companies	Enables grouping of companies and provides consolidated reports. Changes done in any constituent or branch company is automatically updated in the grouped information.
Export to Excel	Helps export of any report generated by Tally in MS Excel format.

Your business has numerous processes. Some simple, others complex and cumbersome. But as your business grows, acquires new customers, enters new markets and keeps pace with constant changes in statutory regulations, it will need to maintain highly accurate and up-to-date accounting, inventory and statutory records. Plus, accelerated business growth could mean reduced visibility across some areas of your business operations and processes.

This is where a complete business accounting software like Tally 9, with its blazing speed, power, reliability and scalability, helps simplify, integrate, and streamline all your business processes, cost-effectively and easily.

Tally 9 - Fast, Powerful, Scalable And Very Reliable

Built on the path-breaking proprietary technology of Tally Solutions - *C:MuLATE* (Concurrent Multi-lingual Accelerated Technology Engine) - Tally 9 is a perfect fusion between the path-breaking Concurrent Multi-lingual Platform and an Object Oriented Database Engine- technology on which someday all business accounting solutions will be built. **Result:** Blazing speed and power backed by immense reliability and amazing scalability.

Tally 9 - For Total Control. Complete Visibility

Tally 9 frees you to do what you do best - *run your business*. Giving you time to plan, increase your customer base, enhance customer satisfaction and much more. With Tally 9 you will have greater visibility and control of your day-to-day business operations and access to vital information.

Tally 9 - For Enhanced User Experience

Tally 9 is all about enhanced user experience, simplicity, flexibility and versatility. It allows you to enter data in a variety of ways without the usual restrictive formats of most computer programs; thus making work a pleasure. Tally 9 gives you the flexibility to work the way you want to, adapting to your specific business needs - no matter how simple, advanced or complex they are.

Tally 9 - For Complete Reliability

The path-breaking technology of Tally makes the application so secure that your critical financial data is not only safe from data corruption but is protected even from sudden power outages or system shutdown.

Tally 9 - Affordable And Available

Tally 9 is a simple to use, yet powerful and complete business software. What's more, Tally 9 is also available at leading IT outlets across your city, at an unbelievable price!

Tally 9 - Helps Reduce Costs And Increase Productivity

Reduces Costs

Salient Features	Benefits
Receivables and Payables Management	Enhances on-time collections, resulting in better cash flow and savings on interest. Generates periodic reminder letters.
Payment Performance of Debtors	Identifies troublesome debtors and persistent late payers; thereby helping you take the right decisions.
Inventory Management	Improves inventory management by providing accurate information; be it on stock status, item-wise profitability or movement of items.
Stock Ageing	Identifies stocks based on age, helping you to dispose old stock quickly.
Reorder Levels	Allows for user-defined Reorder Levels for any given period; helping you avoid excess stocking of items while ensuring that you don't run out of essential stock.

Increases Productivity

Salient Features	Benefits
Unlimited Levels of Classification	Facilitates ledger classification and re-classifications as required. Enables easy viewing and analysis of information; thus aiding in informed decision-making.
Advanced MIS	Compares information in order to understand and analyse performance levels for various periods or divisions. Helps you study and understand the buying patterns of customers, so that you can channelise your resources to specific segments, periods or customers. Also helps you analyse cash flow situations.
Generate Quotations, Orders, Invoice, Voucher and Cheque Printing	The integrated system ensures real-time linking of accounts and inventory besides enabling instantaneous generation of documents, which can be either printed or mailed directly to the recipient, thus saving time and money.
Flexible Units of Measure	Helps in tracking stock irrespective of the units of measure. For example, when you buy in tons and sell in kilograms or buy in crates and sell as pieces.
Multi-Location Warehouse Management	Helps you track stock movement; allowing you to decide which warehouse to ship from, depending on stock position.
Multiple Price Levels	Allows you to pre-define item rates for specific categories of customers, enabling faster and error-free invoicing and data entry.
Drill Down Facility	Helps you to drill down or instantly update from any report - starting from the Balance Sheet down to Vouchers, or vice versa.
Profitability Analysis	Provides product-wise and invoice-wise profitability. This helps you identify products with high/low margins.

Tally 9 - Simplifies All Your Statutory Processes

The statutory compliance capabilities of Tally 9 - spanning VAT, TDS, Service Tax, Excise for Traders, CST & FBT - are designed to simplify all your statutory processes.
