

Guidance on How to clear CA Final-ISCA (A subject that is most difficult from STUDENTS PERSPECTIVE)

- ✚ Give appropriate heading to your answers.
- ✚ Start with a two three lines introduction.(Students may note that introduction should be relevant and from my notes only otherwise it will create a negative impression)
- ✚ *Use the language of my notes* (ignoring the content given in red color as that is just for easy remembrance).
- ✚ Write the answers point wise and leave one line after every point if your handwriting are not legible.
- ✚ Present your answers in diagrammatic and flow charts form wherever possible.
- ✚ *Every day atleast revise ISCA for one hour.* Revise only things highlighted in Violet & Green color that will suffice.
- ✚ *Try to read the complete ISCA in one day atleast once before exam.*
- ✚ Paste the one page summary each chapters given in my notes on your walls.
- ✚ Give adequate time to each question to make sure that you write the correct answer avoiding any ambiguity.
- ✚ Attempt that questions first which you know the best because first impression is last impression
- ✚ In first 15 minutes prioritize the questions based on questions you know the best.
- ✚ Also before appearing for exam students should read 2 Revision Test Papers (RTP's) and Mock Papers(2 series available on ICAI's website just before your exams)

All the Best..!!
