

CA student your Kind attention please

Failure is the stepping stone for success. Some may not realize that they are very near to the success but leaving the course.

If you take some good basic steps , then , you cannot be a failure in this Nobel course.

You need not to be a super genius to become a Ca, even an average candidate with hard working can also be a CA.

The main reason for failure is travelling through the wrong route and method.

No body can define what is the success. For our limited purpose clearing CA is the success.

We can go through some basic example for sake of understanding.

We have to develop the excellence by continuous practice and hard work. We have strength as well as weakness.

It is a journey through which we have an opportunity to learn new things. Mental preparation is the main factor before entering the course.

Body need good food to remains as healthy, like wise mind need good thought .

The role of your mind and the preparation of the mind to face a tough situation is important. This is the course in which you can clear or lose.

So you requires a good mental balance.

Firstly to raise according to the opportunity at the disposal.

This is a unique course which involve a lot of uncertainty. Not certain for clearance.

You can be a successful person by adopting the following in the study carrier.

Aim:-

It shall be Burning desire.

It means the desire to become a Chartered Account shall be in your mind Just like a burning fire.

Burning fire can generate the energy. Without that you will be a sailing ship according to the wind.

If you see some have such desire for the time of registration, then , shut down the book and not touch the book even with their left hand!

Let you tell you a story of Birbal. The great emperor Akbar was instructed the barbell for cooking Kichadi. What he did that he was taken a big bamboo and tied the pot on the top and the hold fixed the bamboo on a vertical position. He made a cooking arrangement in the bottom

Even after the long time the cicada was not ready due to the distance of pot and the source of fire. The cicada would have ready if the source of the fire and the cicada pot were too close.

What is the moral of the story as a CA student? can you guess? If your aim is not burning then your course will not complete and keep on writing

most of the students were failing due to lack of burning desire.

Make sure that your desire to CA is burn just like Fire.

Attitude:-

You can win attitude is needed

let me tell you one story in this connection

Once a discipline of Socrates was asked a doubt regarding the attitude. What he was did that, called the discipline ,he went near to Socrates, he dipped the discipline inside the water for few second. in the mean time the discipline was struggled for his live and the Socrates was released him and told him. how you was struggled for surviving your lives in the same manner shall be your attitude.

What is the moral of the story here for you? can you guess?

You shall struggle the CA course just like struggling to survive your lives in the above example...

Plan: -SMART plan

S=Systematic

M=Measurable

A=Achievable

R=Realizable for a given period of time

T=Time bound

just like taking the right decision at the right time

It shall be in line with your strength and weakness

How to study?

What subject need to be studied?

When to study?

All these will cover your planning stages.

Whether you will go for both group or individual group etc fall under the planning stages.

Organizing the resource

These are the armory of you.

Keep the ICAI material as reference material and buy good book available in the market.

How to study

Step no 1 Read the matter

Step no 2 Understand the matter

Step 3 Note it in Note book

Step 4 Memories the same

step 5 Revise the same

This is the most effective steps , but involve more time.

Kill the Habit of Procrastinating...This is an evil and lead you the pit of failure

There was one interesting story of rabbit and tortoise.

one day Rabbit and the tortoise was entered in to a competition for race. Rabbit is too quick and the tortoise is too slow. The competition was started and the rabbit started quick running after some time he was looked back and find that tortoise is too far. Then he was an after thought to take rest for some time .But unfortunately the rabbit gone to the deep sleep .During that time tortoise was reached to the finishing point. Tortoise have limitation but achieved it through continuous hard work.....

What is the moral for You?

Some will start their study were good in the initial stages and after some time thy think that there is much time for exam and it is enough to cover them during the last few days of exam. At last what happened that they will fail the exam and understand their mistake.

Identify whether you are rabbit your tortoise

But the time is not wait for you , we have to achieve anything within the given time limit.

What you want to do , do it now , why tomorrow?

Who was rabbit and tortoise will be come to light by this coming final and Pac results.

Motivation

is the fuel which running a person.

Why do you selected this Nobel course?

You shall be self motivated and foster the energy on others also....

Your journey is started now and last but not least aim winding up the discussion with a story.

There was a giant called Goliath. He was very strong and cruel too. He cannot be killed by any one as his armor was conferred on a parrot. Goliath was so cruel and ridiculous and killed many village people. One day David called the Goliath for fight and he also knew the weakness of Goliath. He killed the parrot. What happened, that was the end of Goliath.

What is the moral for you?

Goliath was so strong and powerful and David was less powerful.

What leads to success....positive mentality....He was thought that it is a very strong enemy to miss....he was not thought otherwise ...David cannot succeed if he thinks that he cannot defeat Goliath as he was a powerful person....cannot kill

If you take the content of the story....CA course may be Goliath's stage for you during the beginning stage. But you plan well and work hard....With David's frame of mind....You can win the CA course

No one can stop you for achieving your success....

Wish you all the best

CA Vive M ACA
