

GENIUS TIPS

For Cracking Objective Questions in

CA-CPT Exam

Successfully

Exam tips...

- P Try to **ATTEMPT AS MANY QUESTIONS** as you can. **READ EVERY OPTION**, even if you are more than 100% sure about the choosing option.
- P Give good amount of **TIME TO THE EASIEST QUES** as many times it may contain a tricky part.
- P In case **THERE IS CONFUSION ALWAYS APPLY EXCLUSION METHOD**. Try to exclude those options which cannot be the answers.
- P After reading the question - **TRY TO ANSWERS WITH YOUR HAND** and first try to solve the question without looking at the answers. Then match your answer with the given options.
- P Always try to **IMAGINE THE TOPIC** (in your Assignments, notes or book). When you come up with some hint, look or picture of it, look for that in the given options. Before marking the option ask yourself “reason to mark it right”, or “whether it makes any sense”.
- P Always give **MORE WEIGHTAGE TO THAT ANSWER WHICH ACCORDING TO YOUR KNOWLEDGE IS CORRECT**. If while dealing with the question, your logic says something and your knowledge says something else, always **FOLLOW YOUR KNOWLEDGE**.
- P While you guess, **DO NOT CHANGE THAT ANSWER WHICH COMES FIRST TO YOUR MIND**. Many Researches indicate that your first answer is usually the correct one. However, don't be afraid to change answers when you have quite a good reason for doing so.
- P Allow time at the end to check for carelessness and Silly mistakes.

200	200	To achieve this goal, planning is very important. You need to follow up your plans with hard work and dedication.
------------	------------	--

Accounts – Most Scoring Subject. First **study** theory--Solve 2-3 questions from e.g.--
Solve maximum questions from SELF EXAMINATION QUESTIONS.

Mercantile Law - Contract Act is important.

Economics – First complete Macro Economics then go for Micro Economics.

Quantitative Aptitude - Differentiation and Integration, Correlation and Regression and Theoretical distribution important.

All the Best Guys!!! Enjoy Passing!!!
