Dear Valued Anagram Patrons,

Sub : Exclusive Chat with our Team to learn more about Currency Futures

Anagram sees lot of potential in Currency segment for Importers / Exporters, Money Changers, Forex Professionals and Individual Traders. Globally Forex Market is 10 times the size of Equity Market. In Indian context it is growing at an exponential pace and since 9 months of its launch it is now almost 6500-7000 crores a day market.

Globally this is the largest traded Derivative product and since it is governed more by macro Economic factors no operator or large group of operators can influence its movement. Movement is narrow but at the same time enough to provide trading opportunities. For Importers & Exporters it provides direct, real-time access to markets and transparent, cost effective way for hedging their exposures.

We have been amongst the first ones to develop this segment and in a short span with your support we have been able to make a mark in the fast evolving segment. We have seen that there is lot needed to be done in terms of Client education in this segment. One more step towards our series of educating Clients and prospects on the same we have kept an Exclusive Chat for you by our Senior Currency Professionals who will interact with you through Yahoo Chat on June 27, 2009 between 11.00 a.m. to 1.00 p.m.

We hope the same would be helpful to you in de-mystifying Currency Futures and understand the same better. Our team will be eager to take up your queries through Yahoo ID.
