

Why study Hard for Exam:

Consider one example:-

your friend ask you invite you for a movie
someone marriage
shopping
etc.

In aggregate you lose your time
and then your exam(if this is too much)

Suppose you start your CA course From Jan 2011

■ STEP	Admit	Paasing
■ CPT	Jan 2011	july 2011
■ IPCC	july 2011	may 2012
■ FINAL	may 2012	nov 2014

Now, Due to any reason a student fail in IPCC(GR-A)

Then,

Loss of 6 months

NOW determine NET LOSS?

Average salary of CA=7,00,000/-

Loss in 6 months

=INR (7,00,000)/2

=INR 3,50,000/-

Now you understand
why study too hard.

‘
Dare to Become what you are going to
learn’
