ABOUT THIS PROGRAM

Technology has provided the means for people to innovate -- along with the means for viewers to edit, alter, distort, and redistribute the words, sounds, and images they find on the Internet. This raises the issues of respect and integrity and increases violations of patents, trademark and copyrights. The objective of the course is to provide a comprehensive training module for all the compulsory components of IPR issues in Cyberspace. The course is specifically designed by experts of Law pedagogy and offers the best chance to engage in Legal Understanding of Digital IP World.

This is an interactive course with a limited number of participants. The program guarantees individual attention to all students and aims at sharpening their practice through regular test and class evaluations.

OUTLINE OF THE PROGRAM

- Impact of Internet on IPR
- Legal instruments of IP Protection
- Copyright protection in cyberspace
