<i>Service Tax</i>	89
<i>VAT</i>	89

Release Notes for Tally.ERP 9 Series A Release 1.52

1. Enhancements

1.1 General Enhancements

License Management

- The **License Server** version has now been incremented to version **4.0**. This has been done to accommodate changes related to error numbers 6244, 6246 etc., faced in the previous version of the license server. These errors were faced during Rental License activation / reactivation.

Note: *Tally.ERP 9 Release 1.52 will not be compatible with previous versions of **License Servers**.*

Restore / Backup

- While restoring **Tally.ERP 9** data backup containing multiple companies, the restore program compares the company numbers available in the data backup with the company numbers available on destination drive. In case a company with the same number exists on the destination drive and data backup, the restore program prompts to overwrite the company on the destination drive with that available in the backup; opting not to overwrite, the restore program continues to copy files belonging to the remaining companies to the destination drive.

1.2 Functional Enhancements

Accounting Reports

- In **Ledger Vouchers report**, an additional button **C: Contact** has been provided to view the **Ledger Contact Details**.

Excise for Manufacturers

- **Excise Helper (L: Excise Helper)** has been provided in **Payment Voucher**, for the auto computation of **Excise Duty Payable** for the period specified.
- The option to record the **Advance Excise Duty Payments** in **Payment Voucher** has been provided. To adjust the advance duty paid, an additional flag - **Adjustment Towards Advance Duty Paid** has been provided in **Journal Voucher**.
- Support for the **Manufacture of Multiple Finished Goods and By-Products** has been provided in **Excise Stock Journal**.

Inventory Reports

- In all **Movement Analysis Reports**, the options **Show using Alternative Units** and **Show Tail units of Compound Units** have been provided in **F12:Configuration** to enable the user to view these reports in the **Alternate Units** and **Tail units of Compound Units**.
- On drilling down to order details screen in **Sales/Purchase Order Summary**, when **F7** toggle button is pressed to view **All Orders** or **Due Only** information, the same information (**All Orders** or **Due Only**) is getting displayed in the **Title** of the report to differentiate the two reports

- ❑ On drilling down to order details screen in **Sales/Purchase Order Summary**, the **F6:Age wise** button has been provided to display **Ageing Analysis** report
- ❑ In **Purchase/Sales Bills Pending Reports**, the options **Show Cleared Purchase Bills**, **Show Bills made but Goods not delivered**, **Show Cleared Sales Bills** and **Show Bills Recd. but Goods not Recd.** are provided in the **F12: Configuration**. These options will help the user to view the Pending bills along with Cleared Bills in Purchase and Sales bills pending report. And also user can view **Show Bills made but Goods not delivered** for **Sales Order** and **Show Bills Recd. but Goods not Recd.** for **Purchase Orders**.
- ❑ In **Purchase Order and Sales Order Books**, single **Order Amount** column is provided instead of separate **Debit** and **Credit** Columns.

1.3 TDL Enhancements

General

- ❑ **HTTPS** Client capability has been enhanced in Tally.ERP 9. **HTTPS** sites can be used for FTP upload, post request and gathering the data in a collection.
- ❑ **\$\$AccessObject** is introduced to evaluate the specified formula in the context of Interface object identified by the given definition type and access name.
- ❑ **\$\$FirstObj** and **\$\$LastObj** returns the values of specified method for first object and last object of the collection respectively.

Collection

- ❑ New data source types **Report** and **Parent Report** can be used in addition to **File XML** and **HTTP XML** while gathering data in a collection.
- ❑ While gathering data in a collection, **URL** for **HTTPS** site can also be specified in addition to HTTP.

User Defined Functions

- ❑ **Walk Collection** is enhanced to accept the collection name through an expression and the walk can be performed in reverse order.
- ❑ New looping constructs, **For Collection** and **For Token** are introduced. For Collection loops over the specified collection without setting the collection object as current object in context. For token walks through a string separated by the delimiter character.

Note: For detailed documentation on TDL Enhancements, refer **What's New in TDL** document available at the **Download Centre**.

1.4 Auditors' Edition

Tax Audit

Tax Deducted at Source - Clause 27

- The title for the Expenses Analysis report provided in Clause 27 has been changed from **TDS Summary** to **Expenses Analysis** and the sub title has been changed to **Expenses Summary**. The **Opening Balance** Column which was not required in this report has been removed.
- While drilling down to the **TDS Bills** from the Payment section of **TDS Summary** report, the option **Show Challan details** has been provided as an additional Configuration. When this Configuration is set to Yes, the Auditor can view the **Challan Number, Cheque Date and Bank Name** details for the respective TDS Bills.

2. Issues Resolved

2.1 Functional Issues

Accounting Reports

- ❑ In **F12 configuration** of Columnar Ledger voucher report, when the option **Show Entered\Altered By** was set to **Yes**, the related information was not being displayed as expected.
This issue has been resolved.
- ❑ The Option **Show Entered/Altered by** in **F12: Configuration** has been removed from the **Bank Reconciliation Statement, Cost Centre Reports** and **Extract Report of Sales Register** as it was not required for the above reports.
- ❑ In **POS Register** and **Group voucher report**, the details of vouchers **Entered/Altered by** was not being displayed even the option **Show Entered/Altered by** was activated in **F12: Configure**.
This issue has been resolved.
- ❑ While generating **Extract of Sales Register** report, the button **F7: Show/Hide Profit** has been disabled as this option had no effect on the selected report.

Accounting Vouchers

- ❑ In **Single entry mode**, When a **Payment/Receipt/ Contra** voucher was saved without entering amount, a warning message **No Entries in Vouchers** was displayed. This resulted in the following issues:
 - When the **Payment / Receipt** was saved again after the message was displayed in voucher alteration mode, the **Ledger** and **Amount** was not being displayed.
 - When the **Contra Voucher** was saved again with bank in Accounts field and Cash in particular field then in voucher alteration mode, both the ledger were shown as **Credit balance**.
 - When the contra voucher was saved again with Cash in Accounts field and Bank in particulars field then in voucher alteration mode, the position of both the ledgers were getting **interchanged**.
These issues have been resolved.
- ❑ In a multi user environment, if two users were passing the Sales Entry and the entry was accepted at the same time then Tally.ERP 9 was displaying a message as **Voucher Number 1 is already used New Number will be 2** and when the second user tried to save the voucher by pressing **Ctrl+A** from the narration field, the **Memory Access Violation** error message was displayed.
This issue has been resolved.

- ❑ If **Cost Centre Vouchers** was filtered using **F12:Range** with Voucher having **Ledger Amount** with **Greater than** and **Lesser than** option selected, the output was shown as **blank**.

This issue has been resolved.

- ❑ When **Manual voucher numbering** was selected in voucher type creation/alteration screen and while entering a voucher the cursor jumps to Date field even though the option **Skip Date field in Create Mode** is set to **Yes** in **F12:Configure**.

This issue has been resolved.

Backup

- ❑ While taking backup on an external drive which contained an earlier **Tally.ERP 9** data backup along with other files/applications, the backup program erased all the contents available and then continued to backup Tally.ERP 9 data files.

This issue has been resolved.

Crash/MAV

- ❑ Certain data issues specific to **Windows Vista / 2008** were resulting in **MsgWalk** errors. This data instability issue has now been resolved.
- ❑ Repeatedly pressing **Ctrl+A** in the **Payment Voucher** caused **Tally.ERP 9** to crash. This issue has been resolved.
- ❑ When specific words/lines were not commented using semi-colon in the **TDL** programs, **Tally.ERP 9** was crashing. This issue has been resolved.

Excise for Manufacturers

- ❑ When company data is **imported or synchronized**, the **Sub-Godowns** of **Excise Unit** having **Excise Registration Type** as **Not applicable** were not retaining the default settings. This issue has been resolved.

FBT

- ❑ While passing the **FBT payment** entry using the **FBT Helper**, application was displaying **Out of Memory** error. This issue has been resolved.

Inventory Reports

- ❑ In **Sales/Purchase order**, if the same item was selected **multiple times** then in **Sales or Purchase Order Summary report** the quantity of **last item** was being displayed in **Ordered Quantity** column and in the **Pending Quantity** column it was getting consolidated. This issue has been resolved.

Inventory Vouchers

- ❑ While altering **Stock Journal voucher**, when quantity, rate and amount values are present and if **quantity** field was made **blank** then the Value mentioned in **Rate** and **Amount** fields were getting retained.
This issue has been resolved and now the Values are not getting retained.
- ❑ When a **Sales Invoice** is tracked against the Sales order having an item with name as **NO**, then the same was not getting tracked.
This issue has been resolved.
- ❑ When **POS Invoice** with **inclusive VAT Class** is migrated from Tally 9 to Tally.ERP9 Release 1.5, application was displaying incorrect values in **Accounting details for** subscreen.
This issue has been resolved.

License Management

- ❑ **Tally.ERP 9 License Server version 3.0** was crashing unexpectedly. This issue has been resolved with the new **License Server version 4.0**.
- ❑ When more than a single instance of **Tally.ERP 9** was using the same license file, **Tally.ERP 9** rental license was getting compromised.
This issue has been resolved.
- ❑ Tally.ERP 9 was occasionally giving **Error Code 82** while re-activating using the offline method.
This issue has been resolved.
- ❑ The older License Server was serving licenses to some subnets which was violating the licensing policy. This has been rectified in License Server 4.0 in accordance to the policy.

ODBC

- ❑ An error occurs while connecting to **Tally.ERP 9** through **ODBC** using **Java**.
This issue has been resolved.

Payroll

- ❑ When the **Pay Head type** of **Bonus** pay head is changed from **Bonus** to **Not Applicable** the same is not being saved.
This issue has been resolved.
- ❑ For a Company with large number of Ledgers and Employees, the Payroll Payment Vouchers were displaying **Out of Memory** error.
This issue has been resolved.
- ❑ When the **Statutory Pay Type** is modified by the user, the **Calculation Period** was not being changed to **Months**.
This issue has been resolved.

- ❑ The **Payment Advice Print Configuration** screen was not displaying the **Bank Ledger** if the Bank Ledger was created as a **Sub Group** under **Bank Accounts**.
This issue has been resolved.
- ❑ **Show Employee Details** line was not displayed in F12: Print Configuration of **Payment Voucher**.
This issue has been resolved.
- ❑ The Payroll **Payment Auto Fill** was computing and filling the values in the **Optional Vouchers** also.
This issue has been resolved.

Tally.NET

- ❑ As **Direct IP Synchronization** is not a part of **Tally.NET** subscription, the same will continue to work even after the expiry of **Tally.NET** subscription.
- ❑ **Tally.ERP 9** crashes on shutting down more than one company which were opened locally using remote authentication.
This issue has been resolved.

TDS

- ❑ While selecting the **TDS bill reference numbers in TDS payment entry**, application was displaying the error - **Error in TDL could not draw too high or too wide**.
This issue has been resolved.

VAT

- ❑ In the **Voucher Type Class** screen of Payment, Receipt and Contra Voucher Types, the **VAT/ Tax Class** column was being displayed under **Specify Ledger for which this Class is created** section.
This issue has been resolved.
- ❑ On selecting **zero valued** and **taxable** item in a **single invoice**, VAT was being calculated accurately in creation mode but incorrect values were displayed when the same entry was viewed in alteration mode.
This issue has been resolved.

2.2 Auditors' Edition

Tax Audit

- ❑ The **Clarification List** report was not displaying the Payroll Vouchers with Audit Status as **Need Clarification** and **Clarified**.
This issue has been resolved.

Clause 16

- ❑ The default **F12: Configurations** were not getting restored for the Payment Vouchers screen for **Bonus, PF, ESI Recoveries** report.
This issue has been resolved.

- While drilling into Exceptions report for **Bonus, PF, ESI Recoveries**, the software was displaying **TDL Error**.
This issue has been resolved.

Clause 27

- Enabling the **F1: Detailed** option from the **TDS Bills** screen was changing the horizontal scroll when all the **F12: Configuration** options were enabled.
The **F1: Detailed** button is now disabled when all the **F12: Configuration options** are enabled.
- During **Remote** access the drill down into **TDS Bills** was displaying empty screen.
This issue has been resolved.

Release Notes for Tally.ERP 9 Series A Release 1.51

1. Enhancements

1.1 General Enhancements

Licensing

- The facility to purchase Tally.ERP 9 **rental license** from within the product itself (when in Educational mode) has been provided.

e-Capabilities

- Certain website require connection via SSL. Tally.ERP 9 now supports **Upload** of data to these (**https**) sites.

1.2 Functional Enhancements

Accounting Reports

- In **F12: Configuration** of **Ledger Vouchers** report, an option **Show Entered /Altered By** has been provided to view the **List of modified Vouchers** along with the User Name of **Entered By** and **Altered By** (this option will appear only when **Tally Audit Feature** is enabled for the Company).

Accounting Vouchers

- When a **Debit/Credit Note** having **Cost Centre** (and without **Inventory Details**) was printed, the Cost Centre details could not be printed. Now an option **Print Cost Centre Details** has been provided in **F12: Print Configuration** to deliver this capability.

Excise for Dealers

- The option **Show Purchases of Excise stock for** is now provided in **F12: Configuration** of **Excise Purchase Bill Register**, to view details of **Purchase Bills**:
 - **All Bills (With pending stock & zero balance)**
 - **Cleared Bills (Zero Stock Balance only)**
 - **Pending Bills only**

Excise for Manufacturers

- **Export Details** section now appears in the **Supplementary Details** (Party details) screen of Manufacturer's Sales (Export) Invoice, when the option **Specify Export Shipping Details** is enabled in **F12: Configure (Invoice/Order Entry)**.

Final Account

- In **Display > Statements of Accounts > Statistics**, under **F12: Configuration**, a new option **Remove Voucher Types having no entries** has been provided to remove all the Voucher Types having no transactions from the report.

Inventory Vouchers

- The **Address field** has been **maximised** for better visibility in the **Rejection In / Rejection Out** vouchers.

POS

- In **Multi Voucher Printing**, **POS** entries can now be printed in the same format as it appears while printing the Invoice.
- Provision has been made to print **MRP** in **POS Invoice**.

1.3 Auditors' Edition

Tax Audit

Tax Deducted at Source - Clause 27

- An additional report **Expenses Analysis** is provided from the **TDS Summary** report. This report displays Ledger wise details for the **TDS Expenses** and **Non TDS Expenses**. This report will be useful for the Auditor to:
 - Verify that the total expenses are a sum of **TDS Expenses** and **Non TDS expenses**.
 - Whether TDS is deducted for all the applicable expenses or not.

2. Issues Resolved

2.1 Functional Issues

Accounting Reports

- ❑ In **Purchase Register** monthly report, when a particular Purchase **Voucher Type** was selected using **F4: Vch Type**, then instead of displaying the entries belonging to the selected **Voucher Type**, the entries of all other **Voucher Type** were also getting displayed.
This issue has been resolved.
- ❑ In **Purchase Register**, when the option **Show inventory-wise extract** was enabled using **F12: Configuration**, then the **Item Rate** displayed did not include the **Additional cost of purchase**.
This issue has been resolved.
- ❑ When we **filter** the **Day Book** using (**Alt+F12: Range**) to track transactions having **godown**, the same was not getting filtered.
This issue has been resolved.
- ❑ **Select All (Ctrl+Space)** button can now be **toggled** between **Selected** and **Unselected** in all **Voucher** related reports.
- ❑ For **Bank Book**, by default, ledger vouchers reports was displayed in the **Condensed mode**. This issue has been resolved, and is now displayed in **Detailed** mode.
- ❑ In a Company, having data for more than one financial year, when the **Current Period** was set to **Previous year** in **Gateway of Tally**, the **Group Outstanding** report was incorrectly displaying the details for the **Current year**.
This issue has been resolved.

Accounting Vouchers

- ❑ When **Item name** was altered in a **Sales/Purchase Invoice**, the **Memory Access Violation** error was displayed.
The issue has been resolved.

Import/Export

- ❑ Tally.ERP 9 was failing to upload data under the following circumstances:
 - When the URL specified contained a Port Number
 - Upload request was sent to non root pages
This issue has been resolved.

Excise for Manufacturers

- ❑ When multiple **MRP Stock Items** having different percentages of **abatement** are selected in purchase/sales voucher, Excise Duty was not getting calculated.
This issue has been resolved.

Installer

- While installing Tally.ERP 9, TCP files belonging to Tally 7.2 and Tally 9 were not being automatically converted to a format compatible with Tally.ERP 9.
This issue has been resolved.

Inventory Vouchers

- When an **Invoice** with **percentage** mentioned for any of the ledgers was altered, the percentage value was becoming blank.
This issue has been resolved.

Licensing

- When Tally.ERP 9 was activated using **Offline mode**, the option **Work in Temporary License Mode** was not functioning.
This issue has been resolved.
- Re-Activation using **TallyAdmin** tool was not happening in the **Offline mode**.
This issue has been resolved.
- While activating Tally.ERP 9 in some scenarios, the installation was failing when Tally.ERP 9 detected a license service with the same name which had been installed earlier and had been stopped.
This issue has been resolved.

Printing and Rendering

- When the option **Print after saving Voucher** is enabled in **Manufacturing Journal** and if the feature **Maintain Multiple Godowns** is not enabled in **F11: Features (Inventory Features)**, then in the print preview **Quantity, Rate & Amount** fields were becoming blank.
This issue has been resolved.

VAT/CST

- In a purchase/sales transaction recorded by enabling the option **Use Common Ledger A/c for Item Allocation** in **F12: Invoice Configuration** and selecting the required VAT/Tax class, if the entry date was changed before saving the invoice, the VAT/Tax class was not being stored.
This issue has been resolved.
- On recording an invoice using the **Voucher Class** created for **CST**, the **CST** amount was not being calculated and displayed.
This issue has been resolved.
- On disabling the Excise feature, the **Party TIN** was not being displayed in the **VAT Classification Vouchers** report.
This issue has been resolved.

Voucher Types

- In **Accounts only** company, the cursor in **Purchase Voucher Type**, was not moving to **Voucher Class** field.
This issue has been resolved.

2.2 TDL Issues

- Till Tally.ERP 9 Series A Release 1.5 all the default methods were filled in the voucher by the User Defined Function '**VoucherFill**'. But User Defined Fields (UDFs) were not handled by the **VoucherFill** Function. This is now supported.

2.3 Auditors' Edition

Tax Audit

Loans & Deposits Accepted (Clause 24(a)) and Loans & Deposits Repaid (Clause 24(b))

- The **Loans & Deposits Accepted and Repaid** using a **Bank OD Account** were not displayed in the default reports for **Clause 24(a)** & **Clause 24(b)**.
This issue has been resolved.

Tax Deducted at Source - Clause 27

- The Audit report available for the Client was displaying the TDS report as **TDS Need Clarification Summary** and sub report was displaying **TDS Bills (Need Clarification)**. The name for this report has been changed to **Audit Vouchers** with sub report name as **Audit Name: Tax Deducted at Source**.

Release Notes for Tally.ERP 9 Series A Release 1.5

1. Major Enhancements

1.1 Functional and General Enhancements

Licensing

Rental Licensing introduced

- From this Release, Tally.ERP 9 Licence in **Rental mode** is supported. The License mechanism, license servers, activation, renewal & purchase processes have been enhanced to support the various operations that will be needed. In simple words, Tally.ERP 9 license will now be available on rent. At any time during or at the end of the rental period, the License can be extended or moved to perpetual (**Permanent License**) mode.

Running Balance display in Ledger Voucher Reports

- The option **Show Running Balance** in **F12: Configuration** has been provided to display the **Cumulative balances (Running Balance)** for **Ledger Voucher** reports only.

Cost Centre

- In **F11: Features (Accounting Feature)** a new option **Show Opening Balance for Revenue Items in Reports** has been provided to display the opening balance in **Cost Centre Report** for the cost centres which are allocated to the Ledgers, grouped under **Income and Expenses Group**.

Excise for Dealers

- **Dealer Excise Closing Stock** Report has been provided to support excise opening stock entry. Excise opening stock entry can be updated (in a split company) by exporting the **Dealer Excise Closing Stock** Report to XML file and by importing the same into Tally.ERP 9 as **Excise Opening Stock** Vouchers after splitting the Company Data.
- In **Excise Purchase Voucher** selection of same **Excise Stock Item multiple times** with different Quantity and Rate has been supported and in **Excise Stock Register, Excise Purchase Bill Register, Sales and Purchase Extract, Form RG 23D** and **Form 2** reports, details of **Total Quantity** purchased is displayed.

Excise for Manufacturers

- **RG 23A Part II, RG 23C Part II** and their respective **Annexure 10** and **Abstract reports** are provided.
 - **RG 23A part II:** This report displays the details of **Fresh Credit Allowed Amount, Total Credit Available, Credit Adjusted** with **Opening** and **Balance Credit of Principal Inputs** for the **Period** selected.
 - **RG 23C part II:** This report displays the details of **Fresh Credit Allowed Amount, Total Credit Available, Credit Adjusted** with **Opening** and **Balance Credit of Capital Goods** for the **Period** selected.

- **Annexure 10:** It is a monthly return under Rule 7 of the Cenvat Credit Rules, 2001. This report displays the **Details of CENVAT credit** taken for the **Main Item in the Document**.

Note: This annexure is omitted (w.e.f 1-10-2003) by M.F. (D.R.) Notification No.70/2003-C.E. (N.T.), dated 15-9-2003. But most of the assessee still submit their monthly returns in Annexure 10. On Customers requirement Annexure 10 is provided in Tally.ERP 9.

- **Abstract:** This report display the details of **Credit Availed on Inputs/capital goods/inputs services, Credit Utilised for Payment of Duty on Goods/Services, Credit Utilised When the Goods are removed as such with Opening and Closing Balance of Credit**.

Note: These reports will be available in Tally.ERP 9 Release 1.5 with Stat.900 version 89

- **Excise Details of Company and Customer** are now being printed in **Purchase Orders, Delivery Notes, Sales Orders and Receipt Notes**.
- In **Manufacturer's Statutory Report Menu** a New option **CENVAT Registers** is provided. In **CENVAT Registers Menu** following CENVAT Reports are listed.
 - Credit Summary (earlier displayed as CENVAT Credit Register)
 - Credit Availed (earlier displayed as CENVAT Credit Availed)
 - RG 23 Part II
 - Annexure - 10
 - Abstract

Knowledge Base

- Access to **Online Help** is enabled from **Tally.ERP 9** using **Alt + H**. Tally.ERP 9 now give you option to choose from Online and Local Help. This feature will enable users to access **Technical & Functional Articles, FAQ's, Trouble Shooting Methodologies** and **Case Studies** available online on the Tally Knowledge Base.

