Material Modifications to ISA 250, "Consideration of Laws and Regulations in an Audit of Financial Statements"	

Standard on Auditing (SA) 250 (Revised), "Consideration of Laws and Regulations in an Audit of Financial Statements", should be read in the context of the "Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services²", which sets out the authority of SAs.

¹ Earlier known as Auditing and Assurance Standard (AAS) 21, "Consideration of Laws and Regulations in an Audit of Financial Statements".

² Published in the July, 2007 issue of the Journal.

Revised Standard on Auditing (SA) 250

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibility to consider laws and regulations when performing an audit of financial statements. This SA does not apply to other assurance engagements in which the auditor is specifically engaged to test and report separately on compliance with specific laws or regulations.

Effect of Laws and Regulations

2. The effect on the financial statements of laws and regulations varies considerably. Those laws and regulations to which an entity is subject constitute the legal and regulatory framework. The provisions of some laws or regulations have a direct effect on the financial statements in that they determine the reported amounts and disclosures in an entity's financial statements. Other laws or regulations are to be complied with by management or set the provisions under which the entity is allowed to conduct its business but do not have a direct effect on an entity's financial statements. Some entities operate in heavily regulated industries (such as banks and chemical companies). Others are subject only to the many laws and regulations that relate generally to the operating aspects of the business (such as those related to occupational safety and health). Non-compliance with laws and regulations may result in fines, litigation or other consequences for the entity that may have a material effect on the financial statements.

Responsibility of Management for Compliance with Laws and Regulations

3. It is the responsibility of management, with the oversight of those charged with governance, to ensure that the entity's operations are conducted in accordance with the provisions of laws and regulations, including compliance with the provisions of laws and regulations that determine the reported amounts and disclosures in an entity's financial statements. (Ref: Para. A1-A2)

Consideration of Laws and Regulations

Responsibility of the Auditor (Ref: Para. A3-A6)

4. The requirements in this SA are designed to assist the auditor in identifying material misstatement of the financial statements due to non-compliance with laws and regulations. However, the auditor is not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

5. The auditor is responsible for obtaining reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error.³ In conducting an audit of financial statements, the auditor takes into account the applicable legal and regulatory framework. Owing to the inherent limitations of an audit, there is an unavoidable risk that some material misstatements in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the SAs.⁴ In the context of laws and regulations, the potential effects of inherent limitations on the auditor's ability to detect material misstatements are greater for such reasons as the following:

- There are many laws and regulations, relating principally to the operating aspects of an entity, that typically do not affect the financial statements and are not captured by the entity's information systems relevant to financial reporting.
- Non-compliance may involve conduct designed to conceal it, such as collusion, forgery, deliberate failure to record transactions, management override of controls or intentional misrepresentations being made to the auditor.
- Whether an act constitutes non-compliance is ultimately a matter for legal determination by a court of law.

³ Attention is invited to SA 200, "Basic Principles Governing an Audit" and SA 200A, "Objective and Scope of the Audit of Financial Statements". Both the SAs are being revised in the light of the Revised ISA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in accordance with International Standards on Auditing".

⁴ See footnote 3.

Revised Standard on Auditing (SA) 250

Ordinarily, the further removed non-compliance is from the events and transactions reflected in the financial statements, the less likely the auditor is to become aware of it or to recognise the non-compliance.

6. This SA distinguishes the auditor's responsibilities in relation to compliance with two different categories of laws and regulations as follows:

- (a) The provisions of those laws and regulations generally recognised to have a direct effect on the determination of material amounts and disclosures in the financial statements such as tax and labour laws. (see paragraph 13); and
- (b) Other laws and regulations that do not have a direct effect on the determination of the amounts and disclosures in the financial statements, but compliance with which may be fundamental to the operating aspects of the business, to an entity's ability to continue its business, or to avoid material penalties (for example, compliance with the terms of an operating license, compliance with regulatory solvency requirements, or compliance with environmental regulations); non-compliance with such laws and regulations may therefore have a material effect on the financial statements (see paragraph 14).

7. In this SA, differing requirements are specified for each of the above categories of laws and regulations. For the category referred to in paragraph 6(a), the auditor's responsibility is to obtain sufficient appropriate audit evidence about compliance with the provisions of those laws and regulations. For the category referred to in paragraph 6(b), the auditor's responsibility is limited to undertaking specified audit procedures to help identify non-compliance with those laws and regulations that may have a material effect on the financial statements.

