MCA AUTO LOGIN APPLICATION

USING EXCEL AND CHROME

How to Use MCA Auto Login Application from Excel

For using the MCA Login Application you have to install selenium basic and the latest chrome drivers.

For Installing Selenium Basic and chrome drivers follow the steps given below:

1. For downloading selenium basic link on this link
<https://github.com/florentbr/SeleniumBasic/releases/tag/v2.0.9.0>
2. Install SeleniumBasic v2.0.9.0
3. Open Google Chrome and check the Google Chrome Version by opening the Google menu
 - [a] Go to help
 - [b] About google chrome
 - [c] Note down the version of google chrome Ex: Version 103.0.5060.134 (Official Build) (64-bit)
 - [d] Download the latest chrome drivers from this link
<https://chromedriver.chromium.org/downloads>.
 - [e] Select suitable drivers based on the version of your google chrome and install the same.
For windows select win32.zip file.
4. After downloading chrome drivers, copy the chrome drivers into the selenium basic folder in the C drive. The path of the c drive is given Path –
C:\Users\%username%\AppData\Local\SeleniumBasic
5. After installing selenium basic and chrome drivers, you can start using the MCA Login Application.
6. To enable macros- Open Excel > Go to File > Options > Trust Center > Trust Center Settings > Macro Settings > Enable all Marcos
7. To login into the Company e-filing portal give your user name in cell b 4 and password in cell b5. Click on the login button, and the details will get automatically filled in on the website. Enter the captcha and click on the sign-in button.
8. To login into LLP e-filing portal give your user name in cell b 12 and password in cell b 13 and click on the login button. The details will get automatically filled in on the website. Enter OTP received on your mobile or email id and click on submit.