Payroll

Payslip Note

- The option to enter the **Payslip Note** is provided in **F12: Payroll Configuration** from **Gateway of Tally**. The user can enter a general note that will appear in the Payslip at the end instead of the **Authorised Signatory** details while printing OR E-mailing the Payslip.
e.g. This is a Computer generated Payslip and does not require any signature.

Payslip Message

- The option to enter the **Payslip Message** is provided in **F12: Payroll Configuration** from **Gateway of Tally**. The user can enter the required message which will appear on all the Payslips for a particular occasion while printing or E-mailing the payslip.
e.g. Wish you a Happy New Year!!!!.

Pay Sheet Report

- Employee Filter screen to filter the Employees based on **Payroll Category** or **Employee Group** has been provided before the **Pay Sheet** report. This will help in viewing the Paysheet faster by selecting the required **Group/Category** when the data size is very large.

Payment Advice Date

- The option to enter the user defined date is provided while printing the **Payment Advice** for **Salary Payment**. By default the actual date of printing the Payment Advice will be printed, which can be changed by the user.

Performance

- A Considerable improvement is made in the speed while accessing the **Sales Register**, **Purchase Register**, specific voucher selection from **Day Book** report, specific voucher selection from **Statistics**, **Purchase** and **Sales Order Book** and other related specific & filter voucher collection reports.

For more information, refer the **Performance Fact Sheet** available at the **Download Center**.

Tax Deducted at Source (TDS)

- TDS** calculation on Contract or Sub-Contracts on **Net Amount** (payable to party after deducting expenses) is provided.

Example: ABC Company hired 10 Dusters on Contract of Rs.50000 per month. While making the payment to the contractor, ABC Company deducts Rs.5000 towards PF and ESI and makes the payment of Rs. 43980 after deducting TDS of Rs. 1020 (TDS is calculated on Rs. 45000).

Accounting Voucher Creation		ABC Company		Ctrl + M	
Journal		No. 12		25-May-2008 Sunday	
Particulars		Debit		Credit	
Dr	Expenses- Contract Dusters Cur Bal: 50,000.00 Dr	50,000.00			
Cr	PF Payable Cur Bal: 2,000.00 Cr			2,000.00	
Cr	ESI Payable Cur Bal: 3,000.00 Cr			3,000.00	
Cr	Mark IT Solutions Cur Bal: 43,980.00 Cr			43,980.00	
	New Ref 12	45,000.00	Cr		
	New Ref 12	1,020.00	Dr		
Cr	TDS on Contracts Cur Bal: 1,020.00 Cr			1,020.00	
Narration:		50,000.00		50,000.00	
				Accept ? Yes or No	

- ❑ **Track Migrate Vouchers** report displays **TDS Party-wise Total, Migrated and Un-migrated** vouchers details. On selecting a particular party from this report Tally.ERP 9 displays the Track TDS Vouchers report. Track TDS Vouchers report displays the TDS vouchers with reasons for non-migration.
- ❑ **TDS calculation** in **Purchase Voucher** (in Item Invoice mode) with **Voucher Class** is supported.
- ❑ In **TDS party ledger** the option **Use Advanced TDS Entries** will always be set to **Yes**, if any of the parameter in **Advanced TDS Entries screen** is **enabled** (set to **Yes**).

Tax Collected at Source (TCS)

- ❑ **TCS Entries** now can be recorded using **Voucher Class** when in a single invoice multiple calculations are involved like TCS, VAT additional ledgers etc.

Installer

Multi-Product License Server Installation

- ❑ The Installer is now enabled to install **Multi-Product License Server**. This feature enables the user to install a common License Server for **Tally.ERP 9 Series A Release 1.5**, **Tally.Developer 9 Release 1.0** and **Shoper 9 Series A Release 1.0** on a single computer.
- ❑ When the option **Do you want to use common License Server for more than one Tally Product** is selected, the License Server is installed in **C:\TallyLicenseServer** by default.

Silent Installation

- ❑ Large businesses that frequently install Tally.ERP 9 can now record the entire installation process in a script file and play the script file for installations later on. The installer uses the script file for subsequent installations and does not prompt the user for the required installation parameters; this process is called **Silent Installation**. The procedure to use Silent installation is as below:

The syntax to **Record** the installation in a script file is given below:

install /r /f1 "<path\filename>"

Eg: install.exe /r /f1 "C:\Tally.ERP 9\recordscript.txt"

To playback the recorded script, type the following command at the command prompt:

install /s /f1 "<path\filename>"

Eg: install.exe /s /f1 "C:\Tally.ERP 9\recordscript.txt"

For a detailed reading on silent installation refer to the topic **Silent Installation** of Tally.ERP 9 (Advanced User) in **Tally.ERP 9 Reference Manual** (Help file).

1.2 Auditors' Edition

Tax Audit

- ❑ A new Report **Clarification List** has been provided from the Tax Audit dashboard. This report will display all the Vouchers with Audit Status as **Need Clarification** and **Clarified** in **one screen** irrespective of the **Clauses**. The Auditor can view the details of all the Vouchers that were sent to the Client for Clarification from one click of a button.

1.3 TDL Enhancements

General Enhancements

- ❑ A new attribute **Trigger Ex** is introduced at the field level which allows addition of values dynamically to table using TDL functions and expressions.
- ❑ The variable frame work is enhanced and the new variable type List variable is introduced.
- ❑ Command line parameters are now supported by Tally.ERP 9.
- ❑ Dynamic actions with the capability of specifying the Action Keyword and Parameters as Expressions.

Collection Enhancements and Function Enhancements

- ❑ Collection now supports of context free constructs **Source Var**, **Compute Var** and **Filter Var**.
- ❑ **\$\$TgtObject** function is now supported in collection. It allows to evaluate the expression in the context of target object while populating the collection and can be used in the attributes Compute, Aggr Compute and By.
- ❑ **\$\$ContextKeyword** function is introduced to get the title of current report or menu.

Note: For Detail documentation on TDL enhancements, refer **What's New in TDL** document available at the **Download Center**.

2. Minor Enhancements

2.1 Functional Enhancements

Accounting Masters

- The **Font** used in Name field in Ledger Creation is changed from **Times New Roman** to **Arial** for better display of **Numerical**.

Accounting Reports

- While printing of **Confirmation of Accounts**, '**Show Contact Details**' option is provided in **F12: configuration** to print the same below the **Party Address detail**.

Excise for Manufacturers

- Now in Tally.ERP 9, **Tariff wise - Daily Stock Register, CENVAT Credit register and CENVAT Credit Availed** reports are provided.
- Provision to print period wise **Multi Item Daily Stock Register** is available.
- In **Excise Purchase Voucher**, Assessable Value alteration option is provided to record the purchases from **Importers**.

Export/Import

- Users can now specify the location where the exported files can be stored. A new field **Location of the Export Files** is provided in the **Data Configuration** screen, this allows the user to provide the default location where the exported reports/files can be stored. **The default export path for an individual report can be changed in the respective export configuration screen.**

Inventory Reports

- The **Discount column** will appear in **Sales Bills / Purchase Bills Pending report**, when in **F11: Inventory Features**, the option **Separate Discount column on Invoices** is set **Yes**.
- In purchase order summary and in sales order summary report **Order Ref No** column has been provided and in Purchase Order Book and Sales Order Book **Columnar report** has been introduced. Now the user can search the report based on the **Order number**.

Payroll

- The option to print the **Payroll Voucher** with details of **Employee wise** salary breakup has been provided.

POS

- When a **POS Invoice** containing one item, was altered by adding multiple items having different **VAT Ledger** selected, then an error message appeared '**No Accounting Allocation for second selected Item**'. Now the user can alter the **POS Invoice** without getting the error message.
- **POS voucher type** has been removed from the **List of Voucher Types**, while printing **Multi-Vouchers** from **Multi Account Printing**.

Printing and Rendering

- The progress bar in the **Printing** screen now displays the **page numbers** while generating the preview or print.
- **Print Serial No.** option is provided in the Printing Configuration window for **Purchase order, Receipt note, Rejection Out, Purchase Invoice, Debit Note, Sale order, Delivery Note** and **Rejection In** vouchers.

Security Control

- **CST Reports** has been added to the **List of Reports** in **Security Control**. Users will now be able to provide access rights for **CST Reports**.

Support Centre

- Partner search has been enabled from Tally.ERP 9. While adding **New Issues**, the partner search feature enables the user to search for the partner based on the **Location** or **Name**.

Tax Deducted at Source (TDS)

- **Mailing Details** and **PAN No.** can be entered for the TDS Ledgers (treated as Party ledgers) grouped under **Fixed Assets, Current Assets, Unsecured Loans** etc.

VAT/CST

- In **Forms Issuable Report**, the option has been provided to print the report based on **Effective Date** or **Voucher Date** for the selected declaration form.

2.2 Auditors' Edition

Tax Audit

- The relevant sections for TDS deductions made at **Zero** rate or **Lower** rate are displayed in the **TDS Summary** screen for Auditors' reference.
- The option to **Export** the **Tax Audit Annexures** in the **HTML** format has been provided.
- While drilling down into the **Clarified (To be re-audited)** column on the **Tax Audit Dashboard**, the **Customers Clarification** will be displayed by default for all Clauses.
- The **Audit Status** captions for the **Payments to Specified Persons u/s 40A(2)(b) - Clause 18** has been change from **Allowed & Disallowed** to **Not to be Reported & To be Reported**.
During Audit process, if **To be Reported** is selected as **Audit Status**, then the Voucher Amount will be reported in the **Annexure to Clause 18** and if **Not to be Reported** is selected, then the Voucher Amount will not be reported in **Clause 18**.
- The option to print the **Tax Audit Annexure, Form 3CD, Annexure I & Annexure II** in other Languages has been disabled, since these reports needs to be submitted only in **English**.

3. Issues Resolved

3.1 Functional Issues

Accounting Transactions

- While creating a sales voucher class, when two discount ledgers were selected under additional accounting entries where the '**Type of calculation**' is set to '**As user Defined Value**'. Now while altering sales invoice the '**Rate**' of second discount ledger was not getting displayed.

This issue has been resolved.

Accounting Reports

- If a cash or bank payment is made against multiple expenses, the entire amount was getting displayed against the first expense ledger.

This issue has been resolved. Now, '**as per details**' is displayed and the break-up of each ledger is also displayed.

- While printing Ledger Outstanding reports from Multi-Account Printing, if the option **Start fresh page for each account** was set to **No** then the party details of All Cleared Bills were also getting printed along with the outstanding party ledgers.

This issue has been resolved.

- While printing **Reminder Letter** of **Ledger Outstanding reports** from **Multi-Account Printing**, if the option **Include Post-Dated Transaction** was set to **yes** by default, then on enabling the **Print Reminder Letter**, the **Company Ageing alteration** sub screen was not getting displayed.

This issue has been resolved. Now the '**Company Ageing alteration**' sub screen is getting displayed as the option '**Include Post-Dated Transaction**' is set to **No** by default.

Accounting Vouchers

- For an item with **batches** the window that is present to enter New number for batches, during voucher entry is having the tag of '**bank name**' instead of '**New Number**'.

This issue has been Resolved.

- When a receipt voucher was entered in a single entry mode by selecting cash as mode of payment and print Formal Receipt, then '**Cash**' was displayed instead of party name in the section "**Recd with thanks from:**"

This issue has been resolved.

Budgets

- When a **Budget** was created using **Cost Centre** allocated to expense ledger and a Journal voucher was entered using cost centre, then under **cost centre summary** report, in **Budget column**, the value was shown under Credit column instead of Debit Column.

This issue has been resolved.

Cost Centre

- ❑ Cost Centre details were not getting displayed in Ledger Voucher report, when '**Inventory values are affected**' is set to yes in expense ledgers.
This issue has been resolved.

Email

- ❑ While emailing, the **Original** copy of a **Tax Invoice** is emailed as an attachment ignoring the **Duplicate** and **Triplicate** copies of the Tax Invoice.
This issue has been resolved.

Excise for Manufacturers

- ❑ In **Daily Stock Register, Tariff-wise Stock Items list** was not displaying in the **Selected Excise Unit** screen.
This issue has been resolved.
- ❑ In **VAT Computation** report **Company TIN Number** was getting displayed instead of **Party TIN Number** for the transactions recorded with **Excise** and **VAT**.
This issue has been resolved.
- ❑ **Columnar Excise Vouchers Report** (drill down report from **Excise Computation**) was displaying incorrect details.
This issue has been resolved.

Import/Export

- ❑ When a XML file has a single line of data with too many characters, Tally.ERP 9 was not importing the same.
This issue has been resolved.
- ❑ When exporting the Vouchers in **HTML format** the **Voucher Date** was split into two lines.
This issue has been resolved.

Inventory Reports

- ❑ If '**Inventory values are affected**' is set to Yes in the party ledger master and a Debit note was entered then the same was not getting affected in Stock Vouchers report.
This issue has been resolved.
- ❑ While generating Budget variance statement from 'Sales/Purchase Order Summary report', Tally.ERP 9 was displaying '**Memory Access Violation**'.
This issue has been resolved.
- ❑ When the option **Complete Accounting allocation in order/delivery note** under **F12: Configuration** was set to **No** then in **Delivery note columnar report**, the rate and quantity values were not getting displayed.
This issue has been resolved.

- ❑ In the Sales/Purchase order pending report, the Name Style selected from F12: configuration, the '**Appearance of Stock Item Name**' was not getting affected as per the selected option. This issue has been resolved.

Inventory Vouchers

- ❑ While altering a **Rejections In** or **Rejections Out** voucher, if an item was selected with different **Units of Measurement** in place of existing item, then Tally.ERP 9 was displaying '**Memory Access Violation**'. This issue has been resolved.

Masters

- ❑ The option provided in company creation, '**Disallow opening in Educational mode**' was not working, Since this option works only if the security feature is enabled, now this option has been provided after the **Security Control Option**.

Payroll

- ❑ The **Autofill** option was not calculating the values when the **Sub Employee Groups** were used instead of main **Employee Groups** for the calculation of **PF Admin Charges** using **Journal Voucher** and Salary, PF, PT & ESI (Salary, PF, PT & ESI) using **Payment Voucher**. This issue has been resolved and the calculation happens correctly when the Employee Sub Groups are used.
- ❑ When the Deduction Pay Heads were entered using as a separate Voucher (using a Voucher Class). The **Payment Voucher** was not considering the Deduction values calculated separately. This issue has been resolved.
- ❑ The sorting method in the Payment Advice was not working properly. This issue has been resolved and the **Payment Advice** can be sorted as per the **Bank Details** or **Employee Number**.
- ❑ The **Voucher Date** was not displayed as entered in the **Payment Auto Fill** process for the Payroll (Salary Payment, PF Challan, ESI Challan, PT Payment) transactions. This issue has been resolved and the Voucher date is displayed as entered during the Auto Fill process.
- ❑ The Employees joined in the middle of a month were not appearing the **Payroll Auto Fill** when the option **Show Deactivated Employees** was set to **No**. This issue has been resolved.
- ❑ The **Rounding off** was not happening correctly in the **Journal Voucher** using **Employer Other Charges Autofill** process for **PF Admin Charges** Calculation, even though **Normal Rounding** method was selected. This issue has been resolved and the Rounding off is happening correctly. The Rounded off amount is added or deducted from the last employee for each PF Admin charges, EDLI Contribution and EDLI Admin Charges.

- ❑ The Salary was not getting calculated correctly when the existing **Earnings Pay Heads** were replaced with new **Earnings Pay Heads** in the **Salary Details Master**.
This issue has been resolved.

- ❑ The Pay Head computation was not working properly when the value of one Pay Head was divided by another Pay Head to obtain the final values.
This issue has been resolved and now any Pay Head can be used as divide by to obtain correct values.

e.g. the user can Divide the Pay Head value by Present Days and Multiply with sick days to get the per day deduction/payable value.

POS

- ❑ While passing **POS** invoice the first ledger from the list of ledgers appeared in the **Cash field**.
This issue has been resolved.

Printing and Rendering

- ❑ When **sales vouchers** were printed from **Multi-Account Printing**, the name provided in 'Default print title', in voucher type masters was not getting printed.
This issue has been resolved, now the print title is printed by default.
- ❑ On printing **Multi-Part** (Columnar Purchase/Sales Register) reports and selecting a print range Tally.ERP 9 was displaying the **Syntax Error**.
This issue has been resolved.
- ❑ Tally.ERP 9 now uses **large font size** in lower resolutions.
The font size has been increased and is similar to that available in earlier versions of Tally.
- ❑ When more companies were loaded and the **List of Selected Companies** sections begins to scroll, In such a scenario when the user clicks **More....**, Tally.ERP 9 crashes.
This issue has been resolved.
- ❑ Tally.ERP 9 crashes while generating the print preview of a **POS Invoice**.
This issue has been resolved.

Tax Collected at Source (TCS)

- ❑ **TCS payments** made through **Bank** (grouped under **Bank OD** or **Bank OCC** account), such entries were not getting displayed in **TCS Challan Reconciliation Statement**.
This issue has been resolved.

Tax Deducted at Source (TDS)

- ❑ **TDS** was not getting calculated when the language selected was other than **English**.
This issue has been resolved.

- ❑ When the references selected in **TDS Payment** entry is more than **150**, Application was displaying the **Out of Memory** error.
This issue has been resolved.

- ❑ In **TDS Deduction** entry if the **Education Cess** amount is less than **0.50** then Tally.ERP 9 was applying **Downward Rounding** and Cess amount was displayed as **Zero**.
This Issue has been resolved. Education Cess amount less than 0.50 will be rounded upward and will never display **Zero** as Cess amount.

Security Controls

- ❑ Excise related reports were displayed even after selecting Excise Reports in from the List of Report in Security Controls.
This issue has been resolved.

Synchronization

- ❑ In **Sales/Purchase Order** when **number of days** was entered instead of **date** in the field **Due on**, the **synchronization** process stops and displays a message as **Line Error: Order Date Remote ID**.
This issue has been resolved.

VAT/CST

- ❑ The **Supplier Invoice number** entered in the Inter-state purchase entry was not being captured in the **Effective Date** field of **Forms Issuable** Report.
This issue has been resolved.
- ❑ In cash transactions, the party details as entered in **Supplementary Details** screen were not being captured in the printed Purchase Invoice.
This issue has been resolved.

3.2 Auditors' Edition

Tax Audit

- ❑ The **Audited By** details were not displayed when the **TDS Need Clarification Summary** was accessed by the Client remotely.
This issue has been resolved and the **Audited By** details are displayed correctly.
- ❑ When the option to print the Anneuxre were set to **No** from the **TDS Need Clarification Summary** screen, Tally.ERP 9 was crashing.
The option to print the Anneuxre is removed from the **TDS Need Clarification Summary** for Client.
- ❑ During the Remote access, while drilling down from **Deducted on Time - Expense summary** to **TDS Bills**, the **Other Status** is not displayed correctly.
This issue has been resolved and now correct **Other Status** is displayed.

- ❑ The option to **copy Clause** information from one **Form 3CD** to another **Form 3CD** using **Alt+R** keys was not working.
This issue has been resolved and not the individual Clauses can be copied.
- ❑ The **Overdue by days** displayed in the Other Status for TDS Bills for which Payment is pending was not displaying the correct value for the dues for the month of March.
This issue has been resolved and the **Overdue by days displays** the value based on the date of Auditing.
- ❑ The **Due Date** and **Payment Status** was displayed incorrectly for the Altered Payment Vouchers under **Bonus, PF, ESI Recoveries** when viewed from **Payroll Re-audit Summary** report.
This issue has been resolved.
- ❑ While E-mailing the Tax Audit Annexures to Form 3CD, Tally.ERP 9 was crashing.
This issue has been resolved and the Annexures can be E-mailed now.
- ❑ The **Payment Status** and **Due Date** were not displayed for the **Under Observation, Need Clarification, Clarified (To be re-audited) and Altered (To be re-audited)** reports for **TCS** during the Remote Audit process.
This issue has been resolved now and the **Payment Status** and **Due Dates** are displayed correctly.
- ❑ The count for the **FBT Vouchers** sent for **Clients Clarification** was not displayed in the Tax **Audit Information** screen under **Need Clarification** column.
This issue has been resolved.
- ❑ The **Annexures to Form 3CD** were printed as continuous pages with the page numbers displayed in sequence (incremental order).
This issue has been resolved and the pages numbers will not be printed for Tax Audit Annexures.
- ❑ The **F4: Ledger** button displays all the Ledgers when drilled down from the from **TDS Summary** report to **TDS Bills** instead of displaying only TDS related Ledgers.
This issue has been resolved and now **F4: Ledger** displays only TDS related ledgers.
- ❑ The **TCS Payment Status** as shown in the **TCS Monthly Summary** screen (**All Vouchers**) and in the **TCS Payment Vouchers** screen (respective Voucher) was not matching.
This issue has been resolved.
- ❑ The option to export the **Tax Audit Annexures (Annexures to Form 3CD)** was not working from the **Print Configuration** screen from **Tax Audit Dashboard**.
This issue has been resolved and the **Annexures** can be exported from anywhere.
- ❑ While printing the Annexure for Service Tax and VAT payable under **Clause 21** from **Under Observation, Need Clarification, Clarified** and **Altered** reports, it was displaying the title for the respective reports.
This issue has been resolved and now the printed **Annexure for Service Tax** and **VAT** displays the correct title.

- ❑ While exporting the **Annexure** for **Payroll Payments** under **Clause 16** and **21**, the output sheet was blank.
This issue has been resolved and now the **Annexures for Payroll** are exported correctly.
- ❑ The total **Voucher Count** shown on the Tax Audit dashboard for the **Employer Contribution** under **Clause 21**, was different from the total Vouchers shown in the subsequent screen.
This issue has been resolved and the Dashboard displays the filtered **Voucher Count**.