8. The auditor is required by this SA to remain alert to the possibility that other audit procedures applied for the purpose of forming an opinion on financial statements may bring instances of identified or suspected non-compliance to the auditor's attention. Maintaining an attitude of professional skepticism throughout

Consideration of Laws and Regulations

the audit, as required by proposed SA 200 (Revised),⁵ is important in this context, given the extent of laws and regulations that affect the entity.

Effective Date

9. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2009.

Objectives

10. The objectives of the auditor are:

- (a) To obtain sufficient appropriate audit evidence regarding compliance with the provisions of those laws and regulations generally recognised to have a direct effect on the determination of material amounts and disclosures in the financial statements;
- (b) To perform specified audit procedures to help identify instances of non-compliance with other laws and regulations that may have a material effect on the financial statements; and
- (c) To respond appropriately to non-compliance or suspected non-compliance with laws and regulations identified during the audit.

Definition

11. For the purposes of this SA, the following term has the meaning attributed below:

Non-compliance – Acts of omission or commission by the entity, either intentional or unintentional, which are contrary to the prevailing laws or regulations. Such acts include transactions entered into by, or in the name of, the entity, or on its behalf, by those charged with governance, management or employees. Non-compliance does not include personal misconduct (unrelated to the business activities of the entity) by those charged with governance, management or employees of the entity.

⁵ See footnote 3.

Revised Standard on Auditing (SA) 250

Requirements

The Auditor's Consideration of Compliance with Laws and Regulations

12. As part of obtaining an understanding of the entity and its environment in accordance with SA 315,⁶ the auditor shall obtain a general understanding of:

- (a) The legal and regulatory framework applicable to the entity and the industry or sector in which the entity operates; and
- (b) How the entity is complying with that framework. (Ref: Para. A7)

13. The auditor shall obtain sufficient appropriate audit evidence regarding compliance with the provisions of those laws and regulations generally recognised to have a direct effect on the determination of material amounts and disclosures in the financial statements. (Ref: Para. A8)

14. The auditor shall perform the following audit procedures to help identify instances of non-compliance with other laws and regulations that may have a material effect on the financial statements:

- (a) Inquiring of management and, where appropriate, those charged with governance, as to whether the entity is in compliance with such laws and regulations; and
- (b) Inspecting correspondence, if any, with the relevant licensing or regulatory authorities. (Ref: Para. A9-A10)

15. During the audit, the auditor shall remain alert to the possibility that other audit procedures applied may bring instances of non-compliance or suspected non-compliance with laws and regulations to the auditor's attention. (Ref: Para. A11)

16. The auditor shall request management and, where appropriate, those charged with governance to provide written representations that all known

⁶ SA 315, "Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment", paragraph 11.

Consideration of Laws and Regulations

instances of non-compliance or suspected non-compliance with laws and regulations whose effects should be considered when preparing financial statements have been disclosed to the auditor. (Ref: Para. A12)

17. In the absence of identified or suspected non-compliance, the auditor is not required to perform audit procedures regarding the entity's compliance with laws and regulations, other than those set out in paragraphs 12-16.

Audit Procedures When Non-Compliance is Identified or Suspected

18. If the auditor becomes aware of information concerning an instance of non-compliance or suspected non-compliance with laws and regulations, the auditor shall obtain: (Ref: Para. A13)

- (a) An understanding of the nature of the act and the circumstances in which it has occurred; and
- (b) Further information to evaluate the possible effect on the financial statements. (Ref: Para. A14)

19. If the auditor suspects there may be non-compliance, the auditor shall discuss the matter with management and, where appropriate, those charged with governance. If management or, as appropriate, those charged with governance do not provide sufficient information that supports that the entity is in compliance with laws and regulations and, in the auditor's judgment, the effect of the suspected non-compliance may be material to the financial statements, the auditor shall consider the need to obtain legal advice. (Ref: Para. A15-A16)

20. If sufficient information about suspected non-compliance cannot be obtained, the auditor shall evaluate the effect of the lack of sufficient appropriate audit evidence on the auditor's opinion.

