This Standard on Internal Audit (SIA) 370, *Reporting Results to Management*, issued by the Council of the Institute of Chartered Accountants of India should be read in conjunction with the “Preface to the Standards on Internal Audit,” “Framework governing Internal Audits” and “Basic Principles of Internal Audit” issued by the Institute.

1.0 INTRODUCTION

- 1.1 Dissemination the results of internal audit and reporting the findings to management, and those charged with governance, is the most critical part of any internal audit. Reporting of results needs to be done with a certain level of uniformity and, both the Internal Auditor and the recipient of the reports, should have clarity with regard to the nature of assurance being provided through these reports.
 - 1.2 Reporting of internal audit results is generally undertaken in two stages:
 - a. At the end of a particular audit assignment, an “Internal Audit Report” covering a specific area, function or part of the entity is prepared by the Internal Auditor highlighting key observations arising from those assignments. This report is generally issued with details of the manner in which the assignment was conducted and the key findings from the audit procedures undertaken. This report is issued to the auditee, with copies shared with local and executive management, as agreed during the planning phase.
 - b. On a periodic basis, at the close of a plan period, a comprehensive report of all the internal audit activities covering the whole entity and the plan period is prepared by the Chief Internal Auditor (or the Engagement Partner, in case of external service provider). Such reporting is normally done on a quarterly basis and submitted to the highest governing authority responsible for internal audits, generally the Audit Committee. Some part of the aforementioned Internal Audit Reports may form part of the periodic (Quarterly) report shared with the Audit Committee.
 - 1.3 Scope: This Standard on Internal Audit (SIA) deals with the internal auditor’s responsibility to issue only the first type of reports, the Internal Audit Report pertaining to individual audit assignments and not to the periodic (Quarterly) reporting for the whole entity as per the Annual/Quarterly audit plan. Also, this SIA does not cover the form or content of the Internal Audit Report where an assurance is being provided, for which a separate Standard on Internal Audit (SIA) 380, *Issuing Assurance Reports* should be referred to.
-

2.0 OBJECTIVES

- (a) Share with the auditee, details of all significant findings based on audit procedures undertaken;
 - (b) Permit management to understand the issues and take corrective actions in a methodical and comprehensive manner; and
 - (c) Provide a sound basis for any assurance being provided by the Internal Auditor.
- 2.2 The overall objective of Reporting Results to Management is to provide the receiver with a written outcome on the effectiveness of internal controls and risk management processes to enhance governance in line with the Internal Audit Charter (or Terms of Reference, in case of external service provider).