Statutory Compliance

- ❑ When the upward **Rounding Off** method is selected for **VAT** the **Statutory Compliance** tool was displaying the Vouchers with Rounded off VAT values (e.g. actual VAT value is Rs. 119.60 is rounded to Rs. 120) under **Possibly Incorrect (to be verified)** with **Wrong Tax Calculation** as the reason for non Compliance.
This issue has been resolved and the Vouchers with **Rounded Off** value of **VAT** are now listed under **In Accordance**.

Release Notes for Tally.ERP 9 Series A Release 1.3

1. Major Enhancements

Excise for Dealers

- ❑ For **Excise Stock Register** and **Excise Purchase Bill Register**, the option **Sorting Method** is provided in **F12: Configuration**. Users can sort the reports based on **Invoice Date**, **Invoice Number** or **Party Name**.
- ❑ In the **Excise Sales Invoice Printing Configuration**, the option **Print Mfgr/Importer PLA RG 23D No.** is provided to print either the **Manufacturer's PLA Number** or the **Dealers RG 23D No.**
 - To print the **Manufacturer's PLA Number** set this option to **Yes**.
 - To print the **Dealers RG 23D No.** set this option to **NO**.

Excise for Manufacturers

- ❑ **Multi Stock Duty Alteration** is provided in Tally.ERP 9. This feature can be used by those companies, which have many stock items and don't want to define the Duty to each item when ever there is change in duty (because of budget or any other reason).
- ❑ **Excise Duty, Additional Tax and Cess on VAT** calculation are supported in **Sales Order**, **Purchase Order**, **Delivery Notes** and **Receipt Notes** vouchers.
- ❑ The option **Show Statutory Details** is provided in **Sales Order**, **Purchase Order**, **Delivery Notes** and **Receipt Notes** vouchers.
- ❑ **CENVAT Credit Register** is provided. This report displays **Opening Balance**, **Credit for the Month**, **Utilised** and **Closing Balance** of CENVAT Credit.

Inventory Vouchers

- ❑ Consolidation of same stock items having the same rates is possible in **Receipt/Delivery Notes** and **Purchase/Sales Invoice** by enabling the option **Consolidate Stock items with same rates** in **F12: Configuration**.

Licensing

- ❑ **Tally.ERP 9** now facilitates the user to work with a temporary license for a defined period from the date of activation. This feature has been enabled to avoid non-usage of Tally.ERP 9 due to the delay in receiving the **Unlock Key**. In the temporary license mode, the license is served from an encrypted license file for a period of **Seven days**. In case the user does not receive the **Unlock Key** within the stipulated period, the user may activate and work with a temporary license thrice additionally. This facility is also extended for license Reactivations.

Service Tax

- ❑ In **Service-Tax Invoice**, instead of Cess and Sec the duties are printed as **Education Cess** and **Secondary and Higher Education**.

Tax Collected at Source

- ❑ **TCS Challan Reconciliation** for new **TCS Forms** is supported.

Tax Deducted at Source

- ❑ When the TDS Data migration is not complete, Tally.ERP 9 displays the message **TDS Migration did not complete successfully!** with additional details to check and correct the un-migrated transactions.
- ❑ For **Accounts only** companies, TDS entries in **Debit/Credit** note in Accounting Invoice mode is provided.
- ❑ **TDS Challan Reconciliation** for new **TDS Forms** is supported.
- ❑ As per the requirement under **Double Taxation Avoidance Agreement (DTAA)**, a flat deduction of **TDS without surcharge and education cess** in case of payments to NRI's towards the services provided under section **195** is supported.

Value Added Tax

- ❑ In the ledgers grouped under **Direct/Indirect Expenses, Direct/Indirect Incomes, Purchase Accounts** and **Sales Accounts**, the fields **Use for Assessable Value Calculation** will be displayed. On enabling this field, the options **Apportion for** and **Method of Apportion** will be displayed. In the **Apportion for** field:
 - The option **VAT** will be displayed when only VAT feature is enabled.
 - **Excise & VAT** and **VAT** will be displayed on enabling both Excise and VAT features.
- ❑ In the party ledger master, a new field - **Set/Alter VAT Details** has been introduced. On enabling this option, facility has been provided to select the required **Type of Dealer** from the **Type of Dealer** list as per the statutory requirement of each state and enter the **TIN/ Sales Tax No.**
- ❑ In **VAT Commodity Creation** screen, a new field - **Commodity Code** has been introduced.
- ❑ In Single Stock Item master, the field **Commodity** has been introduced to select the VAT commodity code.
- ❑ In Multi Stock Item master, the **VAT Commodity** column has been provided to select the **Commodity Code**. On enabling Excise feature along with VAT, the columns **Tariff Classification** and **VAT Commodity** will be displayed to select the details.
- ❑ In multi stock item master, **S: Set Commodity button** (Ctrl+S) has been provided to auto-fill the VAT Commodity Code.
- ❑ In the **Inventory Info** menu, the commodity code or tariff classification can be created from:
 - **VAT Commodity** sub-menu for VAT enabled companies
 - **Tariff/VAT Commodity** sub-menu for companies in which both VAT and Excise feature/ excise rules for invoicing is enabled.
- ❑ In the Stock Item master of a company enabled only for VAT, the cursor will skip the **Tariff Classification** field and prompt for entering the **Rate of Duty** and selection of **Commodity** under **VAT Details** section.

- ❑ The field **Use for Assessable Value Calculation** has been introduced in the ledger grouped under **Duties & Taxes** with **Type of Duty/Tax** as **Others** for a VAT and VAT with Excise enabled company.

On enabling this field, the options **Apportion for** and **Method of Apportion** will be displayed. The **Apportion for** field will be set to **VAT** and **Method of Apportion** to **Based on Value** by default.

1.1 Auditors' Edition

Tax Audit

Clause 18 - Payments made to Specified Persons u/s 40A(2)(b)

- ❑ The support for Clause 18 has been provided. The Auditor can mark a specific Ledgers as Related Party and the Payments made to them can be scrutinized to generate the related Annexure as per section 40A(2)(b).

Clause 27 - Tax Deducted at Source (TDS)

- ❑ The support for Clause 27 - Tax Deducted at Source has been provided. The Auditor can verify the details of all the TDS transactions and ascertain whether the Assessee has complied with the provisions related to TDS as per Chapter XVII-B. All the Transactions not complying to the Provisions of Chapter XVII-B will be reported in their respective Annexure as per Clause 27 of Form 3CD.

Form 3CD Printing

- ❑ The Auditor can enter the required information and print **Form 3CD** along with **Annexure I & II** from Auditors' Edition of Tally.ERP 9. The information entered for Annexure printing will be saved and available for future reference.
- ❑ The option to copy the 3CD related information within the Company or from one Company to another Company has been provided. The Auditor can copy entire Form 3CD or copy each Clause individually. This will help to reduce the time to compile and generate Form 3CD.

Under Observation - new Audit Status introduced

- ❑ A new Audit Status **Under Observation** is introduced. The Auditor can mark Vouchers as **Under Observation** to keep track of Vouchers which are already checked and final Audit status was not decided due to one of the following reasons:
 - Auditor is not sure of the Audit Status to be selected for the Voucher and decide later.
 - Auditor wants to show these Vouchers to the senior before a final call is taken.

Enhanced Tax Audit DashBoard

- ❑ The Tax Audit Dashboard has been revamped to display all the required Audit Status Types. The following new columns have been included:
 - **Under Observation** - displays the count for the Vouchers which are marked as **Under Observation**.
 - **Need Clarification** - displays the count for the Vouchers that are sent for Client's Clarification and are still pending.
 - **Clarified (To be re-audited)** - displays the count for the Vouchers which are clarified by Client.

- **Altered (To be re-audited)** - displays the count for the Vouchers which are altered by Client after the Audit is completed.

2. Minor Enhancements

2.1 Functional Enhancements

Accounting Reports

- The Narration explosion has been enhanced in Accounting reports like, Ledger Vouchers & Group Vouchers.
- While generating **Columnar** reports, under **Columnar Register Alteration** screen, the option **Show Item Value** is provided to show the value of items in a separate column.
- Performance of Voucher Registers like **Sales/Purchase Registers** has been improved by **5% to 20%** and in **Day book filter for Vouchers types** has been improved by **35% to 60%**.

Bank Reconciliation Statement

- In **BRS**, the **Bank date** column is provided in Printout for the Vouchers where the **Reconciled date** was above the **Current Period**.

Excise for Dealers

- To avoid duplication of **RG 23D Entry No** in Excise Purchase Voucher, a warning message **RG 23D Entry No has been used earlier** is provided in **Excise details** screen.

Excise for Manufacturers

- In the **Excise Exempt Sales Invoice** print out for the **Duty Amounts in Words** field, the duty amount will be printed as **Nil (Exempted Sales)**.
- **CENVAT Availing** flag is provided in **Debit Note Voucher** to record the CENVAT Availing Entry.
*Note: The **Journal Vouchers** recorded to avail CENVAT credit in earlier **Release (1.2)** of Tally.ERP 9 need to be changed to **Debit Note**.*
- In **Excise Purchase** and **Journal** (CENVAT Adjustment) Voucher the option **Not Applicable** is removed from the list of **Nature of Purchase**
- In the **Excise Computation** report the Excise Sales Type - **Export** is included and **drill down** option is provided.

Inventory Masters

- In Logical Migration **Alt+Ctrl+M**, a new Module **All Masters** has been introduced to Migrate the **Item Masters** and **Voucher Class**.

Licensing

- On copying **tally_lic.lic** to the default folder of Tally.ERP 9 already in the licensed mode. On restarting Tally.ERP 9 the **Startup** screen appears, select **Work in Educational Mode**, the license details were displayed in the **Info Panel** and the **Licensing** menu displayed **Unlock License** and **Reset License** options.

Payroll

- An additional field to display the Employee **Date of Joining** is provided in Payslip.
- In the **Paysheet Configuration** an additional option **Appearance of Pay Head Types** is provided. The user can configure to view **Paysheet** for **Earnings Pay Heads** alone or **Deductions Pay Heads** alone or both.
- Additional options to display the **Bank Name** and **Branch Name** are provided to in the **Payment Advice Printing** screen. When these options are enabled, the Payment Advice will be printed with the **Bank Name** and **Branch Name** as entered in the respective **Employee Masters**.

Printing and Rendering

- The **Multi Account Printing** of **Stock Item** reports now contains similar **Printing** options provided in **Stock Summary Reports**.

Security Level

- You can disallow a user from viewing the **CST Reports**. In the **Security Levels** select **CST Reports** to prohibit a user from accessing the related **CST Reports**.

Tax Deducted at Source (TDS)

- The option **Use Common Table for TDS Helper** is provided in **F12: Configuration (Voucher Entry)** to remove the **filters** during TDS Deduction and Payment entries.
- In the **Party Bill-wise** details screen of the TDS expense booking entry, a **Note** has been provided. This note will concise the purpose of such bill allocation.
- Now in the TDS payment entry the TDS deducted date is shown with the bill details.
- In the **Provide Details** screen of the TDS payment voucher, a **Note** for the **Period Range** has been provided.
- In **F12 Configuration**, for the option **Range of Bills to show** a new Range of Bills – **All Bills** (along with Pending bills and Over due bills) is provided for all **TDS Outstanding** reports.
- **F4 Button** to select the **party ledger or Nature of payment** is provided in **TDS Outstanding Reports** for **Ledger and Nature of Payments**.

2.2 Auditors' Edition

Tax Audit

CTRL+A: Accept button provided

- **CTRL+A: Accept** is provided on all applicable screens in Tax Audit to save the **Audit Status**.
- The Annexure to Form 3CD which are generated from Tax Audit menu, in Tally.ERP 9 are renamed as per the **Clause No.** in **Form 3CD**.

2.3 Statutory Compliance

- **Tally.ERP 9 Release 1.3** is compatible with **Stat.900** (Statutory file) version **86**.

2.4 TDL Enhancements

General Enhancements

- ❑ **\$\$DateRange** function introduced to evaluate the value as **Due Date**.
- ❑ The **#,!** or ***** modifications to [System: MenuKeys], [System: Form Keys] and [System: UDF] are converted to warning and ignored.

Collection Enhancements

- ❑ While creating a **HTTP Collection**, the encoding format can be specified in the **Data Source** attribute. Data Source attribute now supports **HTTP XML** as file type in addition to **File XML**.

Functional Enhancements

- ❑ **\$\$TgtObject** function introduced in Functions.
- ❑ **SET VALUE** Behaviour is changed to take Value expression as optional.
- ❑ Functions now support changing of **Object Parameters** of itself like CurrentCompany, FromDate, ToDate etc. via changing the Parm variable within the function.

3. Issues Resolved

3.1 Functional Issues

Accounting Reports

- ❑ In case a ledger name is repeated twice while passing an accounting voucher, then the amount of the first ledger name was displayed in **Ledger Outstandings Report** in detailed mode and the second one is ignored.
This issue has been resolved.
- ❑ When opening balance amount was provided in debtor ledger the **On Account** amount was appearing as credit balance in ledger outstanding report instead of debit balance.
This issue has been resolved.
- ❑ In **Group Company**, for specific Reports like **List of Ledgers** were generated and again **Final Reports** were generated, then the **values** of First Selected **Child Company** were displayed in **Final Reports** instead of **Group Company**.
This issue has been resolved.
- ❑ In **Day Book**, the **Particulars** column was blank when a new Company was created after Installation. Only after saving the daybook configuration using F12, the **Particulars Column** was displayed.
This issue has been resolved.
- ❑ In **Group Company**, while generating **Budget & Scenarios** through **Alt+C: New column**, the option **Type of Value to show** was not displayed.
This issue has been resolved.
- ❑ **Rate of Exchange** under currency details was shown as blank, while creating **Columnar** report using **Alt+C** in **Final Reports**.
This issue has been resolved.
- ❑ In **Day Book** on exploding one of the entries using **Alt+F1**, the details of the respective entry were not displayed in print preview mode.
This issue has been resolved.

Cost Centre

- ❑ In **Cost Centres** report, the shortcut key **Alt+R** used for Removing the Lines was not working for Category Summary, Ledger Break-up and Group Break-up Reports.
This issue has been resolved.
- ❑ If the transactions have been entered with the option **Narration for each entry** (activated in Voucher type) along with the narration then in the **Cost Centre voucher report** the detailed mode was showing the First ledger name instead of **As per details**.
This issue has been resolved.

Data Migration

- When Data was migrated from Tally 7.2 to Tally.ERP 9, the stock valuation method was getting changed from **FIFO Perpetual** to **FIFO Annual**.

This issue has been resolved where the FIFO Perpetual Valuation method is Retained after Migration.

Email

- While emailing, the **Original** copy of a **Tax Invoice** is emailed as an attachment ignoring the **Duplicate** and **Triplicate** copies of the **Tax Invoice**.

This issue has been resolved.

Excise for Dealer

- In **Excise Invoice** and in all **Excise Reports** instead of **HSN Code**, name of the tariff classification was getting displayed.

This issue has been resolved and now in all the excise reports and in Excise Invoice **HSN Code** will be displayed.

- When an **Excise Sales invoice** is recorded by selecting the **same item multiple times**, the **RG 23D** report was displaying only the details of the stock item selected in the first line.

This issue has been resolved. Now the RG 23 d report displays the consolidated details of the stock item.

- In the **excise sales invoice print out** the **Buyer TIN Number** was getting printed as **Consignee TIN Number** even after it is removed from the despatch details.

This issue has been resolved.

- When the **Voucher Class** is used in the **Excise Sales** or **Purchase** voucher **Excise Duty** was not getting calculated automatically

This issue has been resolved.

- In the **Excise Sales invoice** print out

- **Declaration** was overlapping the **amount in words** when the option **Print Trader Supplier Info** is enabled in **Invoice printing configuration**.

- The **Vertical lines** were not printing completely when the option **Print Details of Despatch** is enabled in Invoice printing configuration

These issues have been resolved.

- When the option **Print Trader Supplier Info** is disabled in F12: Invoice Printing Configuration, the footer **Subject to Jurisdiction** and **This is a Computer Generated Invoice** were overlapping in **Excise (Dealer or Manufacture) Sales invoice** print out.

This issue has been resolved.

- After the migration of company data (multiple years of data) in Tally.ERP 9, Excise Purchase Bill Register was showing the Grand Total amount of Total Duty and Total Cess columns of receipt side in Negative.

This issue has been resolved.

Excise for Manufacturers

- ❑ In **Excise Invoice** and in all **Excise Reports** instead of **HSN Code**, name of the tariff classification was getting displayed.

This issue has been resolved. Now in **Daily Stock Register** Tariff Classification **Name** with **HSN Code** is displayed. In other Excise Reports and Invoice, the **HSN Code** is displayed.

- ❑ While making **CENVAT Adjustment** entry in **Journal Voucher** on selecting **Excise Unit** cursor was moving back to the Excise Adjustments selection field.

This issue has been resolved.

- ❑ In **Excise Purchase** voucher **VAT** was not calculating properly when the **CENVAT** type of duty ledgers is selected.

This issue has been resolved.

- ❑ The **Notification Number** mentioned for the **Nature of Removal – Exempt** in the excise sales invoice was not getting printing in the excise sales invoice print out.

This issue has been resolved.

- ❑ When a **CENVAT Adjustment entry** is recorded in **Journal Voucher** without using **Voucher Class**; application was not retaining the duty values for CENVAT ledgers and Service Tax Input ledgers in the alteration mode.

This issue has been resolved.

- ❑ **Generating Print Preview/ Printing of Excise Voucher report** (drill down report from Excise Computation) was not possible.

This issue has been resolved.

- ❑ In the **Daily Stock Register** the **Excise Unit Name** was not displayed when the **Alias** is used for the Excise Unit Godown.

This issue has been resolved.

- ❑ When the option **Use for Assessable Value Calculation** is enabled in the Ledger master (grouped under **Indirect Expenses/Income and Direct Expenses/Income**) the value given against the ledger in the Purchase or the sales invoice was considered for Assessable value calculation to compute both **Excise duty** and **VAT**.

This issue has been resolved and now **Duty/Tax Type - Excise & VAT** and **VAT** have been provided to apportion the value based on the Duty/Tax Type selected to compute Excise duty and VAT.

Godowns

- ❑ When the **Appropriate by Qty** method was selected to appropriate the purchase ledgers then, only the Basic rate of purchase was shown without including the **Additional cost of purchases** in a particular location in **Godown** summary.

This issue has been resolved.

Import/Export

- ❑ In the **Day Book** press **Alt+R** to hide a transaction and **Export** the data to **Excel** or a newly created company in Tally.ERP 9. You will notice that the hidden transaction was also exported.

This issue has been resolved.

- ❑ When **XML** data with duplicate **<NAME>** tags was imported to a company and on subsequent loading of the same company **Tally.ERP 9** was crashing.

This issue has been resolved.

Inventory Reports

- ❑ On passing a **Rejection Note** against the **Receipt Note** which was passed against the **Purchase Order**, the **Purchase Order** outstanding report was blank.

This has been now resolved and the Purchase order outstanding report shows the Rejected items.

- ❑ When an **Invoice/Voucher** is raised with an item having no **Units of Measurement**, the same was not appearing in the **Movement Analysis** report.

This issue has been resolved.

- ❑ In **Job Work Analysis** report incorrect **Job Consumption** values were displayed in the detailed mode.

This issue has been resolved.

Inventory Vouchers

- ❑ After passing a **Receipt/Delivery Note** with multiple items and **Rejection In/Out** for any of the stock item with full quantity is entered, the **Tracking Number** for such item was appearing in **Purchase/Sale Invoice**.

This issue has been resolved.

- ❑ When a **Delivery/Receipt Note** is passed containing multiple items and on creating **Sales/Purchase Invoice** partially for few items and subsequently passing another invoice for the remaining items, then all the items entered in the **Delivery/Receipt Note** are prefilled.

This issue has been resolved.

- ❑ While passing the **Purchase/Sales Invoice** against Multiple **Receipt/Delivery Note** or **Purchase/Sales Order** where same expense ledger is used, then the expense ledger amount was not consolidated.

This issue has been resolved.

Licensing

- ❑ On activating Tally.ERP 9 with an invalid **License Path**, an error message **Encrypted License File is either corrupted or not found** was displayed.

This issue has been resolved.

- ❑ The **Tally.ERP 9** license file was either deleted or removed when the system date is lesser than the date of the Activation Server. This was occurring due to the change in time zone.

This issue has been resolved.

Payroll

- ❑ Incorrect **Closing Balances** were displayed in columnar report for **Employee Monthly Summary** while drilling down from **Employee Pay Head Breakup**.

This issue has been resolved.

- ❑ In the **Employee Pay Head Breakup** report the option to display the **Alias Names** for **Employee** was not working.
This issue has been resolved.
- ❑ While processing the **Employer Other Charges** using **Journal Auto Fill**, Tally.ERP 9 was giving **Out Of Memory** error when the **Accounting Masters** were more than **20,000**.
This issue has been resolved.

Printing and Rendering

- ❑ While printing an **Invoice** from a remote location using Pre-Printed stationery, the invoice format was also printed.
This issue has been resolved.
- ❑ When an **Invoice** with more than **15** items was printed the page breaks did not occur at the end of the page.
This issue has been resolved.
- ❑ The manual declaration provided in the voucher was not printed in an **Invoice** while remotely accessing the data.
This issue has been resolved.

Tax Deducted at Source (TDS)

- ❑ When the Expenses are booked in one month (April) and TDS towards such expenses are deducted in another month (May), in the **TDS Computation** report, TDS deducted amount was getting displayed for the month (April) in which the expenses are booked
This issue has been resolved and now in the TDS computation report the TDS deducted amount will be displayed according to the month in which it is deducted.

Synchronization

- ❑ The **Due On Date** does not get updated when the **Sales Order/Purchase Order** voucher date is changed, thereby halting the **Synchronization** process.
This issue has been resolved.

Tally.NET

- ❑ When **Use absolute URL for HTTP Actions** was set to **No**, Tally.ERP 9 displayed a message **Unable to Reach Tally.NET Server**.
This issue has been resolved.

VAT/CST

- ❑ In the alteration mode of purchase voucher and debit note, if additional expense ledger enabled for apportionment was selected before/after CST ledger, the expense amount was not being appropriated.
This issue has been resolved.