21. The auditor shall evaluate the implications of non-compliance in relation to other aspects of the audit, including the auditor's risk assessment and the reliability of written representations, and take appropriate action. (Ref: Para. A17-A18)

Revised Standard on Auditing (SA) 250

Reporting of Identified or Suspected Non-Compliance

Reporting Non-Compliance to Those Charged with Governance

22. Unless all of those charged with governance are involved in management of the entity, and therefore are aware of matters involving identified or suspected non-compliance already communicated by the auditor,⁷ the auditor shall communicate with those charged with governance matters involving non-compliance with laws and regulations that come to the auditor's attention during the course of the audit, other than when the matters are clearly inconsequential.

23. If, in the auditor's judgment, the non-compliance referred to in paragraph 22 is believed to be intentional and material, the auditor shall communicate the matter to those charged with governance as soon as practicable.

24. If the auditor suspects that management or those charged with governance are involved in non-compliance, the auditor shall communicate the matter to the next higher level of authority at the entity, if it exists, such as an audit committee or supervisory board. Where no higher authority exists, or if the auditor believes that the communication may not be acted upon or is unsure as to the person to whom to report, the auditor shall consider the need to obtain legal advice.

Reporting Non-Compliance in the Auditor's Report on the Financial Statements

25. If the auditor concludes that the non-compliance has a material effect on the financial statements, and has not been adequately reflected in the financial statements, the auditor shall, in accordance with Proposed SA 705⁸, express a qualified or adverse opinion on the financial statements.

26. If the auditor is precluded by management or those charged with

⁷ Revised SA 260, "Communication with Those Charged with Governance", paragraph 9.

⁸ Proposed SA 705, "Modifications to the Opinion in the Independent Auditor's Report". The Standard is being formulated in the light of the corresponding International Standard. Presently, the concept of modified opinion is dealt within SA 700, "The Auditor's Report on Financial Statements".

Consideration of Laws and Regulations

governance from obtaining sufficient appropriate audit evidence to evaluate whether non-compliance that may be material to the financial statements has, or is likely to have, occurred, the auditor shall express a qualified opinion or disclaim an opinion on the financial statements on the basis of a limitation on the scope of the audit in accordance with Proposed SA 705.

27. If the auditor is unable to determine whether non-compliance has occurred because of limitations imposed by the circumstances rather than by management or those charged with governance, the auditor shall evaluate the effect on the auditor's opinion in accordance with Proposed SA 705.

Reporting Non-Compliance to Regulatory and Enforcement Authorities

28. If the auditor has identified or suspects non-compliance with laws and regulations, the auditor shall determine whether the auditor has a responsibility to report the identified or suspected non-compliance to parties outside the entity. (Ref: Para. A19-A20)

Documentation

29. The auditor shall document identified or suspected non-compliance with laws and regulations and the results of discussion with management and, where applicable, those charged with governance and other parties outside the entity. (Ref: Para. A21)

Application and Other Explanatory Material

Responsibility for Compliance with Laws and Regulations

Responsibility of Management for Compliance with Laws and Regulations
(Ref: Para. 3)

A1. Management, with the oversight of those charged with governance, is responsible for ensuring that the entity's operations are conducted in accordance with laws and regulations. Laws and regulations may affect an entity's financial

Revised Standard on Auditing (SA) 250

statements in different ways: for example, most directly, they may affect specific disclosures required of the entity in the financial statements or they may prescribe the applicable financial reporting framework⁹. They may also establish certain legal rights and obligations of the entity, some of which will be recognised in the entity's financial statements. In addition, laws and regulations may impose penalties in cases of non-compliance.

A2. The following are examples of the types of policies and procedures an entity may implement to assist in the prevention and detection of non-compliance with laws and regulations:

- Monitoring legal requirements and ensuring that operating procedures are designed to meet these requirements.
- Instituting and operating appropriate systems of internal control.
- Developing, publicising and following a code of conduct.
- Ensuring employees are properly trained and understand the code of conduct.
- Monitoring compliance with the code of conduct and acting appropriately to discipline employees who fail to comply with it.

⁹ Revised ISA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in accordance with International Standards on Auditing", paragraph 13 (a) defines the applicable financial reporting framework as "The financial reporting framework adopted by management and, where appropriate, those charged with governance in the preparation and presentation of the financial statements that is acceptable in view of the nature of the entity and the objective of the financial statements, or that is required by law or regulation. The term "fair presentation framework" is used to refer to a financial reporting framework that requires compliance with the requirements of the framework and:

(i) Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework; or

(ii) Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such departures are expected to be necessary only in extremely rare circumstances.

