Integrity at Work

The Chartered Institute for Securities & Investment is the largest and most widely respected professional body for those who work in the securities and investment industry, and one of its key objectives is the promotion of trust in the financial services industry.

Integrity at Work is an innovative, interactive workshop focusing on the challenges posed by real business dilemmas. You will be asked to decide your response from a range of options in different business dilemmas. Using interactive technology, your choice is private but the collected results are public and provide fuel for lively debate.

This 75 minute workshop has been presented to over 5,000 professionals worldwide, ranging from students to Board ooms.

The workshop will also look at the economic case for behaving with integrity and graphically demonstrate how the cost of borrowing between banks significantly increased in the recent banking crisis when trust was in doubt.

To register please respond by 12th September'12.

We look forward to seeing you there.