- ❑ On using the **R: Remove Line** button in **Forms Receivables** and **Forms Payables** report, the details were not being hidden.
This issue has been resolved.
- ❑ On selecting the same stock item for different taxable VAT/Tax classifications in a single invoice, the additional tax/Cess amount was being calculated only for the first stock item as per the classification selected.
This issue has been resolved.
- ❑ On recording an entry in a regular as well as excise enabled debit note by selecting **Inter-State Purchases** as the **VAT/Tax class** with excise duty, education cess, secondary education cess and CST ledgers, the value of secondary education cess was not being displayed in Statutory Details screen.
This issue has been resolved.
- ❑ In the alteration mode of an excise sales invoice, on changing the rate or quantity and clicking on the **R: Reallocate** button, the value of excise duty was not being displayed in the **Statutory Details** screen.
This issue has been resolved.
- ❑ In a sales invoice recorded on April 1, 2009, on selecting the output additional tax ledger pre-defined with the VAT/Tax class - **Output Additional Tax @ 0.5%** and enabling the Common ledger allocation configuration, the additional tax was calculated even though the classification is applicable only from June 1, 2009.
This issue has been resolved.
- ❑ The serial number was not being displayed in the **VAT Analysis** report of United Kingdom VAT.
This issue has been resolved.
- ❑ In an invoice, if the number of stock items and value of additional ledgers apportioned to the assessable value were more, the calculation was going beyond the **Statutory Details** screen and the cursor was returning to the invoice by skipping the remaining part of the calculation.
This issue has been resolved and the complete calculation details will be displayed in the **Statutory Details** screen.
- ❑ On migrating a **Singapore VAT** enabled company data from Tally.ERP 9 Release 1.1 to Tally.ERP 9 Release 1.2, **GST Account Type** was not getting stored for the ledgers created under **Duties and Taxes**.
This issue has been resolved.
- ❑ The VAT/Tax class selected while invoicing in the **Accounts Invoice** mode was not being stored when it was different from the classification pre-defined in the ledger master.
This issue has been resolved.

3.2 Auditors' Edition

Tax Audit

- ❑ The **FBT Recovery Amount** was appearing in the **Reimbursement Amount** column in the **FBT Annexure II**.
This issue has been resolved and now the **FBT Recovery Amount** appears under **Deductions** Column in the **Anneuxre II**.
- ❑ While printing the non-Anneuxre reports for **TCS Bills** and **Service Tax Input Credit Form & Service Tax Payable**, the **To** date specified in the respective reports is not considered and all the data irrespective of To date specified is printed.
This issue has been resolved and now the above reports are printed based on the period specified.
- ❑ During the Remote Audit, the Vouchers with Aggregate values less than the limit specified in the **F11: Audit Features** under **Tax Audit Rules** were also displayed for Audit under **Amounts Inadmissible u/s 40A(3)**.
This issue has been resolved now the Vouchers with aggregate amount more than specified in the **Tax Audit Rules** only appear for Audit.
- ❑ The **FBT Anneuxre** when printed from the **FBT Payment Vouchers** report was displaying the values for the respective Quarter only instead of the complete Financial Year.
This issue is resolved and now the **FBT Anneuxre** can be printed from any report in **Fringe Benefit Tax**.
- ❑ During the Remote Audit, the **Value of Fringe Benefit** is not displayed in the **FBT Ledger Vouchers** report.
This issue has been resolved and the **FBT Ledger Vouchers** reports shows the **Value of Fringe Benefit**.

3.3 TDL Issues

- ❑ User defined methods in TDL can get cached and cause refresh issue during editing of objects.
This issue has been resolved.
- ❑ **SVUserName** variable was losing its value after company Login.
This issue has been resolved.
- ❑ **Modify Object** failing to access variables from function when function is called from On: Form Accept event.
This issue has been resolved.

Release Notes for Tally.ERP 9 Series A Release 1.2

1. Major Enhancements

Accounting Reports

- In Ledger Voucher's Report, The **Cost Centre** details were not shown for Ledgers other than the selected one.
Now, the **Cost Centre** details are shown for all the **Ledgers** in the **Detailed** mode.

Data Configuration

- From Tally.ERP 9 Release 1.2 you can specify multiple paths for the Data directories. The alternate paths can be specified from **Gateway of Tally > F12:Configure > Data Configuration**, to deactivate the required path you can comment it with a **#**. In case the paths specified are not commented, by default Tally.ERP 9 takes the first active path mentioned.

The **Companies to preload on Tally Startup** allows the user to select a company or list of companies from the specified path to load on startup.

Example: In the **Companies to preload on Tally Startup** field enter **C:\Tally.ERP9\Data\10044**, where **10044** is the company number.

Excise for Dealers

- In Dealer Excise Invoice Printing Configuration following **Four** invoice configuration options are provided
 - **Print Mfgr / Importer Name and Address:** Enable this option to print Manufacturer or Importer name and address.
 - **Print Purchase Excise Duty Details:** This option prints the supplier duty details.
 - **Print Mfgr / Importer Excise Duty Details:** This option prints the manufacturers or importers duty Details.
 - **Print Passed on Duty Assessable Value:** Enable this option to print assessable value of the duty passed on. In case where the user does not want to disclose the assessable value of the Duty passed on, then this option can be set to **NO**.

Excise for Manufacturers

- **CENVAT Availing** flag is provided in **Journal Voucher** to record the **CENVAT Availing** entry.
- In **Sales Voucher**, the option **Special Rate** is provided under **Type of Removal** to record the Excise Sales at special rates.
- In **Excise Purchase Voucher** an option is provided to **Alter** the **Assessable value** to record the purchases from **First Stage** and **Second Stage Dealers**.

Licensing Configuration

- ❑ Multiple instances of Tally.ERP 9 Silver using single License file. Tally Installer now allows the user to provide the path of the license file for Single User installation. It enables you to run multiple instances of Tally.ERP 9 Silver by using a single license file located on the same computer. This facility has been provided in order to avoid copying the license file to different Tally.ERP 9 folders which leads to Copyright Violation and results in license invalidation.

A new parameter LicensePath is added to the Tally.INI file. For subsequent installations on the same system, you can mention the LicensePath using this parameter.

Tax Deducted at Source

- ❑ **TDS** entry with **Inventory** in **Journal Voucher** and **Purchase Invoice** is provided.
- ❑ **TDS** option is enabled for the **Ledgers** grouped under **Duties & Taxes** and with the **Type of Duty/Tax other than 'TDS'**. This will allow the user to calculate the TDS on those taxes on which TDS needs to be deducted.
- ❑ **TDS Not Deducted** report is provided. This Report displays party wise TDS not deducted details.
- ❑ **TDS** option is enabled for the Ledgers grouped under **Direct Incomes, Indirect Incomes** and **Current Liabilities**.
- ❑ **TDS Computation – Party wise** report is provided.

Voucher Types

- ❑ The Decimal portion under percentage field in **Voucher Class** is increased from three to four decimal places in order to give more accuracy for inclusive of Tax calculation during Voucher entry.

2. Minor Enhancements

2.1 Functional Enhancements

Accounting Reports

- ❑ The **Budget Variance** button is not required in **Voucher Monthly Register**, thus **Alt+B: Budget Variance** option has been removed from the **Voucher Monthly Register**, when drilled down from the Statistics.
- ❑ The Full screen has been enabled for all Accounting and Inventory Masters by minimising the Calculator pane.

Cost Centre

- ❑ In Voucher Entry, **Show Employee Details in Auto Cost List?** option is provided in **F12: Configuration**, so that user can select the option whether employee details should display in **Auto Cost List** table or not.

Excise for Dealers

- ❑ Bottom tool bar buttons **Alt+R (Remove Line)**, **Alt+U (Restore Line)**, **Ctrl+U (Restore All)**, **Space (Select)** and **Ctrl+Space (Select All)** are provided for all the **Excise Reports**.
- ❑ In **Dealer Excise Purchase Invoice Printing Configuration** (F12: Purchase Printing Configuration) following **Two** invoice configuration options is provided to print the Excise Invoice with Duty Details
 - Print **Purchase Excise Duty** Details
 - Print **Mfg/ Importer Name** and **Address**

Migration

- ❑ The **Logical Migration** number has been incremented to **2.0**. This indicate that **Data** once migrated to **Tally.ERP 9 Series A Release 1.2** cannot be rolled back / used in the previous version of **Tally.ERP 9**.
- ❑ **Migration Tool** was not working on the machines which had **IPv6** enabled. IPv6 support has been provided for the Migration Tool.

Payroll

- ❑ A new **Group Misc. Expenses (ASSET)** under **Earnings for Employees** is available for selection while creating the Pay Heads. This is will allow to account for the Pre-operative expenses.
- ❑ In **Pay Head Master** an additional option is provided to configure the calculation of **EDLI Admin Charges** based on the specified formula or minimum Rs. 2 per employee.
- ❑ In the Pay Sheet Configuration sub screen **Show Total Column** field has been changed to **Show Nett Amount Column**.

Support Centre

- ❑ You can zoom on the **Issue** and **Reply** by double clicking on the **Listing** and **Interaction** pane respectively.

Tally.NET

- A new configuration **Use Absolute URL for HTTP Actions** is introduced in **F12: Advanced Configuration**, the user can enable this option to perform Licensing or Synchronisation operations when using proxy servers which require complete URL for communication.

Tax Audit

- A separate title (**List of FBT Ledgers**) has been provided to the **FBT ledger Display** report. This report lists down all the FBT masters created.

Tax Deducted at Source (TDS)

- **TDS** option is enabled for the **Ledgers** grouped under **Fixed Assets, Current Assets** and **Investments**.
- The option **Use Common Table for TDS Helper** is provided in **Advanced Configuration (Ctrl+Alt+F12)** from **Gateway of Tally** to remove the **filters** during TDS Deduction and Payment Entries.
- **Alt + R** option (to hide the transactions) is provided in **TDS Computation – Party wise** and **Expense wise** reports.
- **End of List** option is provided in the list of **Method of Adjustment** in **TDS Payment Voucher**.

VAT/CST

- In a cash transaction, an option has been provided to select the party ledger using **Party List** button (**Alt+M** key combination) in the **Supplementary Details** screen to capture the TIN and address details from the party master.
- In the purchase/sales invoice, the option **Show Statutory Details** has been set to **No** by default.
- The usage of common purchase ledger to account for a transaction involving different purchase classifications has been supported.
- Facility has been provided to select the **Tariff Classification** in the creation/alteration screen of **Multi Stock Item Master**.

2.2 TDL Enhancements

Collection Enhancements

- *The Attribute-Child Of to support Voucher Type*
Child Of attribute is enhanced further to support Voucher Type. Now with this enhancement a Collection of Vouchers of particular Voucher Type can be constructed which will improve the performance. Prior to this release, the same can be achieved by applying Filters to the Collection.

3. Issues Resolved

Accounting Reports

- ❑ **Alias Only / Alias (Name) / Name (Alias)** options is now working in the following reports
 - Display > Daybook
 - Display > Account Books > Group Vouchers
 - Display > Account Books > Sales Register > Voucher register
 - Display > Account Books > Purchase Register > Voucher register
 - Display > Account Books > Journal Register > Journal Register
 - Display > Account Books > Journal Register > Debit note Register
 - Display > Account Books > Journal Register > Credit note Register
 - Display > Inventory books > Physical Stock Register > Voucher Register
- ❑ In **Sales Register Columnar** report, the closing balance values were shown wrongly, when previous period is specified.
This issue has been resolved.
- ❑ While printing **Confirmation of Accounts** for Sundry Debtors, if we have debit balance in left-hand-side, the total amount was showing blank values.
This issue has been resolved.

Accounting Vouchers

- ❑ When multiple ledgers were debited in one payment transaction, the same details were not getting displayed in **Day Book** (Detailed Format).
This issue has been resolved.
- ❑ In Tally.ERP 9 while printing a Sales Invoice, passed using **Voucher Class Inclusive of VAT**, with the option **Print VAT Analysis of Items** enabled in **F12: Invoice Printing Configuration**, the print preview of the invoice was getting hung.
This issue has been resolved.
- ❑ When a Voucher Class is created with the option **Remove if Zero?** set to **Yes** and **Print after saving the voucher** enabled for the Voucher Type, while printing such invoice in simple format, the ledgers having nil values were also printed.
This issue has been resolved. Now, only the ledgers having non-zero values are printed.
- ❑ When we display **POS** voucher type in Day Book, there was a repetition of 1st ledger name, If you select any one of the options **Alias (Name) / Alias only / name (Alias)** in **F12: Configuration**, Under **Appearance of names**.
This issue has been resolved.
- ❑ In **Remote Client environment**, an extra Date field was appearing in Purchase Order, Sales Order, Receipt note, Delivery note, Rejection out, Rejection In, Purchase, Sales, Debit note and Credit note.
This issue has been resolved.

- ❑ In Tally.ERP 9 while passing the purchase invoice when we select the expenses ledger created under Indirect expenses with Service Tax and TDS enabled, the cursor was not moving to rate column.

This issue has been resolved.

- ❑ In **F12: Configuration** for Accounts only company, if we activate the option **Use Additional Descriptions(s) for Ledger Name**, then while passing Accounting invoice, the **Descriptions for Item** window was displayed instead of **Description for Ledger Name**.

This issue has been resolved.

Account TDL

- ❑ When **Allow Local TDL** is set to **No** in the **TDL Configuration Management** and on updating the License, local TDLs were loaded.

This issue has been resolved.

Cost Centre

- ❑ In **Cost Category Summary** Report, when a new column is inserted using **Alt+C** the closing balance was showing both revenue and non-revenue items.

This issue has been resolved and now the closing balance will be displayed for Non-Revenue items only in columnar reports.

- ❑ In **Remote Client environment**, the opening balance values were not captured in the Print Preview of **Cost centre Monthly Vouchers report** and All **(CR)** credit prefix were shown as **(DR)** debit prefix before the Ledger Name.

This issue has been resolved.

Filter

- ❑ When we generate Stock Transfer and Physical Stock Register from Multi Account Printing and if we activate the option **Show Columnar Register** in print configuration, the report was not capturing Manufacturing Journal vouchers and also details in Particulars was shown as blank.

This issue has been resolved.

Data Backup & Restore

- ❑ Backup or Restore was not working for data whose Company Name consisted of special characters such as brackets or quotes.

Excise

- ❑ When the duty values are manually entered for the Excise Duty ledgers, those values were not getting reflected in the statutory details (when the Excise Feature was not enabled in Statutory & Taxation features).

This issue has been resolved

Excise for Dealer

- ❑ In **Dealer Excise Sales Invoice**, **SED on CVD** amount is getting doubled in Amount of Duty in words.
This issue has been resolved.

Excise for manufacturers

- ❑ In **Excise Manufacturer Invoice** and **Excise Dealer Invoice** for the Authenticated By & Authorised Signatory company mailing name was printing instead of **Excise Unit Mailing Name**.
This issue has been resolved.
- ❑ **Company Phone Number** was not printing in **Excise Manufacturer Invoice**.
This issue has been resolved.
- ❑ While splitting the company data in which Excise feature is enabled with the **Registration Type Manufacturer**, application was displaying an error message **Serial number 3 already exists**.
This issue has been resolved.
- ❑ In the Manufacturer's Excise invoice **Additional Description** entered for the **Stock Item** was overlapping when the options **Marks and Nos./Container No.** and **Specify No. and Kind of Packages** are enabled in **F12: Configuration**.
This issue has been resolved.
- ❑ **Excise Duty changes** in the stock item were affecting the **previous recorded vouchers**.
This issue has been resolved.

Installation

- ❑ When you install and start Tally.ERP 9 on Windows 98 Operating System, all the screens of Tally.ERP 9 were appearing in Black colour.
This issue has been resolved.

Interest Calculation

- ❑ In Interest Payable and Receivable report, the shortcut key Alt+R used for Removing the Lines was not working.
This issue has been resolved.

Inventory Reports

- ❑ In **Remote Client environment**, the **Batch Numbers** were not displayed in **Stock Ageing Analysis** report.
This issue has been resolved.

- ❑ If a Sales Invoice is passed against the Sales Order with the **Godown** as **Any** in **Sales Order Item Allocations**, Tally.ERP 9 was crashing in **Stock Summary** Report displaying Memory Access Violation.

This issue has been resolved.

- ❑ In **Sales Order** and Purchase **Order Summary**, the shortcut key Alt+R used for Removing the Lines was not working.

This issue has been resolved.

- ❑ When we change period in Job Work Analysis report, **Out of Memory** error message was displayed.

This issue has been resolved.

Inventory Vouchers

- ❑ Sequence of Tax Ledgers are getting interchanged in **Sales/Purchase** invoice while tracking of **Delivery Note/Receipt Note** or **Sales Order/Purchase order**.

This issue has been resolved.

Payroll

- ❑ When the **Payroll Voucher** is passed for the same period which contains the **User Defined Pay Heads** for recalculation (e.g. arrears calculation), the **Professional Tax** values were becoming negative.

This issue has been resolved.

- ❑ When **Provident Fund Gross** contains **Pay Heads** with **User Defined** values, the **Provident Fund** value was not getting calculated.

This issue has been resolved.

- ❑ When **Payroll Voucher** is passed using a **Voucher Class** and single Employee is selected in the **Payroll Auto Fill** sub screen, the **Payroll Voucher** is processed for all the Employees.

This issue has been resolved.

- ❑ Instead of displaying the Name specified in **Name to appear in Payslip** field, the Payslip was showing the name as entered under **Name** field in the **Pay Head Master**.

This issue has been resolved.

- ❑ When **Payroll Statutory** features are not enabled the **Auto Fill** feature in the **Payment Voucher** was displaying incorrect **Salary Payable** amount.

This issue has been resolved.

- ❑ The **Pay Sheet** values were not matching with the **Payslip** values.

This issue has been resolved and now **Pay Sheet** shows the same values as **Payslip**.

POS

- Once we enabled the option **Print item name in one line** to **YES** in **POS F12 Printing Configuration** screen, this option was getting disabled after taking print and quitting Tally.ERP9.

This issue has been resolved.

Printing

- While printing multiple vouchers the Narration and Bill Wise details for all vouchers printed does not appear when **Print Narration** and **Print Narration for each entry** is set to **Yes** in **F12: Configuration**.

This issue has been resolved.

- While printing multiple ledgers **Include Opening Balances** and **Start Fresh Page** is set to **No** in **Printing Ledgers** screen, the **Opening Balances** for all the ledger accounts is printed.

This issue has been resolved.

- While printing the **Day Book** in detailed mode the alignment of the **Particulars** column appears incorrect.

This issue has been resolved.

- While printing the **Outstanding Ledger Report** with **Post Dated** transactions or **Reminder Letter** with a single ageing analysis parameter Tally.ERP 9 crashes.

This issue has been resolved.

- In Tally.ERP 9, when the Exporter's option **Specify No.** and **Kind of Packages** are enabled in **F12: Configuration** along with the **Description for Stock Items**, the alignment of those details in Print Preview and Sales Invoice Printout were not proper.

This issue has been resolved.

- All reports were printed in normal font size when **Condensed** mode was selected on a **Dot Matrix printer**.

This issue has been resolved.

- When **Show Bill Wise Details** and **Show Narration** is set to **Yes**, the data crashes on printing a Multi Column Cash/Bank book.

This issue has been resolved.

Security Control

- When a new company is created with the same name of an existing company that is loaded then the new company will not be selected by default.

This issue has been resolved.

Support Centre

- ❑ The buttons **F3: Group By**, **F4: Threadview** and **F10: Pagesize** are disabled when the issue list is empty.
This issue has been resolved.
- ❑ When you add a reply to an issue without description in **Zoom Content** or **Ticket Interaction** mode, the **Support Centre** displayed the **Description** of the previous interaction.
This issue has been resolved.
- ❑ In the default **View** mode the interaction history for an issue is displayed when you Group by **Status/Site**.
This issue has been resolved.

Synchronization

- ❑ When **Expiry/Mfg** dates are enabled after making few voucher entries, **Import / Synchronization** was failing to import earlier entered vouchers due to new configuration.
This issue has been resolved.
- ❑ **Opening Balances of Masters** without Vouchers were not included in **Export Snapshot.xml** generated from the server.
This issue has been resolved.
- ❑ When manual numbering is enabled for excise vouchers; Tally was unable to import/synchronize these vouchers.
This issue has been resolved.

Tally Admin Tool

- ❑ While converting the .tcp files using the **Tally Admin** on Windows 98 operating system, the **Tally Admin** tool crashes.
This issue has been resolved.

Tally.NET

- ❑ The **Disconnect** button is not getting disabled when there is a breakage in Internet Connectivity or when the company is disconnected using the **Alt + F4** button.
This issue has been resolved.

Tax Audit

- ❑ The report name was not displayed when viewing the **Exceptions** report from the **VAT Payments Details (Disallowed Vouchers)** screen.
This issue has been resolved.
- ❑ **TCS Payments (Disallowed Vouchers)** report was not displaying any vouchers even though **TCS Payable Summary** displays the **Disallowed Vouchers**.
This issue has been resolved.

Tax Deducted at Source (TDS)

- ❑ **TDS Ledger Outstanding** report was displaying VAT duty ledgers outstanding details also.
This issue has been resolved.
- ❑ **Journal Register – Columnar** was displaying **Expense-wise** details instead of **Party-wise**.
This issue has been resolved.
- ❑ **TDS** was not getting calculated for the **VAT Amount**, for the expenses with VAT recorded in **Journal or Purchase Voucher**.
This issue has been resolved.
- ❑ When the TDS option was not enabled in Statutory and Taxation Features, application was displaying **List of TDS Nature of Payments** for **Expenses ledgers**.
This issue has been resolved.
- ❑ The Adjustment entry passed through journal voucher by selecting the **TDS duty ledger** was not storing the credit amount against the **Duty Ledger** in the **alteration mode**
This issue has been resolved.
- ❑ In the alteration mode, the ledgers created under **Duties & Taxes** with the **Type of Duty/ Tax** is other than **TDS** and where the **TDS** option is enabled, application was not allowing to save the ledger alteration unless the TDS option is disabled. Otherwise first disable the TDS option and again enable.
This issue has been resolved.

