Collecting they require sources of various business identities in the selected region and register as a non banking partner in the special similar sector.

TRUE PRAYEAR CONCEPT

My Goal towards this Religion

- **We Will Respect the Nature and what we will receive through the sources of nature**

We will obey the order of nature i.e. we shall back the wastage by product for the recycle process.

- **We will never accept any professionalisms attitude of any religion but what our duties towards faith and dedication we will do at ourselves directly through the sources of things not direct sources of money.**
- **We will never encourage the begging process in India or any world through the utilization of boundaries of religion but we will help to setup them for employment according to their physical capabilities and also reach them to provide proper food and essentialities through human social network.**
- **We work at least in one a week or one a month for the society like collecting database for poor people, physically challenged for re-establishment with proper human social connect network.**
- **Regarding health and necessity supply chain process and help them to solve the issues.**
- **We will setup proper channel network of supply of our necessity supply and also exchange of daily wastage for recycle process for the purpose of reuses of energy**

We assure to make a united India for removing trade interpreter in various definitions to provide smooth resources and facilitation from manufacturers to consumers.

- **We tried to make an inspiration towards next decade for the solution of Fuel Problem through the alternate of Hydrogen electricity power mechanism by use of water as fuel.**

- Global warming is warning to this earth for deletion of the entire earth through various super natural powers programming (THE END OF EARTH). We will try to utilize our maximum energy for solving this crisis.
- We never differentiate any human beings through the skin but we only work together towards unity and sincerity for the sake of earth.
- We will find out alternative prospective of application of hydro energy, solar energy, and wind energy for the fight out petroleum crisis.
