Sure Success Tip 1

Champion's Formula = Hard Work + Regular Practice.

There was a writing in a church that read, "Jesus never fails".

A CA student added below that, "Then let him try the CA examination"! ☺

Passing the CA exam is not as difficult as it is thought out to be. Several students clear it in the first attempt and even secure ranks. Why then others are unable to crack it?

CA Rajan Bhatia from Top Rankers Institute brings you some exclusive & inspiring lessons to top the CA,CS,CMA exams.

Friends, I am sure, you must have learnt several formulas for your exams but do you know the Champion's formula. ! In my first sure success tip, I want to share with you the champion's formula for being a topper in exams.

Yes. The Champion's formula. The formula of sure success. You can observe any champion of any field in the world. The formula of success of all the champions is the same.

Do you really want to be a Champion & top your CA, CS, CMA exams? There is one formula to get top ranks in CA, CS, CMA exams and no points for guessing the same as that's a universal formula ::

HARD WORK + REGULAR PRACTICE.

That old line remains so true. "The harder I work, the luckier I get." Life helps those who help themselves. Practice makes a person perfect. What you so sow, so shall you reap. These rules have not changed for thousand years. It is the law of nature. There is no substitute of hard work. We get the results directly in proportion to what we do as hard work & regular practice. Knowledge becomes power when we practice it.

How many of you have seen the movie Bhag Milkha Bhag. If you have not seen, Go and watch that movie. This movie has inspired millions. There was not a single day on which Milkha Singh skipped his practice sessions. So much so that he conditioned himself to running two races a day, at any given place and time.

Start preparing for the examination immediately on joining the course. Study regularly and conscientiously. It does not matter how many hours you study, but how much you understand. Qualitative study is important. In addition to the student journal, subscribe to the journal of the Institute. It helps to keep yourself updated. Keep track of the latest in all the subjects: accounting standards, new standards, revision of old ones, interpretations, etc., auditing and assurance standards, amendments to company law and other laws, Finance Act and Income-Tax law. Contribute and subscribe to a good business newspaper. Essays on capital markets, tax matters and other subjects will be helpful.

While preparing for exams, what is that you want to get better at. Study it in detail & practice it like crazy. You must practice each question, every concept and practice mock tests at least 10 times before appearing for the exams if you are targeting to be the rank holder. In short, the more you practice, the better you get at it.

So that's the lesson for this week. Hard Work + Regular Practice. I will talk to you next week. Until then, keep practicing.

Students Speak.

I learnt 10 times more in toprankers 4 days of CA-CPT advanced crash course than I learnt in 4 months of classes at other institutes. Thank you top rankers institute 100 times for enabling me to clear my CA-CPT exams in first attempt.
Amit Gupta, CA-CPT, June,13

Even after attending regular classes at other institutes, i was scared of my CA-IPCC exams. After attending your advanced crash course of Costing and FM for CA-IPCC my percentage in practice tests went up from an average 50% to 75%. My accuracy & speed has increased by 3 times. I feel confident to get top ranks in my CA-IPCC exams. Vijay Garg, CA-IPCC, Nov.,13.

The best thing I like about your CA-CPT crash course is that it is practical, exams oriented and with minimum investment of time and money, students get the best learning & results. At least 500% return on investment. Thanks so much. Neha Chawla, CA-IPCC, May,13.

I learnt most important public speaking & presentation skills from you, due to which I was able to get best placement. I also deliver great presentations in my corporate and get amazing results. Thank you so much.

CA Harish Arora, Associate Manager-Finance, Coca-cola, India.