VAT/CST

- ❑ In the alteration mode of **Sales Invoice**, when a new **Stock Item** was added, the user was not being allowed to select the **VAT/Tax classification**. Also the **VAT** and **Additional Tax** was not recalculated after considering the **Assessable Value** of new **Stock Item**.
This issue has been resolved.
- ❑ The value of **VAT** and **Additional Tax** on purchase and sales entries was not being automatically calculated when voucher class was used in an accounting invoice.
This issue has been resolved.
- ❑ In case of entries made with excise and additional ledgers by selecting party ledger grouped under **Branch/Division** using **Consignment/Branch Transfer Inwards/Outwards** as **VAT/Tax Class**, the excise ledger details were not being displayed in the **Statutory Details** screen.
This issue has been resolved.
- ❑ In the **Item Invoice** mode of an inter-state purchase entry, the value entered for the expense ledger which is not enabled for apportionment was being captured in **Forms Issuable** report.
This issue has been resolved.

- ❑ On selecting the **CST** ledger in the accounting Invoice mode of an inter-state purchase entry, the CST amount was not being calculated and displayed.
This issue has been resolved.
- ❑ In **Statutory Details** screen of VAT/CST entries, when expense amount entered was lower/higher than the actual expense value specified in the invoice, the warning message was not being displayed.
This issue has been resolved.
- ❑ The assessable value of an inter-state sales entry made in accounting invoice mode was not being captured in **VAT Computation** report when the option **Calculate Tax on current Sub-total** was disabled in the **F12: Sales Invoice Configuration**.
This issue has been resolved.
- ❑ On selecting the voucher class in a sales invoice, the output VAT and additional tax amount was not being calculated and displayed.
This issue has been resolved.

TDL issue resolved

- ❑ Now Objects of the **Summary Collection** can be exposed to **Tally ODBC Interface** through Collection attribute '**Is ODBC Table**'.

Release Notes for Tally.ERP 9 Series A Release 1.1

1. New Features

Some of the New features in this release include,

- E-TDS
- Windows 98/ME/NT compatible Tally.ERP 9

E-TDS

- Tally.ERP 9 provides **E-TDS** capability to its users. By using e-TDS feature, the user can export the eTDS Forms from Tally.ERP 9 in the formats as prescribed by NSDL.

Windows 98/ME/NT compatible Tally.ERP 9

- Support for **Windows 98 / ME / NT** is now provided in Tally.ERP 9 Release 1.1.

2. Major Enhancements

Some of the major functionality changes in Tally.ERP 9 include,

- VAT/CST
- Performance

VAT/CST

The following enhancements are made in the VAT/CST feature of Tally.ERP 9

- The option to **appropriate** the additional ledgers grouped under purchase/sales accounts based either on **quantity/value** has been provided. The appropriation can be viewed in the **Statutory Details** screen on enabling the option **Show Statutory Details** to **Yes** while invoicing.
- The option to **appropriate** additional ledgers to the **assessable value** of each item selected while invoicing has been provided for CST. The value will be **appropriated item-wise**, based on **quantity/value** as per the method of allocation set in the additional ledger master. The appropriation can be viewed in the **Statutory Details** screen on enabling the option **Show Statutory Details** to **Yes** while invoicing.

Performance

- The **performance** of **Excise Sales Invoice**, **Excise Stock Register** and **Excise Purchase Bill Register** is optimised.

3. Minor Enhancements

Control Centre

- While creating a Tally.NET user for a Multi Site Account ensure that the field **Tally.NET User** is set to **Yes** and the required **Site** is selected. **Tally.ERP 9** will prompt a message that the **Tally.NET flag** is not set, the required **Site** is not selected and the **Form** will not be submitted.

Excise for Manufacturers

- The option **Print Additional Description(s) for Stock Item Name** is provided in **Excise Sales Invoice Printing Configurations** to print the Additional description(s) of stock items in the Excise Sales Invoice.
- The details of **Marks & Nos/Container No** and **No. and Kind of Packages** details can be captured in the Excise Sales Invoice.

Payroll

- In the **Employee Pay Head Breakup** report the option to select **Not Applicable** is removed from the List of Pay Heads. Only valid **Pay Heads** are available for selection under the List of Pay Heads.

4. Issues resolved

Accounting Reports

- ❑ In **Stock Journal Register Columnar Report**, the **Quantity Column** was showing blank.
This issue has been resolved.
- ❑ While entering **Delivery Note/ Receipt Note** voucher, after providing the item details, the cursor was moving from amount column to **Party Bill-wise Detail** screen.
This issue has been resolved.
- ❑ In **Multi-Account printing -Outstanding** report, extra closing balance blank lines were being printed for each account.
This issue has been resolved.
- ❑ In **Statistics** report, if **Sorting** is done by parent voucher type, the **cancelled voucher info** was not appearing.
This issue has been resolved.
- ❑ In **Item Movement Analysis Report**, when **new column** was added with any other item, it was repeating the values of first item to other items.
This issue has been resolved.
- ❑ In **Columnar Report of ledger** having inventory transactions, the **Quantity column** was blank.
This issue has been resolved.
- ❑ When purchase/sales is raised in **Voucher** format, **TIN/Sales Tax No.** was not appearing in purchase/sales register columnar report.
This issue has been resolved.
- ❑ In **Ratio Analysis Report**, on drilling down to **Ledger Payment Performance Report** and when the **closing balance** is **zero** then **Zero** was not displayed in ledger payment performance **formula** in **remote company**.
This issue has been resolved.
- ❑ When **Purchase Register or Sales Register** is selected through **F10: Accounting Reports** from **Interest Receivable or Interest Payable Report**, the **closing balance** were being displayed **blank**.
This issue has been resolved.
- ❑ When the **Cash/Bank Book** was printed through **Multi Account Printing**, the narrations for each entry was not printing.
This issue has been resolved.
- ❑ When the Billwise reference is **On Account**, the same was not displayed when **Show Billwise Details** also in **F12 configuration** was enabled from Day Book.

This issue has been resolved.

- ❑ **Particulars** title was not appearing in **Group Outstanding** Report.

This issue has been resolved.

- ❑ During **Excel Export of Trial Balance** with **Budget Variance** was not aligned properly in **Excel**.

This issue has been resolved.

- ❑ In **Day Book**, during viewing of particular inventory voucher type by pressing **F4** and changing the view mode to **columnar** by pressing **F5**, **quantity column** was blank.

This issue has been resolved.

- ❑ In **Remote company**, on drilling down from the deleted Audited voucher, the display screen of voucher was appearing.

This issue has been fixed and now drilling down from deleted Audited voucher is not possible.

Accounting Vouchers

- ❑ When the option **Follow Excise Rules for Invoicing** is enabled in F11:Features (Statutory & Taxation), The option **Use excise format** in **F12 (Voucher Configuration)** was not appearing.

This issue has been resolved.

- ❑ When data of **Tally 9 (Build 90)** was opened in **Tally.ERP 9** which has purchase entries with Ledgers which are configured with **appropriation by Quantity or value**, the display sequence of Ledgers in invoice were interchanging.

This issue has been resolved.

- ❑ During Sales Entry in **Accounts Invoice mode** with Voucher class having **output CST**, the same is not calculated.

This issue has been resolved

Control Centre

- ❑ **Site Administrator** should not be allowed to change **General Configuration** and **TDL Configuration** of other sites.

This issue has been resolved. Now the Site Administrator cannot administer other sites.

- ❑ When a user is linked to an Account and the ID is unlinked from another Account by pressing Alt + D (Delete/Unlink), the **Alt + D button** remains enabled even after the user is unlinked from the required account.

This issue has been resolved. The Alt + D button will be disabled once the ID is unlinked.

- ❑ The **Alt + F1 (Detailed/Condensed)** button displays Site profile. As Single Site does not have any site, this button should be disabled.

This issue has been resolved. Now **Alt + F1 (Detailed/Condensed)** button has been disabled for Single Site Accounts.

Excise for Manufacturers

- ❑ The **Declaration** details provided in the **Voucher Type** was not appearing in the **Manufacturer's Excise Sales Invoice**.

This issue has been resolved.

- ❑ When in an purchase entry **two Stock Items** with **different excise rates** are accounted, the **Excise Duty value** was getting **apportioned** to the stock items **based on the value of the Item**.

This issue has been resolved and now the duty value will get added to the respective item cost.

Excise for Traders

- ❑ In case of Purchase - Imports, **Education Cess on CVD** and **Secondary education Cess on CVD** was getting calculated by considering the **Special AED of CVD**.

This issue has been resolved.

Inventory Reports

- ❑ In Remote Client, **Multi Account Printing for Stock item**, opening balance was not displayed if method of balancing was set as monthly from the second month onwards.

This issue has been resolved.

- ❑ In **Movement Analysis > Stock Group by Ledger Report**, during creation of new columnar with other stock group, it is repeating the values of primary group for other stock groups.

This is has been resolved and now the value is coming correctly for the respective stock groups.

Job Costing

- ❑ When two or more expenses are raised for same Cost Center or Job/project, on drilling down from **Breakup of Job/Project** report for a single expense ledger, the **Job / Project Monthly summary** report was displaying the **consolidated amount** of all the **expenses ledgers**.

This issue has been resolved.

Licensing

- ❑ **Tally.ERP 9** was allowing the same user to use the application from multiple logins in **Terminal Server** and **Terminal Client** scenario for **Single User** license.

This issue has been resolved.

- ❑ On **installing** and **activating** the **License Server**, the **Tally.ERP 9 License** was not served to the required **client machine**. The License would be served to the client machine on restarting the License Server only.

This issue has been resolved.

- ❑ In the **Unlock license file exist mode**, **Reset License** shows a form to capture the **Serial Number**. There is no validation happening for the **Serial Number** provided and the Unlock license file was getting deleted.
This issue has been resolved.
- ❑ When **resolution** option appears in **Licensing**, the requests carries **wrong values** if **second option** is selected and ignored and then select **first option**.
This issue has been resolved.
- ❑ The **Reset License option** was prompting for **authentication** (username and password).
This issue has been resolved.
- ❑ **TallyAdmin tool** was crashing when '**Esc**' key is pressed in the **Activate License / Activate Site License** form.
This issue has been resolved.
- ❑ **Tally.ERP 9 startup** was taking extra time. Based on the analysis, license operation was taking 35% of the total startup time.
This issue has been resolved.

Payroll

- ❑ The detailed view of **Payslip** was not displaying the **Unit of Measure** for the **Attendance Details** section for the **Remote user**.
This issue has been resolved.
- ❑ The **Employee Vouchers** report was not displaying the **Pay Head** name under **Particulars** field.
This issue has been resolved.

Printing

- ❑ In **cheque printing** the **Amount in figures** was not aligned properly.
This issue has been resolved and now the amount is getting printed in the amount box appropriately.

Support Centre

- ❑ When the user clicks on the **Show Attachment** link, the attached document is blank.
This issue has been resolved.
- ❑ On replying to a **Closed issue**, the **issue Status** for the **parent issue** is displayed as **Closed**.
This issue has been resolved. Now, when a Closed issue is **Replied**, the status for all the issues linked to the ticket number will change to **Pending**.

- ❑ In the **Support Centre** when the **period** is set without providing any **value** in the **Default Period field** and providing the required **dates** in the **From** and **To** fields and when the Support Centre is re-accessed the end date is displayed as **31st March**.
This issue has been resolved.
- ❑ **Support centre** interface changes if the **Issue Listing** has only one **Pending issue** and the same is **Closed** from **Zoom in Content view**.
This issue has been resolved.
- ❑ In case the **Support Centre** has only **one issue Pending** and the same is viewed in **Zoom in Content mode** and then **Closed**, on pressing **Esc** the Support Centre is closed and returns to **Gateway of Tally**.
This issue has been resolved.

Tax Audit

- ❑ Drilling down from the **To be Reaudited column** for **Service Tax** was not displaying the altered **Payment Vouchers**, even though the **Tax Audit Dashboard** showed Altered Vouchers count.
This issue has been resolved.
- ❑ The **Service Tax Annexure** was showing incorrect value for the Disallowed **Payment Vouchers** with multiple references.
This issue has been resolved.
- ❑ The column 4 in the **Annexure for Loans & Deposits Accepted Clause 24(A)** was blank when printed remotely.
This issue has been resolved

TDS

- ❑ The **PAN Not Available** report was not displaying details properly when the party details were more in number.
This issue has been resolved.

VAT/CST

- ❑ In case of **data migrated** from **Tally 9 release 2 and 3** to **Tally.ERP 9**, the taxable sales entry was not retaining the **VAT/Tax class** selected for additional ledgers grouped under sales account and the **Value** of output additional tax ledger was not being displayed.
This issue has been resolved.

Voucher Reports

- ❑ **Alias** was not appearing in **Voucher Reports**
This Issue has ben resolved

Release Notes for Tally.ERP 9 Series A Release 1.0

We are glad to announce the launch of **Tally.ERP 9**, to take simplicity, flexibility, robustness, versatility to greater heights. The new ERP product inherently supports the ability to operate the Enterprise Business from anywhere. That is, the owner(s), or any other authorised person, will be able to work on their information even without direct physical access to the systems. Effectively, we have extended the capability of Tally.ERP 9 beyond the physical boundary of the installation as required by Medium & Large Enterprises.

1. New Features in Tally.ERP 9

Some of the new features in Tally.ERP 9 include,

- Remote Access
- Tally.NET (to be read as TallyNET)
- Simplified Installation process
- New Licensing Mechanism
- Control Centre
- Support Centre
- Enhanced Look & Feel
- Enhanced Payroll Compliance
- Excise for Manufacturers
- Auditors' Edition of Tally.ERP 9 (Auditing Capabilities for Auditors')

1.1 Remote Access

Tally.ERP 9 provides remote capabilities to its users to access data from anywhere. Using **Tally.NET** features, the user can create remote users (ids), authorize & authenticate them to access company remotely. Currently, the remote connectivity allows the user to view/display the required information on his system instantly.

The process for remote access is as follows:

- Start **Tally.ERP 9**, load the required company and connect to **Tally.NET**
- Enter the remote user ID at the remote login location to access company data from Tally.ERP 9 **Licensed** / **Educational**.

Fig.1 Remote Access process

Requirements for Remote Connectivity:

At the Customer's Location:

- A valid Internet connection
- A valid Tally.ERP 9 License with a Tally.NET subscription
- Create and authorise remote users for a Company that has to be accessed remotely
- Load & Connect the Company to Tally.NET for remote access

Notes: For the company to be accessed by the Remote User the computer has to be kept on and Tally.ERP 9 with company loaded.

At the Remote Location:

- A valid Internet connection
- Tally.ERP 9 (**Licensed/Education**)
- A valid remote User ID and Password

Benefits of Remote Access:

- Provides anytime, anywhere access to required information
- Allows you to access Reports & Statements on the move to keep yourself updated with the latest Business happenings.
- Enhances response time to customers (For e.g., Sales staff can access Customer's Outstanding Statement for immediate reference / discussion)
- Easy access to financial information for faster & timely decision making.

Data Security:

- The Remote connectivity is initiated with a secured Handshake between two computers using Tally.NET environment.
- Customer can allow / disallow access to the Company Data for remote users at any point of time.
- Data resides on the Customer's Computer only.
- Encrypted Data is transferred between two computers on request.
- The customer can assign Security controls to remote users depending upon what access to be given.
- For the Remote user(s) Back up / Restore options will not be available in the remote location.

Remote TDL's

During Remote Access, the additional TDL's running at the customer's place will also be available to the Remote User at the remote Location.

The user experience remains the same either working locally on **Customer's Computer** or from a **Remote Location**. It is recommended to use Broadband connections to enjoy the best Remote experience.

1.2 Tally.NET

Tally.NET is an enabling environment which works behind the scenes to facilitate various Internet based services in Tally.ERP 9. Each Tally.ERP 9 is enabled for Tally.NET Services by default. Tally.NET provides the following services/capabilities in this release of Tally.ERP 9:

Tally.NET Features

- Create and maintain Remote Users
- Remote Access
- Control Centre
- Support Centre
- Synchronization of data (via Tally.NET)
- Product updates & upgrades

The following services will be available in the forthcoming releases:

- Online help capability in the form of reference Manuals, Articles and FAQ's
- Access information from Tally.ERP 9 via SMS from mobile
- Employer Recruitment Test

1.3 Simplified Installation Process

Tally.ERP 9 comes with a new enhanced installer, which allows the user to configure different settings from a single screen, as per requirements.

New Tally.ERP 9 Installer

The new installer allows the user to install **Tally.ERP 9** application as well as **License Server**, however you may choose to install either of them one after the other.

Using the new Installer, the user can install **Tally.ERP 9** and **License Server** separately on different Computers/folders or same folder.

Fig.2 Tally.ERP 9 Installation screen

- While installing **Tally.ERP 9**, the user can specify the path for **Application, Data, Configuration** and **Language** files to be stored.
- While Installing **Tally.ERP 9** on the Client machine in a multiuser environment, the user is required to provide the **Computer Name / IP Address** and **Port Number** of the computer, where the License Server is installed & running.

Uninstaller:

The Uninstaller wizard similar to the Installer, also provides flexibility to uninstall either **Tally.ERP 9** application or **License Server** separately or both together. If only License Server is uninstalled, then Tally.ERP 9 will switch to Education mode on the Client Computer.

Tally Admin Tool

The **TallyAdmin** tool is a new component that has been introduced with **Tally.ERP 9** which enables the user to perform the following activities without starting **Tally.ERP 9**

- Initiate **License Service** operations.
- Display the active **Tally.ERP 9 License Servers** in a LAN.
- Administer Site License for different products from Tally.ERP 9.
- Check network connections between the computers designated as **Client** and **Server**.
- Convert **TCP** and **TSF** files of Tally 9 to the format compatible with Tally.ERP 9.

The Tally Admin Tool is available in the Tally.ERP 9 application folder, on installation.

Introduction to TDL Server DLL Component

Tally.ERP 9 onwards, a new component TDLServer.DLL has been introduced, which gets copied to the folder in which Tally.ERP 9 has been installed. All the default TDL files of Tally have been inte-

grated in this component. On invoking Tally.ERP 9, these TDL's will be loaded. The user TDL's will be subsequently loaded as usual from Tally.ini.

The componentization will result in a more robust application. The benefits of this componentization are as follows –

- In case of any updates/ changes in TDL, only TDLServer.dll file needs to be downloaded and not the entire Tally application which enables faster downloads.
- This will help in dynamic loading and unloading of TDL Files while Tally application is running
- Forthcoming Tally Developer will be directly using this component, thus eliminating the need for a separate DefTDL.dat file.

Unified File Format for Tally.ERP 9

The Tally.ERP 9 application folder contains files other than the data files. These are referred to as secondary files. From this release onwards the file format of all the secondary files have been standardized.

TCP Files

All the TDL files which were compiled for previous versions of Tally as **.tcp** have to be converted to a new format. Mentioned below are the ways in which this can be done.

Notes: The TDL files in **txt** format does not require this conversion.

Conversion of Tally 7.2 tcp files to Tally.ERP 9 Format

Tally7.2 tcp files can be migrated to Tally.ERP 9 format using the **Tally72Migration** tool available in the Tally.ERP 9 folder. Migration process is the same as earlier.

Conversion of Tally 9 tcp files to Tally.ERP 9 Format

- **Automatic Conversion Process:** When Tally.ERP 9 is installed in the existing Tally 9 folder then all the files with **.tcp** extension included in the "tally.ini" file are automatically converted to the Tally.ERP 9 compatible format. The original ".tcp" file is renamed as "<filename>.tcp.BAK". The name of the file which is converted to new format is same as the original filename. The original TCP file is retained as a backup file.
- **Manual Conversion Process:** To manually convert the files in the new format use the **Conversion** tab of **Tally Admin Tool**.

It is mandatory to specify the **File Type**. The file Type can be TSF or TCP.

- **TSF:** Converts tally configuration file from old format to new format e.g. tallysav.tsf to tallycfg.tsf
- **TCP:** Converts TCP file from old format to new format.

In the **Source File** box specify the name of file to be converted.

In **Destination File** box provide the name for the converted file.

Note: Start Tally.ERP 9 and check the status of your TDL file. [Go to **Gateway of Tally**, click **F12: Configuration > TDL Configuration**] If the status is Active, then the tdl is compatible to Tally.ERP 9 format. If the status is Error, then scroll down to the line and press enter to know the details. Then make the TDL syntactically compatible as per the Tally.ERP 9 standards.

Configuration File

Manually the file "**Tallysav.tsf**" can be converted to the new standardized format by selecting "**TSF**" as the file type in the **Conversion** tab of Tally Admin Tool. Ensure that the destination file name is "**Tallycfg.tsf**"

1.4 Licensing in Tally.ERP 9

Tally.ERP 9 launches a new Licensing mechanism which is simple, user-friendly and addresses all the licensing activities from a single screen for users across segments of business. Besides, allowing activation of **Single User (Silver)** and **Multi User (Gold)** license, it also extends the feature to **Multi-Site Licensing**.

The salient features of Licensing are:

- License Activation is simple and easy two step process.
- Introducing the concept of an **Account** for better management & administration of Licenses through the **Control Centre**.
- Provide your **Account ID** and **Password** to reactivate license
- The flexibility and compatibility to centrally manage multiple licenses across locations in a secured environment
- Removes all licensing data from your computer for a particular instance of license.

Site Licensing

A new concept of **Site Licensing** is introduced from Tally.ERP 9. A site refers to activation of Tally.ERP 9 Single or Multi User license. The site licensing is broadly classified into two categories namely **Single Site** and **Multi-Site**.

- **Single Site:** A single instance of **Tally.ERP 9 Silver** or **Gold** license is active at a time under an **Account**.
- **Multi Site:** Is more than one active **Tally.ERP 9 Silver** or **Gold** licenses on **different machines** under a **single account** comprising of **same** or **different Serial numbers**.

Advantages:

- Centrally configure Sites / License across locations.
- An Account is created using your E-Mail ID provided in the activation form.
- All the serial numbers are assigned to the Account.
- User can split an Account or merge two or more Accounts.
- The Account information is accessible using the Account ID and Password.

Licensing Mechanism

- Provide the required details and your E-Mail ID in the activation form.
- On processing the request an encrypted (not in readable format) license file is generated and needs to be decrypted using a set of character and numbers called key.

