

Training the Capital Markets Aspirants and Participants

4 Day Programme

“Theoretical topics explained with practical application and real capital markets experience.”

Past delegate, JK Business School

“The workshop has helped me in preparation for my campus placement.”

Past Delegate, ICAI

“Applicability of DCF valuation is totally different from what I learnt during my studies. Now, I can say with confidence that I know how to value a company with DCF”

Past Delegate, ARC Academia Batch

“Course helped me in cracking the interview with a leading research house”

Past Delegate, ARC Academia Batch

Corporate Valuation & Financial Modeling

(Programme runs from 1000 hrs to 1700 hrs)

This Programme will provide the delegates with an in-depth and practical overview of financial analysis and forecasting techniques.

During the 4 days training programme the delegates will learn:

- ☑ Valuation of a company using different valuation techniques
- ☑ Financial modeling techniques in excel
- ☑ Forecasting the financial statements
- ☑ Calculation and analysis of WACC and FCF

Build and create
your own
Financial Model

Fees: INR 8,000 per delegate

Dates: 20th, 21st, 27th & 28th February 2010

Venue: Hotel Spice Art, Prabhat Kiran Building, Rajendra Place, New Delhi

Take A Step:

You have learnt theoretical concepts in your studies. Learn how to use them in real world. DCF Valuation in Books may look simple, but analysts sometimes take more than week to create a full DCF model.

Is DCF valuation is the only way to value a company??

Programme Directors:

Manoj Goel

- Expertise in Corporate Valuation, Financial Modeling & Investment Banking
- Prior experience: Goldman Sachs, and Time Private Equity

Tapan Jindal

- Expertise in Equity Research, Valuation and Equity Fund Raising
- Prior experience: Fidelity Investments, and iGATE Global Solutions
