OF -“AUDITING” especially for the C.A. PCC Auditing paper.

All students (PCC NOV 09) cordially invited to attend (according to your preparation) the at least one class because even, one lecture being helpful to you in the exam,

Mostly students ignore this important portion while preparing for the examination. While, some of the students who prepare this portion initially, are unable to revise it just before the examination due to its volume correlating it with the time constraint.

This is just an attempt to reduce the volume to enable quick revision during those crucial hours.

However, these can be customized according to the personal choice, as these classes is not a substitute to the detailed content provided by ICAI

If these classes prove to be helpful (even minutely in any context), then the basic purpose would become successful. Feedback of any type whether positive or negative will be highly appreciated.