1.5 Control Centre

Control Centre is a new feature being introduced with Tally.ERP 9. This utilises Tally.NET as an interface between the end user and Tally.ERP 9 installed at different locations. With the help of Control Centre, you will be able to:

- Create users with predefined Security levels
- Centrally Configure & manage your Tally.ERP 9
- Surrender, Confirm or Reject activation of a Site
- Maintain Account related information

Following are brief descriptions of the features of the Control Center:

Create users with predefined Security levels

Using the Control Centre feature, the Account Administrator can create users and map them to a predefined security level and authorise them to access a Site/Location linked to that Account. Further, the system administrator can also create Remote users (Tally.NET Users & Tally.NET Auditors) and allow / disallow them to remotely access the data.

The predefined security levels in Tally.ERP 9 are:

- **Owner** - This security level refers to the ownership for the complete Account. The Owner can create **Standard Users** or **Owners** with required permissions.
- **Standard User** - Created by the Owner with required permissions.

Centrally Configure and manage your Tally.ERP 9

The Control Centre provides the flexibility to create (or change) the master configurations set for an Account and apply them to one or more sites (all sites) belonging to that Account.

The following master configurations set can be made from the Control Centre:

- Add/Modify the Tally.ini parameters
- Assign TDL's to a site or all the sites under an Account
- Permit or Deny changes to the local configurations

The master configurations set created, is applied initially to the Account centrally, which is then inherited by the site(s) on updation of license, based on the site level permissions defined by the Account Administrator.

Surrender, Confirm or Reject activation of a Site

The Account Administrator is authorised to surrender, confirm a site license or Reject the request received on activation from another site.

Maintain Account related information

Allows you to maintain information about the organisation. Based on the requirements, the Account Administrator can merge multiple accounts into one or split an account into multiple accounts for easy and better management.

1.6 Support Centre

Tally.ERP 9 provides a new capability known as **Support Centre**, wherein a user can directly post his support queries on the functional and technical aspects of the Product. Using Support Centre feature, the user can view all the support queries reported via Support Centre and also through other modes viz., Email, Calls, etc.

The Support Centre feature facilitates viewing queries for an activated license along with the Status i.e., Closed / Pending and Ticket Summary. The report is viewed based on Date, Status and Location.

The screenshot displays the Tally Support Centre interface. At the top, there is a menu bar with options: P: Print, E: Export, M: E-Mail, O: Upload, G: Language, K: Keyboard, K: Control Centre, H: Support Centre, and H: Help. Below the menu bar, the 'Support Centre' title is shown along with a 'Ctrl + M' icon. The account ID is 'tallycustomer@tallysolutions.com' and the user is 'Suresh Kumar'. The date range is '28-Feb-2009 to 7-Mar-2009'. A table lists tickets with columns: Date, Subject, From, Mode, Status, and Ticket Summary. The tickets are listed in descending order of date. The first ticket is dated 07-Mar-2009 and is titled 'Re:TDS with Service Tax'. The ticket is in 'Pending' status and was reported via 'Direct'. The ticket summary shows the ticket number 'TLY-6166249-7750926' and the account 'tallycustomer@tallysolutions.com'. The ticket was reported on 06-Mar-2009 and the current owner is 'Tally Solutions Pvt Ltd.'. The current status is 'Pending'. The ticket interactions show a message from the user to the support team, dated 07-Mar-2009, regarding the TDS with Service Tax. The message states that the user has received a response and the document forwarded by the support team is helpful. The user thanks the support team for their quick help and support. The ticket is currently in 'Pending' status. The interface also includes a sidebar with various options: F1: Condensed, F2: Period, F3: Group by, F4: Thread View, N: New Issue, R: Reply, C: Close, Z: Zoom in list, Z: Zoom in content, B: Go to Browser, L: Login, S: Select Account, F9: Status Filter, F10: Page Size(10), F12: Configure, and F12: Range.

Q: Quit

Fig.3 Support Centre Interface

Faster reach for help and support

The Support Centre makes it easy and convenient to reach out Tally Support, including the Tally Service Partner, for any product help and support, by a click of a button from within the product.

Access solutions to your problems any time

This feature facilitates instant reference to the solutions provided for your queries at any point of time.

Avoid repeated explanations

Availability of information on the issues, interactions and resolutions, to the entire Tally Support Team, including the Tally Service Partners largely reduces the possibilities of repeated explanations on the issues/support queries and thereby ensures quality help and support.

Track your issues on real-time basis

Support Centre enables you to track the status of your queries including the full chain of interactions irrespective of the mode of communication. If you have posted a query from the Support Centre within Tally. ERP 9 and then interacted over the phone, you will be able to see both the interactions.

Access issues of any Location/Site

In case of Multi-site License, you can view the details of issues of any location /site from any of your Location(s).

Reach out to your nearest Partner instantly

You can search for a service partner and post your queries instantly.

Access your Support Centre remotely from any Tally.ERP 9

As an authorized Tally.NET user, Support Centre feature can be accessed remotely from any Tally.ERP 9 (active or in Educational mode) from anywhere. Support Centre also allows you to Select the required account from the list of User Accounts in case your ID (user name) is linked to multiple accounts.

1.7 Configure Tally.ERP 9 from Tally.ERP 9

The user can make all the necessary changes to the product configuration from Tally.ERP 9 itself by going to **Data Configuration, TDL Configuration, Advanced Configuration** and **Licensing** options available under **F12:Configurations** from **Gateway of Tally**. This provides a flexible option for the user to make changes in the Tally.ini file (Configuration file) and apply them from the application itself.

- Data Configuration - To specify the default Companies that should load during start up and path for the data files, language files, Confide files.
- TDL Configuration - Displays the additional TDL's (Local TDL's, Account TDL's, and Remote TDL's) and the user can specify the Local TDL's that need to be loaded. The TDL's specified will be loaded dynamically (without restarting Tally.ERP 9).
- Advanced Configuration - To configure Tally.ERP 9 as Server/Client/none, as ODBC Server and the port configured for ODBC or Data Sync.
- Licensing - To configure the License path in a Multiuser environment.

1.8 New Look & Feel

Resizing Screens

The user can resize the Tally.ERP 9 screen/window. The resize parameters such as height and width are defined in the Tally.ini file. The user can compare identical reports of different companies by changing the screen size for the two instances of Tally.ERP 9.

Multiple Selection capabilities

The user can now select multiple lines in a Report at single instance. On selecting multiple lines, the user can delete or hide line(s) based on the requirement of the report.

Fig.4 Multiple Selection Capability

Bottom Button Toolbar

Another new component that has been introduced in a set of buttons located at the bottom part of every report and Data Entry screen. Click on the button or press the relevant keys to perform the required task.

Information panel

A new component titled **Information Panel** or **Info Panel** has been introduced which is located in the bottom part of the Tally.ERP 9 screen. The Info Panel has five blocks namely **Product**, **Version**, **Edition**, **Configuration** and **Calculator**. The user can click on any one of these blocks to view the detailed information.

Product

Displays the logo and product name. The user can click on this section to go to Tally Solutions website to view the latest happenings.

Version

This part of the Info Panel displays the Release, Build, Date on which the recent License Update is done. In case Tally.ERP 9 is not updated with the recent Release/Build, the info panel will take you to the Download Center get the latest update. The user can also click on **as on Date** to update the License. It also displays the information on the Type of License (Silver/Gold/Auditors' Edition).

License

Displays the Serial Number, Site ID, Account ID and Tally.NET subscription details.

Configuration

Displays the Stat and Client Server Information. Stat Information will take the user to the Download center to download the Latest Stat file. The Client Server Information will allow the user to reconfigure the settings. The Additional TDL's loaded will also be shown in this section.

During Voucher Entry or while viewing reports the information panel is hidden to provide additional working space. However, you can click on the directional arrows to restore the information panel as and when required.

Calculator

Displays the Connection status while connecting to Tally.NET, during Data Sync, and Remote connectivity. This can also be used as Calculator.

1.9 Enhanced Payroll Compliance

Payroll in Tally.ERP 9 is now **simplified & enhanced** to handle all the functional, accounting and statutory requirements of your business. The following Statutory features and processes have been incorporated for faster, better and accurate payroll processing.

Payroll Statutory Features

The following statutory features have been incorporated in Tally.ERP 9:

Employees Provident Fund (EPF)

- ❑ Provides automated computation and deduction/contribution of Employees & Employer's Contribution towards Provident Fund.
- ❑ Provides a predefined PF process to expedite voucher entry and accurate processing of contributions.
- ❑ Generates the following **Monthly / Annual** statutory Challans & Reports:
 - **Form 12A:** Statement of PF Contribution during a particular month
 - **Form 5:** Details of the Employees joining during a particular month
 - **Form 10:** Details of the Employees leaving during a particular month
 - **PF Combined Challan:** Monthly Challan form to be submitted to the bank while paying the PF amount
 - **PF Monthly Statement**
 - **Form 3A:** Employee wise Annual Payment details
 - **Form 6A:** Annual Statement of PF contribution
- ❑ Facilitates automated computation and payment of following administrative charges with the help of predefined processes.
 - **PF Administration Charges @ 1.10%**
 - **Employees' Deposit-Linked Insurance Scheme (EDLI) @ 0.5%**
 - **EDLI Administration Charges @ 0.01%**
 - **Other Admin Charges** (inspection charges, interest paid etc.)

Employees State Insurance (ESI)

- ❑ Provides automated computation and deduction/contribution of Employees & Employer's Contribution towards Employees State Insurance
- ❑ Provides predefined ESI process to expedite voucher entry and accurate processing of contributions
- ❑ Generates the following Monthly / Half Yearly statutory Challans & Reports:
 - **ESI Monthly Statement**
 - **ESI Monthly Payment Challan:** Challan form to be submitted to the bank while paying the paying the ESI amount.
 - **Form 3:** Monthly Declaration form
 - **Form 5:** Half Yearly Return of ESI Contributions
 - **Form 6:** Half Yearly Employee Register

Professional Tax (PT)

- ❑ Provides automated computation and deduction of Professional Tax based on user-defined Slab rates
- ❑ Provides predefined PT payment process to expedite voucher entry and accurate payment of Professional Tax
- ❑ Generates following PT Reports:
 - **PT Computation Report:** Print reports with Slab-wise details of Professional Tax by the Employer
 - **PT Statement:** Print monthly reports with Employee wise details of Professional Tax

Payroll Processes

The following pre-defined payroll processes have been provided to automate different functions in Payroll:

- **Salary Process** – Automates the Computation of Salary
- **PF Process** – Automates the Computation of Employer PF Contribution
- **ESI Process** – Automates the Computation of Employer ESI Contribution
- **Salary Payment** – Automates the Payment of Salary
- **PF Challan** – Automates the Payment of PF
- **ESI Challan** – Automates the Payment of ESI
- **Professional Tax Payment** – Automates the Payment of PT

1.10 Excise for Manufacturers

Tally.ERP 9 provides a complete solution for Excise related Business requirements for versatile industries. Salient features of Excise in Tally.ERP 9 are:

- ❑ The new Excise module allows you to maintain the required **Central Excise** records for multiple excise units of **Traders /Manufactures** in a single company.

- ❑ Excise module handles **Ad valorem, Ad Quantum, MRP** based **Valuation Method** for **Excise Duty** calculation, and also **Expenses / Income** can be apportioned for calculation of assessable value either by Value or by Quantity. Additional Expenses / Income can be apportioned for calculation of assessable value, both by **Value** or by **Quantity**.
- ❑ The user can maintain a **Single Excise invoice book** for all purposes of removals as per the requirement of **Rule 11** and an option is provided to maintain the multiple Excise invoice book for a given Excise unit, the Serial number of Excise book will be generated as running series & with a check for duplicate numbers.
- ❑ The **Excise Duty types** & it's **Calculation Method** are Pre-defined for error free calculation.
- ❑ Items can be classified as per tariff (**CETSH/HSN**) number, and to support error free calculation duty types and calculation methods can be pre-defined with options provided to manage excise duty for **Exempt** and **Special Rates**.
- ❑ An option is provided to avail CENVAT Credit during purchase entry or avail partial/full credit in a separate entry. Input Service Tax can also be taken as input credit towards Excise duty payable.

Excise Manufacturing Reports in Tally.ERP 9

- **Personal Ledger Account (P.L.A.):** This is to be submitted on a monthly basis with the details of Excise duty payments and payable.
- **ER1:** Monthly return for production and removal of Goods and other relevant particulars
- G.A.R.-7: Proforma for Central Excise duty payments
- **CENVAT** Credit on / Capital Goods Availed / Utilized Account: Details of CENVAT Credit availed and utilized for capital goods.
- Record of CENVAT Credit Allowable on Capital Goods (**RG23 C Part II**)
- Quantitative Account of Capital Goods on which CENVAT Credit Availed (**RG23 C**)
- **CENVAT** Credit on Inputs availed / Utilised Account
- Records of CENVAT Credit Allowable on Inputs (**RG23 A PartII**)
- Quantitative Account of Inputs on which CENVAT Credit Availed (**RG23 A**)
- **Rule 11** Invoice: The Excise invoice can be generated as per Rule 11 requirements.
- **Daily Stock Account (RG 1 Register):** Provides **RG1** Register as prescribed the excise dept. for daily entry of production and removals.
- **Statutory Sales Register:** provides complete details of Excise sales of finished goods.

1.11 Auditors' Edition of Tally.ERP 9

Tally.ERP 9 offers a special Gold Auditors' Edition, which provides Audit and Compliance capabilities exclusively for Chartered Accountants. The current release provides the following tools:

- ❑ Tax Audit
- ❑ Statutory Compliance

Using Tally.ERP 9, Chartered Accountants can provide Audit and Compliance services to their clients in the following scenarios:

Audit at CA's office by accessing local data

The Auditors' Edition includes the Audit/Compliance capabilities as a default feature without any dependency on Tally.NET for Authentication. When the Client's data is locally available at CA's office, the Auditor can perform the Audit or Verification as the **Tax Audit** and **Statutory Compliance** features are available by default.

Audit at Client's place by accessing local data

When the Auditor wants to use the Auditors' License from Clients Office to provide the Audit or Compliance Service, the Internet Connection and Tally.NET subscription is required. The Client should have authorized the Chartered Accountant as Tally.NET Auditor for the Company. In this scenario, Tally.NET is used to Authenticate the Auditor and fetch the Auditors' License on the Client's Tally.ERP 9. The Auditor can then open the Company and perform Audit or Verification in the same way as it is done in the Auditor's office with Local data using the Auditor's License.

In this scenario, the Auditor should have a valid Tally.NET subscription to perform Audit.

Audit Remotely by accessing Client's data from anywhere

When the Auditor wants to access the Client's Data Remotely and provide Audit and Compliance services from his office (or from any other remote location), the internet connection and valid Tally.NET subscription is a must for both Auditor and Client. The Client should have authorized the Chartered Accountant as Tally.NET Auditor and Connect the Company to Tally.NET at the time of Audit/Verification process. The Auditor will **Login as Remote User** and provide the Auditor's **Username** and **Password** to view the Companies that are available for Audit (Connected) belonging to various Client's based on the Access provided. The Auditor can open the required Company to perform the Audit/Verification and save the **Audit/Verification** Notes.

The user experience essentially remains the same in all the three scenarios.

Fig.5 Remote User Services-Auditor

Tax Audit

The Tax Audit feature in Tally.ERP 9 enables the auditor to compile information in comparatively less time with required accuracy to form his opinion and print Annexures as required for Tax Audit under **Section 44AB**. The following Clauses are available with respect to Form 3CD:

1. Bonus PF, ESI Recoveries (**Clause 16**)
2. Amounts inadmissible u/s 40A(3) (**Clause 17(h)**)
3. Payments u/s 43B (**Clause 21**)
 - Employer's Contribution
 - Tax Collected at Source
 - Service Tax
 - Value Added Tax
4. Loans / Deposits Accepted (**Clause 24(a)**)
5. Loans / Deposits Repaid (**Clause 24(b)**)
6. Fringe Benefits Tax (**Annexure II**)

Statutory Compliance

Statutory Compliance is a comprehensive tool available with Auditors' Edition to provide Compliance services for the following Direct and Indirect Tax modules available in Tally.ERP 9.

- **Value Added Tax (VAT)**
- **Service Tax**
- **Fringe Benefit Tax (FBT)**
- **Tax Collected at Source (TCS)**

The salient features for Statutory and Compliances are:

- Taxation based in-built rules to classify the Masters and Vouchers as Possibly Incorrect (not created as per the recommended setup for each Taxation)
- Reasons for Possibly Incorrect Masters and Vouchers
- Auditor can concentrate only on Possibly Incorrect and save time
- No need for 100% verification of Masters and Vouchers (for other than Possibly Incorrect)
- Taxation based Payable & Paid information
- Taxation based Due Dates
- Random verification of In Accordance Masters and Vouchers
- Provision to raise Clarification on Master and Vouchers from Clients
- Provides facility to record Verification Remarks using Verification Note

2. Major Enhancements

Some of the major functionality changes in Tally.ERP 9 include,

- TDS Compliance

- Data Synchronization
- Size and Performance
- FBT

2.1 Tax Deducted at Source (TDS)

The TDS feature in Tally.ERP 9 has been revamped to handle all the functional, accounting and statutory requirements of your business in an accurate and simplified manner. The new/enhanced TDS features are:

- Option provided to the user to deduct the TDS at the time booking the Expense itself.
- The user can deduct the TDS in a single Voucher at the end of the month for all TDS related Expenses/ Advance Payments booked during a particular month.
- Provides an option to have a single Expense Ledger for multiple Nature of Payments. This will reduce the need to create Nature of Payments wise separate Ledgers.
- The user can have a single TDS Duty Ledger for multiple Nature of Payments. This will reduce the need to create multiple Duty Ledgers.
- Both TDS related and non-TDS related Expenses can be booked in a single Voucher. You can also deduct the TDS at the time of Voucher entry or later.
- Handling TDS for **Non-Residents (Sec.195)** Payments
- Tally.ERP 9 handles TDS deductions where payment to the contractor or the sub-contractor exceeds Rs.20, 000 in a single payment or Rs. 50,000 in aggregate during a financial year as prescribed under section **194C**
- **Surcharge Retrospective Calculation** – Once the Surcharge Exemption Limit exceeds for a particular Nature of Payment for a Particular Vendor, the Surcharge will be calculated for the previous payments also.
- Facility to **Print (Hard Copy)** and **Export Form 26, 26Q** & related **Annexures**, Form **27, 27Q** & related **Annexures** and **Form 16A**
- Provides the option to configure the **Lower / Zero rate, Ignore IT / Surcharge Exemption Limit** in the Party Creation screen. This will facilitate faster data entry as the user need not remember the party TDS details at the time of Voucher entry.

TDS related Reports in Tally.ERP 9:

- **TDS Computation Report** - This report will help the user to manage the TDS deductions.
- **TDS Challan (ITNS 281)** printing – Monthly challan based on the TDS sections.
- **TDS Outstanding Reports** – Displays the details of the TDS Outstanding for the selected period. This can be filtered based on:
 1. TDS Payable
 2. Nature of Payment wise
 3. Party wise
- **TDS Exception Reports** – This report will display the details of the vendor which are not having the required details for **e-TDS** filing (There are certain pre-defined fields to captured and validated before e-TDS filing). e.g. TDS parties not having PAN details.
- **Form 16A** – TDS Certificate to be provided to the vendors either at the time of Payment or at the end the year (Annually).
- **Form 26 & Annexure** – Annual returns of TDS deducted and paid.

- **Form 26Q & Annexure** – Quarterly returns of TDS deducted and paid.
- **Form 27 & Annexure** - Annual returns for **Non-Residents** for TDS deducted and paid.
- **Form 27Q & Annexure** - Quarterly returns for **Non-Residents** for TDS deducted and paid.
- **e-TDS** – Generates the required file for filing the TDS returns electronically.
- **Form 27A** – Covering Letter for **e-TDS** returns.

2.2 Data Synchronization Changes

Using Direct – Client and Server Capability

Direct- Client and Server capability for Synchronization through a private network will be incorporated as a default feature of Tally.ERP 9 Series A release 1.0 onwards.

Using Tally.NET Server

The process of Data Synchronization using TallyLink Server has been changed in Tally.ERP 9. Going forward Synchronization will be available as a service through the Tally.NET Framework. The user will be able to use **Tally.ERP 9 Silver (SU)** at both the ends to Synchronize data.

To use this service the Tally Server Company has to be Connected to Tally.NET server at the time of Synchronization.

Note: Tally.NET Server (TNS) will be used for Synchronization instead of TRB Server.

In **Sync Configuration**, under TallyLink Configuration, the options "**Use Tally Link**" & "**Connect to Tally Link Server**" have been removed.

2.3 Size and Performance changes

Automatic caching based on system memory

Report generation involving large amount of data was always impeded by the problem of high memory usage. In Tally.ERP 9, a new feature has been introduced to overcome this hurdle. The application now uses an automatic caching based on the memory of the system it is running on. This results in the usage of lesser memory even with higher data volumes.

Reports which were running out of memory or consuming a large amount of virtual memory on a 2GB system, will now respond even on a 1GB system. This can be observed by generating a report, say a day book containing 50,000 to 100,000 vouchers on a 512MB machine using the last major release as well as this release.

Faster Data Entry

The data entry speed has been considerably increased in scenarios where there are a large number of 'Tracking numbers' and 'list of pending orders'. In other words, the time taken to make a single entry has been reduced due to the faster retrieval and display of tables for selection of tracking numbers and pending orders.

Application size reduction by three-fourth

A faster, powerful and a SMALLER Tally.ERP 9 application! The application has been redesigned to drastically reduce its size. The “exe” file of the application has been reduced to approximately three-fourth the size of earlier versions. To be more precise, it has been reduced from 10.7 MB to 1.96 MB. This will result in faster installation, loading, and opening of the application, thereby enhancing the overall user experience.

DATA SIZE Reduction

The data size for Tally.ERP 9 has been effectively reduced to 40%. This will help in enhancing the overall performance of the application.

Note: Data rewrite is mandatory in this release.

Performance

- **GST Analysis Report** - Performance of GST Analysis Report (Singapore) for a specific period has improved compared to Tally 7.2 and Tally 9 (earlier releases)
- **Bank Reconciliation Statement**- Performance of Bank Reconciliation statement for a specific period has improved compared to earlier releases of Tally 9.
- **Memory and performance** is Optimized for long reports like daybook based on vouchers.