The term "compliance framework" is used to refer to a financial reporting framework that requires compliance with the requirements of the framework, but does not contain the acknowledgements in (i) or (ii) above".

Consideration of Laws and Regulations

- Engaging legal advisors to assist in monitoring legal requirements.
- Maintaining a register of significant laws and regulations with which the entity has to comply within its particular industry and a record of complaints.

In larger entities, these policies and procedures may be supplemented by assigning appropriate responsibilities to the following:

- An internal audit function.
- An audit committee.
- A compliance function.

Responsibility of the Auditor (Ref: Para. 4-8)

A3. Non-compliance by the entity with laws and regulations may result in a material misstatement of the financial statements. Detection of non-compliance, regardless of materiality, may affect other aspects of the audit including, for example, the auditor's consideration of the integrity of management or employees.

A4. Whether an act constitutes non-compliance with laws and regulations is a matter for legal determination, which is ordinarily beyond the auditor's professional competence to determine. Nevertheless, the auditor's training, experience and understanding of the entity and its industry or sector may provide a basis to recognise that some acts, coming to the auditor's attention, may constitute non-compliance with laws and regulations.

A5. In accordance with specific statutory requirements, the auditor may be specifically required to report, as part of the audit of the financial statements, on whether the entity complies with certain provisions of laws or regulations. In these circumstances, proposed SA 700 (Revised)¹⁰ or proposed SA 800¹¹ deal

¹⁰ Hitherto known as AAS 28. Proposed SA 700 (Revised), "Forming an Opinion and Reporting on Financial Statements", is under revision.

¹¹ Proposed SA 800, "Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks".

Revised Standard on Auditing (SA) 250

with how these audit responsibilities are addressed in the auditor's report. Furthermore, where there are specific statutory reporting requirements, it may be necessary for the audit plan to include appropriate tests for compliance with those provisions of the laws and regulations.

A6. In some audit engagements, specially those relating to audit of government ventures and undertakings, etc., there may be additional audit responsibilities with respect to the consideration of laws and regulations which may relate to the audit of financial statements or may extend to other aspects of the entity's operations.

The Auditor's Consideration of Compliance with Laws and Regulations

Obtaining an Understanding of the Legal and Regulatory Framework (Ref: Para. 12)

A7. To obtain a general understanding of the legal and regulatory framework, and how the entity complies with that framework, the auditor may, for example:

- Use the auditor's existing understanding of the entity's industry, regulatory and other external factors;
- Update the understanding of those laws and regulations that directly determine the reported amounts and disclosures in the financial statements;
- Inquire of management as to other laws or regulations that may be expected to have a fundamental effect on the operations of the entity;
- Inquire of management concerning the entity's policies and procedures regarding compliance with laws and regulations; and
- Inquire of management regarding the policies or procedures adopted for identifying, evaluating and accounting for litigation claims.

Laws and Regulations Generally Recognised to have a Direct Effect on the

Consideration of Laws and Regulations

Determination of Material Amounts and Disclosures in the Financial Statements (Ref: Para. 13)

A8. Certain laws and regulations are well-established, known to the entity and within the entity's industry or sector, and relevant to the entity's financial statements (as described in paragraph 6(a)). They could include those that relate to, for example:

- The form and content of financial statements;
- Industry-specific financial reporting issues;
- Accounting for transactions under government contracts; or
- The accrual or recognition of expenses for income tax or retirement benefits.

Some matters may be relevant to specific assertions (for example, the completeness of income tax provisions), while others may be relevant to the financial statements as a whole (for example, the required statements constituting a complete set of financial statements). Non-compliance with other laws and regulations may result in fines, litigation or other consequences for the entity, the costs of which may need to be provided for in the financial statements, but are not considered to have a direct effect on the financial statements as described in paragraph 6(a).

