

HOW TO CHOOSE A PROPER CPT COACHING CENTRE

Common proficiency Test - The single window system which enables you to dive in to the ocean of CA. The first step which you take, makes a big difference in the sailing process.

At most everyday you would have received a letter from a coaching centre claiming that they are the best centre for CPT or CA course as such. In certain occasions you would have visited their web pages or the registered offices. No webpage or the receptionist will expose the negative aspects of their own academy. Every one would promise tests (An academy promised even 400 tests for CPT).

Here are certain tips with respect to analysing the coaching centers:

1. Talk to past students of the academy.
2. Evaluate the faculty - the best judges are students.
3. Physically examine the atmosphere in which the classes are offered – Peaceful and Modern teaching techniques.
4. Analyse the activities the academy has performed.
5. Ask them to show the Unit Test or model test papers that they have prepared or planned.
6. Consult your college lecturers.
7. That institute which feels that “they are for you, you are not for them” will serve you better.

Remember "The place you peruse your education determines your career and success"