2.4 Fringe Benefits Tax

The following enhancements are made in the Fringe Benefits Tax feature of Tally.ERP 9:

- FBT Annual Returns in Form ITR 8 along with FB I schedule displaying the details of computation of Fringe Benefits & Fringe Benefits Tax is available
- **Exemption Amount** field is provided for **FBT transactions** to capture exemption amount and to accurately calculate the FBT on the assessable value.
- **F12: Configuration** option in **FBT Computation** allows you to view FBT, Surcharge, Education Cess and Secondary Education Cess details in Separate columns, by enabling **Show Tax Details**.

3. TDL Enhancements for Tally.ERP 9

In Tally.ERP 9, major changes have been provided by the platform to enhance the TDL capabilities which helps the programmer to develop and deploy quick and efficient solutions with ease. Major improvements have taken place in terms of language usage standardisation and performance improvements.

Breakthrough enhancements at the Collection level to provide capabilities of Remoting and Advanced Reporting. Collection is now a complete Data Processing Artefact in TDL.

Let us now have an overview of the major enhancements that have taken place in the areas mentioned below. A detailed documentation for each of these enhancements is available in our document "TDL Enhancements for Tally.ERP 9". This document along with corresponding Sample TDL's can be downloaded from our website.

For detailed documentation refer to [TDL Enhancements for Tally.ERP 9](#).

3.1 Attributes and Modifier Enhancements

Based on user requirements and analysis many new attributes have been introduced. These have impacted the programmer in a way that has reduced their deployment time to cater to functional requirements. Some of the new usage have improved the performance drastically.

The behaviour and syntax of many attributes and modifiers have been changed to maintain consistency and ease of code. The sequence of evaluation of attributes and modifiers have been standardised.

Mentioned below is the complete set of new Attributes and Modifiers

- Report Attribute – Full Screen
- Key attributes – Scope
- Part attribute – Retain Focus
- Field attributes - Tool Tip, Set By Condition
- Collection Attribute – Subtitle
- New Modifier- Switch

Mentioned below is the list of existing attributes and modifiers for which the behaviour has been changed

- Attribute Set As and Info – When both are specified, Info takes Precedence
- Enhanced syntax of Local - Now can be nested
- Format Attribute
- Attribute Sync
- The sequence of evaluation of Attributes and Modifiers
- Modifier-Use
- Standardization of Modifiers Add/Delete/Replace across definitions

3.2 Enhanced Special Symbols

New special symbols have been introduced to take care of Multiline commenting(/* */), reinitializing definitions(*). The existing system formulas can now be modified for optimized performance using the extended behaviour of '#'

3.3 New Method Formula Syntax with Relative Object Specification

The \$ operator has been enhanced with a new capabilities. This allows direct access to any object method including its sub-collections to any level with a dotted notation framework. Using the new capability, there is no need to repeat a line over a sub-collection to access it. The values from any object anywhere can be accessed without making the object as the current object in context.

3.4 Enhancements-Object Association & Object Access via Interface Object

In TDL, Interface Object exists in context of any data object. Every Interface object needs to be associated with some data object. In the absence of any explicit object association, Interface object will get associated with Anonymous object. TDL programmer can explicitly associate Interface objects like Report, Part, Line and Field with data object. There have been changes either in the form of syntax improvements or with the introduction of new attributes like "Object Ex" at the part level.

From this release onwards, data objects in associated with Interface objects can be accessed using the new Interface object access syntax. Now it is possible to identify an Interface object using Access Name and then use the enhanced method formula syntax to access the Data Object associated with it.

Data object which is associated to Interface Object can be accessed with the following 2 step procedure.

1. Identifying Part and Line Interface object with 'Access Name'
2. Value/Collection Extraction

3.5 Bracket Support in Language Syntax

Prior to this release, the usage of TDL language token bracket ('(' and ')') was restricted as mathematical operator only. From this release onwards brackets can be used in the following scenarios.

1. During the function call to enclose the function parameter.
2. In the language syntax for nesting formulas.
3. As a Mathematical Operator

3.6 Action Enhancements

Key action is enhanced to perform various operations on multiple lines. Multiline selection capability is possible with the help of two attributes Scope(Key definition) and Selectable (Part and Line definition).

Some New and Changed Actions are mentioned below:

New Actions

- Modify Object
- Set Object Values
- Browse URL
- HTTP Post

Enhanced Actions

- Print
- Mail
- Export
- Upload

3.7 User Defined Functions in TDL

This is one of the breakthrough changes which has taken place at the platform level. We all know that TDL is a definition language which provides capability for rapid development. But now TDL is procedural as well. With the introduction of Functions/Procedures as a part of Tally.ERP 9 family the TDL capabilities have reached a new dimension.

This will help the application programmers to develop their own functions for achieving business functionality. There will be a decrease in platform dependency for particular business function. The resultant would be faster development cycles for business modules.

For detailed documentation, refer to [User Defined Functions for Tally.ERP 9](#).

3.8 Collection Enhancements

Collection, the data processing artefact of TDL provides extensive capabilities to gather data not only from Tally database but also from external sources using ODBC, DLLs, and HTTP and so on. A set of new capabilities have been added to Collection which provides far more flexibility and power in the hands of the TDL programmer. This will allow writing significantly complex reports with ease and still delivering enhanced performance with high volume of data.

The following are the capabilities which have been achieved using new collection enhancements.

Aggregation & Summarization

A major technological advancement in this release of Tally.ERP 9 is "Data Roll up in TDL Collection – GROUP BY". This will now facilitate the creation of large summary tables of aggregations in a single shot using the new attributes of the Collection description. This allows us to Walk down the object hierarchies and gathers values and summarizes them in one scan. Overall it reduces the TDL code complexity, resource requirement and increases performance drastically in case of reports generated using this new capability.

Collection re-use, extraction and chaining

A collection can extract information from other collections including its sub-objects with the choice of method(s), filter(s) and sort-order. Source Collection within a collection, collection(s) can be chained. In other words, Summary Collection can be used as Source Collection for some other Collection and so on.

Indexed or Searchable Collection on TDL defined keys

The capabilities discussed above extend the data gathering capabilities of TDL. However business reporting in general and in Tally uses hierarchical presentation or columnar presentation rather than simple table representation. If Report is having two or more dimensions like Ledger and Cost Centre and so on, a simple repeat on the summarized collection will not suffice. In order to improve performance indexing capability has been introduced which will work with a key combination.

Usage as Tables

TDL allows to display the values obtained from the collection as a pop-up table. Earlier the values of voucher and the ODBC data can't be displayed as a collection. Now all limitations pertaining to usage of Collections as Tables have been completely eliminated. Any collection which can be created in TDL can be displayed as a table now. Collection with aggregation and XML Collections can also be used as Tables.

Integration Capabilities using HTTP XML Collection

Collection capability has been enhanced to gather live data from HTTP/web-service delivering XML. The entire XML is automatically now converted to TDL objects and is available natively in TDL reports as \$ based methods. Reports can be shown live from an HTTP server. The attributes in collection for gathering XML based data from a remote server over HTTP are RemoteURL, RemoteRequest, XMLObjectPath, and XMLObject.

Dynamic Object support for HTTP-XML Information Interchange

When a collection is used for editing (alter/create), objects are dynamically added to the collection when a new line is repeated over the same. The type of object which is added depends on the specification in the TYPE attribute. In case the TYPE attribute is not specified it defaults to adding a standard empty object.

However the following holds true for a COLLECTION keeping in mind the latest enhancements

- It can be made up of multiple types of objects (say Ledgers and Groups)
- It can have TDL defined objects which are retrieved from XML file. They are specified using XML Object.
- It can have aggregated objects

Depending solely on the TYPE attribute for deciding the object type is a constraint with respect to the above facts. This is now being removed with the introduction of a new attribute which will independently govern the type of object to be added to the collection on-the-fly. A new attribute NEW OBJECT is now supported for collection

Collection Capabilities for Remoting

Enabling access to your organizational data in an 'any-time, any-where' and yet being truly usable is what Tally.ERP 9 delivers. With Tally.NET enabled remote access, it will be possible for any authorized user to access Tally.ERP 9 from anywhere.

Major Enhancements have taken place at the collection level to achieve remoting capabilities. The attributes Fetch, Compute and AggrCompute provided at the collection level and FetchObject and FetchCollection at the report level significantly help in above functionality.

For detailed documentation, refer to [Writing Remote Compliant TDL for Tally.ERP 9](#).

4. Minor Enhancements

Accounting Masters

- ❑ In the **Group Creation /Alteration** screen, the option **No Appropriation** has been removed as it had the same behaviour of Not Applicable.
- ❑ On disabling **TDS / TCS**, in the Ledger Alteration, Tally.ERP does allow the manual selection of State.
- ❑ The field **Rounding Method** is provided in **Ledger masters** grouped under **Duties & Taxes, Direct Expenses, Indirect Expenses, Direct Income, Indirect Income, Current Asset, Current Liability, Sales Accounts, Purchase Accounts** and **Primary Group** in Purchase/Sales Invoice mode only.

Accounting Reports

- ❑ **F8: Other Report** option is disabled in Statistics and Group Payment Performance under Group Summary.

Accounting Vouchers

- ❑ In sales invoice, the **Company's/Buyer's Tax Registration numbers** will be printed in the order given below:
 1. Company's VAT TIN
 2. Company's CST No.
 3. Company's Service Tax No.
 4. Buyer's VAT TIN/Sales Tax No.
 5. Buyer's Service Tax No.
- ❑ The Option '**Show Ledger Current Balances**' in **F12: Voucher Configuration** is now applicable for Ledgers in Invoice Format. If this field is set to **NO**, the Current Balance of ledgers will not be displayed in the invoices.
- ❑ A Purchase order entered in a company with **GST Registration number** can be exported using **Excel (Spreadsheet)** or **HTML** format.
- ❑ Application supports the printing of **Inventory Details** for **Debit Note, Credit Note, Payment, Receipt** and **Journal** entered in voucher mode, by enabling the option Print Inventory Details in **F12: Print Configuration**.
- ❑ A Facility to **print** the **serial number for each item** in the **Sales Invoice** has been provided.
- ❑ An option has been provided to print the **system date and time** in all the reports including the Invoice.

Company Master

- ❑ Enhanced **Company Creation Master** with user friendly interface is provided.
- ❑ The **F12 Configuration** options are modified for all the masters. The **F12: Configuration** screen will now display only relevant configurations depending upon the selected Master/Voucher/Feature.

- ❑ A new option **Disallow Opening in Educational Mode** is provided in the **Company Creation/Alteration** mode as an additional scattier control measure to prevent the users from opening the particular Company in Educational Tally.ERP 9. This will appear only if the Security Control feature is enabled.
- ❑ This feature will help to ensure that the unauthorised users does not open and view/alter/delete the Company data from Educational version of Tally.ERP 9. The users will be restricted to open the data without the Account TDL's being loaded (which may have certain restrictions) in Educational Mode.

Cost Categories/Cost Centres

- ❑ **Cost Centres** will appear along with **Cost Centre Class** in all Vouchers.

CST

- ❑ In **CST Forms Issueable / Receivable** report, **F12: Configure** option is provided to sort details of Party in an alphabetical order.

Email

- ❑ **SSL Interfaces** are provided to enable the user to **E-mail** the required information from Tally.ERP 9 to **external Mail servers**. e.g. now you can use Gmail service to send e-mail through Tally.ERP 9.

Excise for Dealers

- ❑ In Excise Sales Invoice, Supplier Details for Stock item displays **Rate of Basic Excise Duty** and **Excise Duty Per Unit** along with **supplier details and quantity purchased** in the **List of Purchases** table.
- ❑ A separate column has been provided to display the **Special Additional Duty** in the printed format of **Excise Purchase Invoice**.
- ❑ In **Gujarat Excise Sales invoice**, a separate column has been added to display the **HSN Code**.
- ❑ In an **Excise Purchase Invoice**, an option has been provided to create a ledger under **Manufacturer/Importer Details** section in **Supplementary Details** screen.
- ❑ Configuration **Use Excise Format** in **F12: Configuration** is displayed only on enabling the option **Allow Excise rules for Invoicing** in **F11: Features**.

Fringe Benefits Tax

- ❑ Verification Details is provided in the FBT Print Configuration screen for FBT Returns to capture the **Designation, Date** and **Place** details.

Final Accounts

- ❑ If the option **Income/Expense Statement instead of P & L** is enabled in **F11: Accounting Features**, then in Income and Expenses A/c report, **F12: Configure** displays **Show Vertical Income & Expense Stmt.** instead of Show Vertical Profit & Loss.
- ❑ In **Statistics** report, a facility has been provided to sort the voucher types using the **configuration Sort by Parent Voucher Type**.

Installation

- ❑ The language support for **Bahasa Indonesia** and **Bahasa Melayu** has been provided for Windows 98 & Windows NT operating system also.

Inventory Masters

- ❑ In the **Stock Group** and **Stock Item** creation and alteration screen, a **minimum width of 30 characters** is provided to ensure visibility of names entered.

Inventory Vouchers

- ❑ The option "**Show using Alternate Units**" is provided in **F12: configure** of Stock Vouchers screen to display the alternate unit details for stock items.

Job Costing

- ❑ In Material Consumption Stock Summary report, **Alt+C** – New column will now display the details of all the **Godowns**, related to a particular Job/Project instead of other Job/Project (Cost Centre) details.

Licensing

- ❑ A **Confirmation message** is displayed when the user opts to surrender the licensed version of Tally.ERP 9.
- ❑ In the **process of activating license**, an hourglass will be displayed as an indicator to show the progress of activation.

Multi-currency

- ❑ **Bank Reconciliation** displays the accurate Closing Balance of Transacted Currency as per Company Books and Actual Balance, when "**Show Forex Transactions only**" is activated in **F12: Configure**.

Payroll & Statutory

- ❑ The **Payslip** when emailed in **HTML format** contains the Company Name and Address.
- ❑ In the **Pay Head Master**, an option has been provided to **round off the Gratuity amount**.
- ❑ The Option '**Show Zero Value Payslips Also**' is provided in **Multi Payslip Printing** to print the Blank Payslips.
- ❑ In **Paysheet**, the **Grand Total of Attendance** is displayed and the user can drill down to Attendance Voucher from Attendance details.
- ❑ **Position Index** for Reports of the **Employee** is set **as Default** Sorting Method for all the Payroll Reports, in addition Alphabetical (increasing) and Alphabetical (decreasing) options are added to the Sorting Methods list of Pay Sheet Configuration.
- ❑ Tally.ERP 9 now allows the user to group the (**Income Tax**) **TDS Pay Head** under **Duties & Taxes** and **Salary Payable** Pay Head under **Provisions**
- ❑ The option **Show new joiners only** has been renamed as **Show zero valued Employees** also in **F12: Configuration** of Gratuity Report.
- ❑ In **Pay sheet** report the option "**Display Attendance/Production Types in Tail Units?**" is provided under **F12: Configure**.

- ❑ New Pay Head Type **Bonus** has been provided in the Pay Head masters creation.
- ❑ In **International Version** of **Tally Gratuity Report** Option has been provided in Payroll Reports Menu.
- ❑ The **Payroll Info.** menu order has been changed as shown below:
 - Employee Groups
 - Employees
 - Units (Work)
 - Attendance/Production Types
 - Pay Heads
 - Salary Details
 - Voucher Types
- ❑ The shortcut key for Payroll Reports (payroll statutory reports) under Statutory Reports has been changed from **A** to **P**.
- ❑ The option **Payroll Configuration** will be available by default in the **F12: Configurations** screen, whether the Company is selected or not.
- ❑ Professional Tax Pay Head can now be created with **Calculation Period** as both **Month** and **Period**. This will support the Professional Tax Computation either monthly or Periodically(**Half Yearly**) as required by some of the states (e.g. Tamil Nadu).

POS

- ❑ **Party Details** can now be entered and Printed in the **POS Invoice**.

Printing

- ❑ The Option "**Print Narration for Each Entry**" is provided in **F12: Invoice printing Configuration** to print narration for each entry in **Purchase or Sales voucher**.
- ❑ The Option "**Print Narration**" is provided in **F12: Configure** (Physical Stock Printing Setup) to print Narration in Physical Stock Voucher. The same facility is provided to print Stock Journal Voucher.
- ❑ Print Configuration is provided for **Rejections In** and **Rejections Out** Voucher Types.
- ❑ The **Title** provided in **Print configuration** screen of Payment/Receipt/ Journal/Debit Note/ Credit Note voucher is changed from **Printing Setup** to **Printing Configuration**.

Reports

- ❑ **Alt + Enter** key has been provided for Remote as well as Local users, to facilitate to drill down to voucher level in **Display** mode
- ❑ **Ctrl + Enter** key has been provided for Remote as well as Local users, to facilitate to drill down to voucher level in **Alteration** mode

Security Control

- ❑ A warning message "**Forgetting your password will render your data unusable!!**" will be displayed when the user is setting or changing the Admin User Name and/or Password in Company Creation/alteration screen.

Service Tax

- ❑ In **Sales Register columnar** report, a separate column has been provided for displaying the **Service Tax Registration number**.
- ❑ In **Service Tax Payables** report, **F4: Category button** has been added to filter the services provided, based on the service category.
- ❑ According to the new notification the "**Focal Bank Details**" has been withdrawn from Company F11: Statutory and Taxation under Company Service Tax Details.
- ❑ Options have been provided to **Display/Alter the Exemption Notification Number** in item invoice.
- ❑ In service tax payment voucher, **cheques/Draft/Pay order No** and **Bank Name** fields are provided under '**Payment Details**' sub screen in '**Provide details**' field.
- ❑ Option to enter **Challan No.** and **Challan Date** is provided under Payment Details in Service Tax GAR 7 Payment Voucher, which will get printed in **ST3 Form**.
- ❑ **Cost centre allocation** has been provided for **Service Tax ledgers** created under Duties and Taxes while recording Sales Vouchers.
- ❑ The Service Tax Invoice captures **Company's PAN Number** after **Buyer's Service Tax Number**.

VAT

- ❑ In the voucher class screen of sales voucher type, the Calculation Methods **Additional Tax and Cess on VAT** can be selected only if the VAT Classification is selected in the respective sales ledger.
- ❑ When a Company opts for **Composition to Regular VAT** and tries to pass a purchase entry during composition period, in Purchase Accounting Allocation Screen **VAT/TAX Class** displays **Composition VAT Classifications** for selection.
- ❑ When a **MRP Stock Items Invoice** is printed with **VAT Analysis**, total MRP Assessable Value is displayed as Net Value under VAT analysis
- ❑ **Payment Details** are now supported for Haryana VAT Forms and CST Form.
- ❑ **Payment Details** are now supported for Himachal Pradesh VAT Forms and CST Form.

5. Issues Resolved

Accounting Masters

- ❑ **Opening Balance Bill Details** in the ledger master are neither being updated nor erased when the Opening Balance is altered in the ledger.

This issue has been resolved.

Accounting Reports

- ❑ On selecting **Budget Variance** and then selecting any particular month in **Stock Item Monthly Summary**, the error message Memory Access violation is being displayed.

This issue has been resolved.

- ❑ In **Purchase/Sales Voucher Register** report, where the sort option is selected as **Amount-wise (Decreasing)** and **Amount-wise (Increasing)**, the amount as per the selected method is not being displayed.

This issue has been resolved.

- ❑ In case of a journal entry consisting of a sundry creditor ledger, the **Day Book Extract** report of Journal voucher is not displaying **Sundry Creditors** under **Current Liabilities**.

This issue has been resolved.

- ❑ The **Post Dated vouchers** report displays regular vouchers along with post dated vouchers when the report period was changed.

This issue has been resolved.

- ❑ **Date range** is not refreshing while viewing **Outstanding Report** from the Ledger Report.

This Issue has been resolved.

- ❑ A **credit note** entry made in **voucher mode**, is displaying the invoice format without Party name when printed from Multi Voucher Printing option. The same entry when made in invoice mode, displays the invoice format with party name when printed from Multi Voucher Printing.

This issue has been resolved. The credit note entry made both in voucher and invoice mode, when printed from Multi Voucher Printing option is displaying the Party name.

- ❑ In case of **multi year data**, date range provided for previous year in ledger outstanding report from respective Ledger account is not being displayed as per the specified date range.

This issue has been resolved.

- ❑ On pressing **Enter** on the **exploded line of Group Vouchers**; it would display Forex Gain / Loss Statement as the report heading.

This issue is resolved and it does not allow to drill down.

- ❑ In the **Outstanding Ledger Report**, when **Show Bills of following type** is set to **Debit Bills** in **F12: Configure**, both credit and debit bills are displayed in the report.

This issue has been resolved and only Debit Bill are displayed when Show Bills of following type is set to Debit Bills in F12: Configure.

Accounting Vouchers

- ❑ In sales invoice, if one **VAT ledger** is selected and then changed to another VAT ledger before saving the entry, the percentage and amount are not being refreshed.
This issue has been resolved and the VAT Percentage and amount are now being calculated on the basis of the reselected VAT ledger.
- ❑ A **voucher class** consisting of **multiple excise duty ledgers** with Type of Calculation based **On Item Rate** calculates the amount of duty on the item for all excise ledgers included in the voucher class and displays it in the Excise Sales Invoice.
This issue has been resolved. The calculation of excise duty on an item is now being displayed only for the relevant excise ledger.
- ❑ On activating **Use Additional Description(s) for Ledger Name** in Invoice Configuration, the Description of Ledger screen is not being displayed for **Accounts only** companies.
This issue has been resolved. The Description of Ledger screen is now being displayed even for Accounts only companies.
- ❑ When the same **Bank Ledger** is selected for both **Cheque** and **Card Payment** fields in **POS Invoice entry**, the amount displayed in both the fields was the same, when opened in alteration mode.
This issue has been resolved.
- ❑ On **changing the invoice date** in a Sales Invoice entered with voucher class having discount ledger and method of calculation set to **As User Defined Value**, in the alteration mode, the percentage entered is not being displayed.
This issue has been resolved.
- ❑ In a **Sales / Purchase Invoice** containing two different **VAT sales/ purchase ledger**, the sales/purchase figure of an item is modified either by changing the rate, quantity or the sales/purchase amount directly. After this modification, the sales/purchase value is not being picked up automatically in the "Assessable Value" field.
This issue has been resolved.
- ❑ When a **single excise stock item** is accounted in a sales voucher with the **Voucher Class** containing **Multiple Excise Ledgers with different Rates** (Grouped under Duties & Taxes) and Type of calculation as Tax based on Item Rate, the Excise amount is being calculated for all the Excise Ledgers.
This issue has been resolved.
- ❑ When a voucher is recorded with the selection of **Voucher class** having Excise duty ledgers set to **calculate the Excise on Current Sub Total** and the option **Calculate Tax on current Sub-Total** is activated in **F12: Configure**, the Excise amount is calculated based on the Current Subtotal. But, if the same voucher is altered by deactivating the option **Calculate Tax on current Sub-Total**, the Excise amount is calculated based on the Item Rate and not on the current sub-total.
This issue has been Resolved and now the excise amount is calculated correctly.