Procedures to Identify Instances of Non-Compliance – Other Laws and Regulations (Ref: Para. 14)

A9. Certain other laws and regulations may need particular attention by the auditor because they have a fundamental effect on the operations of the entity (as described in paragraph 6(b)). Non-compliance with laws and regulations that have a fundamental effect on the operations of the entity may cause the entity to cease operations, or call into question the entity's continuance as a going concern. For example, non-compliance with the requirements of the entity's license or other entitlement to perform its operations could have such an impact (for example, for a bank, non-compliance with capital or investment requirements). To illustrate further, a Non Banking Financial Company might have to cease to carry on the business of a non-banking financial institution if it

Revised Standard on Auditing (SA) 250

fails to obtain a certificate of registration issued under Chapter III B of the Reserve Bank of India Act, 1934 and if its Net Owned Funds are less than the amount specified by the RBI in this regard. There are also many laws and regulations relating principally to the operating aspects of the entity that typically do not affect the financial statements and are not captured by the entity's information systems relevant to financial reporting.

A10. As the financial reporting consequences of other laws and regulations can vary depending on the entity's operations, the audit procedures required by paragraph 14 are directed to bringing to the auditor's attention instances of non-compliance with laws and regulations that may have a material effect on the financial statements.

Non-Compliance brought to the Auditor's Attention by Other Audit Procedures (Ref: Para. 15)

A11. Audit procedures applied to form an opinion on the financial statements may bring instances of non-compliance or suspected non-compliance with laws and regulations to the auditor's attention. For example, such audit procedures may include:

- Reading minutes;
- Inquiring of the entity's management and in-house legal counsel or external legal counsel concerning litigation, claims and assessments; and
- Performing substantive tests of details of classes of transactions, account balances or disclosures.

Written Representations (Ref: Para. 16)

A12. Because the effect on financial statements of laws and regulations can vary considerably, written representations provide necessary audit evidence about management's knowledge of identified or suspected non-compliance with laws and regulations, whose effects may have a material effect on the financial statements. However, written representations do not provide sufficient appropriate audit evidence on their own and, accordingly, do not affect the

Consideration of Laws and Regulations

nature and extent of other audit evidence that is to be obtained by the auditor.¹²

Audit Procedures When Non-Compliance is Identified or Suspected

Indications of Non-Compliance with Laws and Regulations (Ref: Para. 18)

A13. When the auditor becomes aware of the existence of, or information about, the following matters, it may be an indication of non-compliance with laws and regulations:

- Investigations by regulatory organisations and government departments or payment of fines or penalties.
- Payments for unspecified services or loans to consultants, related parties, employees or government employees.
- Sales commissions or agent's fees that appear excessive in relation to those ordinarily paid by the entity or in its industry or to the services actually received.
- Purchasing at prices significantly above or below market price.
- Unusual payments in cash, purchases in the form of cashiers' cheques payable to bearer or transfers to numbered bank accounts.
- Unusual payments towards legal and retainership fees.
- Unusual transactions with companies registered in tax havens.
- Payments for goods or services made other than to the country from which the goods or services originated.
- Payments without proper exchange control documentation.
- Existence of an information system which fails, whether by design or by accident, to provide an adequate audit trail or sufficient evidence.
- Unauthorised transactions or improperly recorded transactions.
- Adverse media comment.

Matters Relevant to the Auditor's Evaluation (Ref: Para. 18(b))

¹² SA 580 (Revised), "Written Representations", paragraph 3.

Revised Standard on Auditing (SA) 250

A14. Matters relevant to the auditor's evaluation of the possible effect on the financial statements include:

- The potential financial consequences of non-compliance with laws and regulations on the financial statements including, for example, the imposition of fines, penalties, damages, threat of expropriation of assets, enforced discontinuation of operations, and litigation.
- Whether the potential financial consequences require disclosure.
- Whether the potential financial consequences are so serious as to call into question the fair presentation of the financial statements, or otherwise make the financial statements misleading.

Audit Procedures (Ref: Para. 19)

A15. The auditor may discuss the findings with those charged with governance where they may be able to provide additional audit evidence. For example, the auditor may confirm that those charged with governance have the same understanding of the facts and circumstances relevant to transactions or events that have led to the possibility of non-compliance with laws and regulations.

A16. If management or, as appropriate, those charged with governance do not provide sufficient information to the auditor that the entity is in fact in compliance with laws and regulations, the auditor may consider it appropriate to consult with the entity's in-house legal counsel or external legal counsel about the application of the laws and regulations to the circumstances, including the possibility of fraud, and the possible effects on the financial statements. When it is not considered appropriate to consult with the entity's legal counsel or when the auditor is not satisfied with the legal counsel's opinion, the auditor may consider it appropriate to consult the auditor's own legal counsel as to whether a contravention of a law or regulation is involved, the possible legal consequences, including the possibility of fraud, and what further action, if any, the auditor would take.

