Why Advanced *Excel* ?

Today, almost every job position in the financial sector requires knowledge of Advanced *Excel*. Any academic course in finance or accounting remains incomplete without the practical knowledge of MS *Excel*. Even non-finance MBA professionals use *Excel* for a significant portion of their work.

Recruiters prefer candidates who know how to apply *Excel* functions and techniques in Finance and MIS reporting.

About Us

Excel Next is a Training Academy that trains working professionals and students of CA, MBA etc. on Advanced Excel (Finance, Audit and MIS reporting).

Established by a CA with work-experience in KPMG and J.P. Morgan, **Excel Next** is the ONLY training house in Kolkata that combines technical aspects of MS *Excel* with real-life application in Finance, Audit and MIS reporting.

Who should do the course ?

- Working professionals
- Students of Commerce (M.Com, B.Com)
- Students of Management (MBA, BBA, BBM)

Why *Excel Next* ?

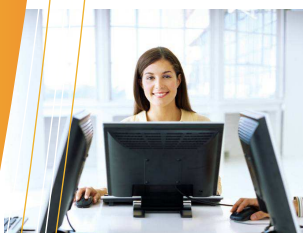

Excel Next is not a PowerPoint-based training firm. Instead, we apply a “hands-on”, “learn-by-doing” approach to our teaching. Our training eModules closely mimic the complexity of real industry data.

Additionally, we focus on simultaneous use of multiple functions & techniques, keeping in mind the requirements of a real corporate job.

We are determined to provide top quality training solutions in a cost-effective manner to our clients. This is the reason why within just two months of commencing operations in Kolkata (Dec-09), we have trained more than 40 professionals through our Academy's classroom training program.