- On creating a POS invoice with different amounts entered in the **Credit/Debit Card Payment** and **Cheque** fields with the same bank ledger in the voucher creation mode and then on opening this invoice in the alteration mode, the same amount is being displayed in both fields. Apart from that, the entries are not being saved in the alteration mode.

This issue has been resolved and the values entered in the above mentioned fields are being retained with the flexibility to save the changes made to the invoice.

- While altering a Sales Invoice, the **VAT/TAX Class** does not appear for the second and subsequent items.

This issue has been resolved and the VAT/TAX class is now displayed for any number of items added to the sales invoice in the alteration mode.

- When the option **Maintain Bill wise Details** is not enabled under **F11: Accounting Features**, a Ledger created under Sundry Debtors or Sundry Creditors Group with Opening Balance allows the mentioning of Bill-wise Break-up for the amount.

This issue has been fixed.

Audit Features

- A voucher accepted during Audit and then deleted displays particulars as **DELETED – Audit Voucher** in **Audit Listing**. On pressing **Enter** to view such a voucher, Ledger Forex Gain/Loss report is being displayed.

This issue has been resolved.

Budgets and Credit limits

- The function **Sales Voucher Registers with Extract** of all vouchers, crashes when Budget Variance is selected.

This issue has been resolved and the Budget variance button has been removed from the Sales Register, Purchase Register, Journal Register under Accounts Books, Bill Outstanding Reports of Sundry Debtors and Creditors, Stock Items, Stock Transfers, Physical Stock Register under Inventory Books and Memorandum Vouchers under Exception Reports, as it is not required.

Cost Categories

- The **Cash Book** is displaying cost centre details only when printed from **Multi Column Cash/Bank** and not from Account Books of Multi Account Printing menu.

This issue has been resolved.

Crash/MAV

- While **Filtering** the Stock Items with Stock Groups from Sales Register, the application crashes with the error message "**Memory Access Violation**".

This issue has been resolved.

- While Printing any report if the Key combination **Alt+U** is pressed instead of **Alt+I** to select the print preview option in the Print Configuration screen, the application crashes with the error message -"**Memory Access Violation**".

This issue has been resolved.

Data/TCP Migration

- On migrating data from **Tally 7.2 to Tally 9**, the order reference number entered in supplementary details of some of the sales invoices are getting changed.

This issue has been resolved and the order reference number entered in every sales invoice is now being retained even after migrating data from Tally 7.2 to Tally.ERP 9.

Excise for Dealers

- When multiple Purchases pertaining to a single Item are adjusted in a **Excise Sales Invoice**, the values of such entries are capturing only the first item in the Excise Stock Register/ Excise Purchase Bill Register.

This issue has been resolved.

- In the detailed format of **Excise Stock Register** and Purchase Bill Register report, the address of the party is not being displayed in the Name and Address of the Party column only for the first entry.

This Issue has been resolved and the address of the party is now being displayed for all entries in the detailed format of Excise Stock Register and Purchase Bill Register.

- Excise Opening Stock** Entry details do not appear in the **Excise Stock Register** and when the sales invoice raised against the opening stock is printed, **Excise Pass on Duty Values** and **Excise Purchase Section Duty Values** do not appear in the **printed Sales invoice**.

This issues have been Resolved

Export/Import

- When **Stock Items** with **Part Numbers** are exported using **Excel (spreadsheet)** format, the Part Numbers are displayed with a negative sign in the Excel sheet.

This issue has been resolved and the part numbers of the stock items are now being displayed correctly in the Excel sheet.

- On exporting any of the Ledger vouchers from Tally to **Excel Spread Sheet**, the Debit/Credit Balances are interchanged (Debit balance is shown as credit and the credit balance is shown as debit) in Excel.

This issue has been resolved.

- When Vouchers without **Effective Date** are imported in **SDF format**, the application displays the error message crashes with error message **Memory Access Violation**.

This issue has been resolved and vouchers can now be imported even when the effective date is not mentioned in the voucher.

- When Ledgers are exported in **ASCII format** from **Multi Account Printing** as Group of Accounts by enabling the option **Start fresh page for each Account** in **Print Configuration** screen, the exported text file displays the group ledger which was debited even in the Credit field.

This issue has been resolved.

- ❑ When the **Bank Reconciliation Statement** is exported using **Excel Format**, the details are not being displayed in the appropriate columns and the **Balance as per Bank and Company Books** is being displayed twice.

This issue has been resolved.

- ❑ **Compound Units** are not getting exported to **Excel**.

This issue has been resolved and compound units can now be exported to excel as text and not as a number.

Final Accounts

- ❑ The column heading separator lines do not appear when a new column is inserted in the **Profit and Loss Account**.

This issue has been resolved and the **column heading separator lines** appear in the Profit and Loss Account.

Fringe Benefit Tax

- ❑ **FBT Challan Reconciliation** displays even the **Reconciled Vouchers**, when the option **Show Reconciled vouchers** is not activated in **F12: Configure**.

This issue has been resolved.

- ❑ When a FBT Payment entry is passed without using the FBT helper, the application allows the entry in the **To** field, a date prior to the date mentioned in the **From** field in the FBT Payment Details screen.

This issue has been resolved.

- ❑ On entering only the month in **FBT Filters**, the first day of the month was being displayed as date in both **From Date** and **To Date** fields.

This issue has now been resolved.

- ❑ The **Additional Education Cess @ 1%** applicable only from April 2008, is being calculated and displayed in the FBT Computation report generated for the period 2006-07.

This issue has been resolved and now the **Additional Education Cess @ 1%** is not considered in the **FBT Computation** report of the previous year.

- ❑ While generating the **FBT Computation** report for a financial year, the application hangs if the volume of data is high.

This issue has been resolved and the **FBT Computation** report now displays the details like any other report regardless of data size.

- ❑ In the **FBT Computation** Report, Tax is being calculated even on the **Credit Value of Expenditure** and as a result the Grand Total of Net expenditure amount is being displayed with a negative sign.

This issue has been resolved.

- ❑ **FBT Ledger** created in **FBT Filters sub screen** is not displayed in the List of FBT Ledgers for selection.

This issue has been resolved.

- ❑ The **FBT Payment** entry marked as optional is affecting the **FBT Computation report** as it was being considered as a regular payment entry.

This issue has now been resolved.

- ❑ The value calculated by using **FBT Filters** in Payment voucher was more than the amount displayed in **FBT Computation** report. On restoring the data backup of company **enabled for FBT**, the **Company FBT Assessee Details** were missing in both Statutory & Taxation Features and FBT Challan. On activating the FBT feature, the amount displayed in FBT Challan is more than the amount displayed in the FBT Computation report.

This issue has been resolved. The value displayed in FBT Computation report is captured in FBT Payment voucher on using the auto fill option and the Company FBT Assessee Details are also retained even after restoring the data.

- ❑ **FBT Computation** amount is not matching with the **FBT payment** amount during FBT Payment Entry. It shows a difference of **Rs.1/-**. This happens due to rounding off.

This issue has been resolved.

- ❑ **FBT Computation** report captures and prints the period including the post dated voucher date, when the post dated entry is passed using the ledgers for which FBT option is not enabled.

This issue has been resolved.

Inventory Masters

- ❑ After deleting the components/items used in **Bill of Material (BOM)**, the application has to be reloaded or the item has to be renamed.

This issue has been resolved, and the Components/items can now be deleted without reloading the application or renaming the item.

- ❑ When **Use expiry dates** option is changed from **Yes** to **No** and again to **Yes**, the tag name of **Allow use of expired batches** does not appear.

This issues has been resolved and **Allow use of expired batches** is now displayed when **Use expiry dates** is changed.

- ❑ In the **Stock Ageing Analysis** report **Company Name and Address** is not getting printed from the second page onwards.

This issue has been resolved

Inventory Vouchers

- ❑ The **voucher number of Sales Order** is getting reflected in **Delivery Note**. Hence, the voucher number subsequent to that of sales order is being displayed as the reference number in delivery note.

This issue has been resolved.

- ❑ On printing a sales invoice in simple format with tracking details for more than one Delivery Note, only one delivery note number was being captured and printed.

This issue has been resolved. Multiple delivery note numbers are now being printed in a single sales invoice.
- ❑ In the **stock item allocation** screen of sales order, when **Any** was selected under **godown** for a particular stock item, a warning message **Negative Stock!** is displayed even though there is a closing balance of that item in other godowns.

This issue has been resolved. On selecting **Any** as godown, the warning message **Negative Stock!** is not displayed if there is closing balance of stock items in other godowns.
- ❑ The **reference number** entered in **sales invoice** is not being captured in the **Bill-wise details** screen, if the method of voucher numbering is set to **None** in the sales voucher type alteration screen.

This issue has been resolved.
- ❑ In a **Manufacturing Journal**, for a Stock Item with **Component List details (BOM)** if the **amount** is entered for the Component item without defining the rate, then **Rate** of the **Component** item is not being calculated automatically (Left blank) based on the quantity and amount.

This issue has been resolved and Rate is calculated based on the Quantity and amount specified.
- ❑ When a Stock item, allocated with the amount of **Expenses on purchase** is transferred from one godown to another using Stock Journal, the Rate displayed for the item in Destination Column does not include the expenses on purchase.

This issue has been resolved.
- ❑ When a **Sales Invoice** is printed in **simple format**, **Delivery Note date** is not being printed, even when the details are entered in the invoice dispatch details.

This issue has been resolved and the Delivery Note date is printed in the sales invoice.
- ❑ In a sales invoice, if a reference is provided and if "**Use defaults for bill allocation**" is set to **No** then reference is captured in Bill wise window. If reference is not provided then the voucher number is captured.

This issue has been resolved.
- ❑ The Tracking number used in '**Rejection In**' is not being displayed in **Item Allocation screen of Credit note (As Voucher mode)**.

This issue has been resolved.
- ❑ For a Company in which **VAT** and **Use different Actual & Billed Quantity** features are enabled, "**Calculate MRP on billed quantity**" option is not being saved in **F12: Invoice / Orders Entry configuration** once you quit the application and reopen it.

This issue has been resolved.

- ❑ On making a sales entry by selecting **multiple godowns** in the Inventory allocation screen, a warning message showing wrong negative stock is displayed.
This issue has been resolved and the warning message displays the correct negative stock value.
- ❑ After enabling “**Use Common Table for stock items**” using **CTRL+ALT+F12** from **Gateway of Tally**, quantity was being displayed in “**List of items**” in the following voucher types:
 - **Stock journal**
 - **Rejection in**
 - **Rejection out**
 - **Physical Stock**
 This issue has been resolved and the List of Items is not displayed in the above Voucher types when the option **Use Common table for stock items** is enabled.
- ❑ On taking a printout of the Rejection In voucher, it prints the heading as **Rejection In number** instead of **Order No.**
This issue has been resolved.

Inventory Reports

- ❑ On viewing the stock summary report through **F9: Inventory Reports** from the Ledger Report screen, the closing stock value is displayed as NIL.
This issue has been resolved.

Job Costing

- ❑ In the Job Work Analysis report, the Consumption does not consider the Cost of Sales.
This issue has been resolved.

Licensing

- ❑ **Multi-Account Printing** menu is not being refreshed when the license is activated or surrendered. It takes effect only when the application is restarted.
This issue has been resolved.

Multi-currency

- ❑ In the **Bank Ledger Voucher** report, if a voucher is altered by drilling down from the report, the Opening and Closing Balances of Ledger Voucher report are displayed in the base currency instead of the Foreign currency, if '**Show Forex details also**' and '**Show Forex Transactions only**' are enabled in **F12: Configure**.
This issue has been resolved and on altering a voucher containing foreign currency, opening and closing balances appear in foreign currency only.
- ❑ On **reconciling a bank account** containing **foreign currency transaction**, the Balance is different as per Company Books.
This issue is resolved and now it displays the correct reconciled values.

- ❑ On viewing any ledger account with the **Show Forex Transactions** option set to **"Yes"**, it displays the transacted values in foreign currency but opening and closing balances are displayed in the base currency.

This has been resolved and it now displays the opening and closing balance in foreign currency.

ODBC/Export/Import

- ❑ A **Purchase Invoice** consisting details of **Company's Address** and **E-Mail ID**, when exported in **HTML format** displays the error message '**Part:EXPINV Purchaser**'.

This issue has been resolved. The Purchase Invoice is now being exported in HTML format along with the Company's address & Email-ID.

- ❑ When **Sales Register** is exported in **HTML** or **Excel (Spreadsheet)** format or printed by enabling **Show Columnar Register** with **Type of Column as All Items (in one col.)** the report was being exported/printed in multiple columns.

This issue has been resolved.

- ❑ On exporting Employee masters in **XML format** from **List of Accounts**, all the accounts and payroll masters were also being exported along with employee masters.

This issue has been resolved.

Optional & Scenario management

- ❑ In the **Post Dated Voucher** Report, optional voucher is also being displayed.

This issue has been resolved.

Payroll & Statutory

- ❑ Drill down in **Expat Reports**, displays the repeated information.

This issue has been resolved and the option to drill down from Expat Reports has been removed.

- ❑ The option to drill down from **Attendance Sheet** to **Attendance voucher** is not functioning.
- This issue has been resolved.

- ❑ The **Payment Advice** is displaying the monthly instalment of loan amount recovered from employee's salary, even though it is not included in payment voucher.

This issue has been resolved.

- ❑ In the **Pay Head** creation screen, if the pay head name is entered and then altered, the changed name is not being displayed in the field **Name to appear** in Payslip.

This issue has now been resolved.

- ❑ When the **positive attendance type** is used in the Pay Head, **Payroll was not being calculated for employees who resign before/prior to the date** for which the **attendance voucher** was recorded.

This issue has been resolved.

- ❑ When Payslips are printed through **Multi Payslip Printing** by enabling the option **Remove Zero Entries**, the application still **prints blank payslips** for deactivated/zero entry employees.
This Issue has been resolved and now only the payslips with the entries are printed, when the option **Remove Zero Entries** is enabled in **Multi Payslip Printing**.
- ❑ When you **drill down** from the **attendance value** of the employee in Attendance sheet, Voucher Details are not being displayed in the Attendance Voucher
This issue has been resolved.
- ❑ When the **Employee Voucher** Report is printed, the **title of the report** is getting printed as **Cost Centre** instead of **Employee**.
This issue has been resolved.
- ❑ **Print Configuration** Screen of Multi Payslip Printing is not aligned properly.
The alignment has now been rectified.

POS

- ❑ After recording a POS transaction, the Sales Invoice Printing configuration screen title, is being displayed as '**POS Invoice Printing Configuration**' instead of "**Invoice Printing Configuration**".
This issue has been resolved.
- ❑ In the alteration mode, **List of Ledgers Accounts** is not being displayed, when the cursor is in the Credit/Debit Card payment field in a POS Voucher with a Class.
This issue has been resolved.
- ❑ When the **Rate of Expense** is altered in a **POS voucher with class** in the alteration Mode, the **Amount** is not being calculated properly.
This issue has been resolved.
- ❑ In the alteration mode, when the **Sales Ledger** is changed in a **POS invoice**, the **VAT/Tax Class** is not being refreshed as applicable to the changed sales ledger. In addition to this, on changing the VAT Ledger the VAT Percentage is Not being changed.
This issue has been resolved.
- ❑ The application malfunctions when a POS Invoice with a Class (voucher Class is created with '**Type of Calculation**' set to "**As Total Amount Rounding**" under **Additional Accounting Entries**) is altered.
This issue has been resolved.
- ❑ On creating a **POS Invoice** in multi-payment mode with the same bank ledger selected for **Credit /Debit Card Payment** and **Cheque** fields with different values, and then opening it in the alteration mode, the amount is repeated in the **Credit/Debit Card Payment** and **Cheque** fields.
This issue is resolved and amount name does not get repeated.

Printing

- ❑ Documents are not printed correctly on **HP 1005, 3050 & 2600 N, Samsung ML-4600 Printer** and **Canon LBP 1120** printers.
This issue has been resolved.
- ❑ The report title of a **Credit Note** is being displayed as **Cash Voucher**, when printed from Multi Voucher Printing option of Multi Account Printing menu.
This issue has been resolved and the report titles now display the names of the respective vouchers selected in the Printing Vouchers screen.
- ❑ In **Day Book – Sales Register**, if the **Sorting Method** was set to **Alphabetical (Decreasing/Increasing)**, the vouchers were displayed in the order set, but the same was not being reflected in printed format.
This issue has been resolved.
- ❑ When the **invoice title** is not defined either in the **Sales Voucher Type** or in the **F12: Invoice Print Configuration**, Sales Invoice is printed without title.
This issue has been resolved and now **“Invoice”** is set as **Default Title**, when the title is not defined in the Voucher Type or in the F12: Invoice Printing Configuration.
- ❑ In **Multi Account Printing**, if the ledger is printed as **Group of Account** with **Debit/Credit entries only**, by setting the option **Start fresh page for each Account** to **No**, a blank report is being displayed.
This issue has been resolved.
- ❑ Changes made to **Print Configuration** settings for **Debit Note** are not affecting the print.
This issue has been resolved.
- ❑ While **printing a cheque with a ledger** grouped under **secured/unsecured loans** in the payment voucher, the Ledger name does not get printed on the cheque.
This issue has been resolved.
- ❑ When a credit note is printed by enabling the option **‘Print Quantity Column’** in Print configuration, the **Quantity Column** was not getting printed in the credit note.
This issue has been resolved.
- ❑ While printing the **Confirmation of Accounts** for Sundry Creditors, the purchase Voucher number is getting printed instead of purchase reference details.
This issue has been resolved.
- ❑ While printing the **Group of Accounts** from **Multi Account Printing** with the option **Start fresh page for each Account** set to **No**, the references and inventory details are not printed, even if the options **Show Bill wise Details also** & **Show Inventory Details also** are set to **Yes**.
This issue has been resolved.

- ❑ Heading in the Print Preview of **Rejection In** voucher type is displayed as **Order No** instead of **Rejection In No**.
This issue has been resolved.
- ❑ While printing the **Rejection In/Rejection Out** vouchers, the **Batch Number, Manufacturing Date** and **Expiry Date** is not being printed.
This issue has been resolved.
- ❑ While printing multiple vouchers using **Multi Account Printing**, from page three onwards, the vouchers are carried over to the next page.
This issue has been resolved.
- ❑ When we are printing from **Multi Account Printing > Account Books > Ledger > All Accounts** or **Group of Accounts** and set **Yes** to **Start fresh page for each Account** in the Page Details section, **Page: 1 of 1 is displayed** even though number of Ledgers to print are more than one.
This issue has been resolved.
- ❑ When the Page Range is set to **Odd/Even** or **Front /Back**, user should be able to navigate between the pages. Currently, only 'Home' and 'End' buttons work i.e. user can go only to first page or last page. Page-up, Page-down, and arrow keys are not working in the Print Preview mode.
- ❑ This issue has been resolved.

Rewrite/Backup/Restore/Split

- ❑ On successfully **taking a backup** on a **removable device** it is found that all the files in the removable files drive are deleted.
This issue is now resolved and on successfully taking backup on the removable drive, the Tally backup file gets added to the device.

Service Tax

- ❑ In the process of **Splitting the company data** of two financial years (2006-2008), wherein **Service Tax sale** and **receipt records** are in One financial Year (2006-2007) and The **Service Tax payment** records are in another financial year (2007-2008), Service Tax paid is displayed as Input Credit in the new company split from 1-4-2007.
This issue has been resolved.
- ❑ The **Service Tax amount** is not being captured in the **Bill wise Details** screen while passing a Journal Voucher.
This issue has been resolved and the Service Tax Amount is captured in the bill-wise details screen.

Synchronization

- When the user tries to synchronize the data containing the '<' or '>' symbol specified either in narration or ledger or stock item name field or in any other field, the application displays the **XML tag (< or >)** in the **calculator panel** without terminating the Synchronization process.

This issue has been resolved.

Tax Collected at Source

- When a TCS payment entry is recorded using TCS Helper with the option **Show Bill wise details** in **F12: Configure** enabled, Bill-wise details for **TCS Tax Ledger** displays **TDS Details for** instead of **TCS Details for**.

This issue has been resolved.

- In the alteration screen of **sales invoice**, on **changing the sale value**, the **TCS surcharge amount** is not being changed as per the new gross value.

This issue has been resolved.

- When **TCS (Tax) Ledger** is included in a **Sales Invoice** in **alteration mode**, the TCS amount is not being calculated.

This issue has been resolved.

TDL issues

- **Rate type** is not working in **Batch wise details** during Stock item creation, but is working in the alteration mode.

This issue has been resolved and Support for using Rate type in batch-wise details in Creation mode has now been provided.

VAT

- In a sales invoice of a company with **Accounts Only** feature, the **Output VAT amount** of transaction involving two different **VAT rates** is calculated on the current sub-totals and not the assessable value.

This issue has been resolved and now the output VAT amount is being calculated on the **assessable value** of respective sales ledgers.

- On switching from a company with **Accounts with Inventory** feature to a company with **Accounts only** feature, when a **Sales** transaction using an **Accounting Invoice** with multiple VAT rates is entered, the **Output VAT** for the second VAT classification appears incorrectly and an incorrect value is displayed in the Computation statement.

This issue has been resolved and the **Output VAT** values are being displayed correctly.