Evaluating the Implications of Non-Compliance (Ref: Para. 21)

Consideration of Laws and Regulations

A17. As required by paragraph 21, the auditor evaluates the implications of non-compliance in relation to other aspects of the audit, including the auditor's risk assessment and the reliability of written representations. The implications of particular instances of non-compliance identified by the auditor will depend on the relationship of the perpetration and concealment, if any, of the act to specific control activities and the level of management or employees involved, especially implications arising from the involvement of the highest authority within the entity.

A18. In exceptional cases, the auditor may consider whether, unless prohibited by law or regulation, withdrawal from the engagement is necessary when management or those charged with governance do not take the remedial action that the auditor considers appropriate in the circumstances, even when the non-compliance is not material to the financial statements. When deciding whether withdrawal from the engagement is necessary, the auditor may consider seeking legal advice. If withdrawal from the engagement is prohibited, the auditor may consider alternative actions, including describing the non-compliance in an Other Matter(s) paragraph in the auditor's report.¹³

Reporting of Identified or Suspected Non-Compliance

Reporting Non-Compliance to Regulatory and Enforcement Authorities (Ref: Para. 28)

A19. The auditor's professional duty to maintain the confidentiality of client information may preclude reporting identified or suspected non-compliance with laws and regulations to a party outside the entity. However, the auditor's legal responsibilities vary under different laws and regulations and, in certain circumstances, the duty of confidentiality may be overridden by statute, the law or courts of law. Under the present legal and regulatory framework for financial institutions in India, their auditor has a statutory duty to report the occurrence, or suspected occurrence, of non-compliance with laws and regulations to supervisory authorities. For example, the auditor is required to report certain

¹³ Proposed SA 706, "Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report". The Standard is being formulated in the light of the corresponding International Standard.

Revised Standard on Auditing (SA) 250

matters of non-compliance to the Reserve Bank of India as per the requirements of Non Banking Financial Companies Auditor's Report (Reserve Bank) Directions, 1988, issued by the Reserve Bank of India. Also, some laws or regulations require the auditor to report misstatements to authorities in those cases where management and, where applicable, those charged with governance fail to take corrective action. The auditor may consider it appropriate to obtain legal advice to determine the appropriate course of action.

A20. In case of certain entities, such as national governments, regional (for example, state, provincial, territorial) governments, local (for example, city, town) governments and related governmental entities (for example, agencies, boards, commissions and enterprises), the auditor may be obliged to report on instances of non-compliance to governing authorities or to report them in the auditor's report.

Documentation (Ref: Para. 29)

A21. The auditor's documentation of findings regarding identified or suspected non-compliance with laws and regulations may include, for example:

- Copies of records or documents.
- Minutes of discussions held with management, those charged with governance or parties outside the entity.

Material Modifications to ISA 250, "Consideration of Laws and Regulations in an Audit of Financial Statements"

Deletions

1. Paragraph A6 of the Application Section of ISA 250 deals with the application of the requirements of ISA 250 to the audits of public sector entities regarding the additional audit responsibilities with respect to the consideration of laws and regulations. Since as mentioned in the "Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services", the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific

Consideration of Laws and Regulations

reference to applicability of the Standard to public sector entities has been deleted.

Further, it is also possible that even in case of non public sector entities, there may be additional audit responsibilities with respect to the consideration of laws and regulations which may relate to the audit of financial statements or may extend to other aspects of the entity's operations. Accordingly, the spirit of erstwhile A6, highlighting the fact that in case of certain entities, there may be additional audit responsibilities with respect to the consideration of laws and regulations, has been retained.

2. Paragraph A20 of the Application Section of ISA 250 deals with the application of the requirements of ISA 250 to the audits of public sector entities regarding the obligation to report on instances of non-compliance to governing authorities or to report them in the auditor's report. Since as mentioned in the "Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services", the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific reference to applicability of the Standard to public sector entities has been deleted.

Further, it is also possible that even in case of non public sector entities, the auditor may be obliged to report on instances of non-compliance to governing authorities or to report them in the auditor's report. Accordingly, the spirit of erstwhile A20, highlighting the fact that in case of certain entities, there may be instances of reporting non-compliance to governing authorities or to report them in the auditor's report, has been retained.
