Accountancy Profession: Spearheading Excellence**

Globally, Competitiveness has been fuelling the economic growth of a country, necessitating creativity and innovation in development of Competencies, resources, governance led business models and frameworks. The spirit of competitiveness is the new mantra in emerging market place, leading to complex paradigm shift in the economic milieu with enhanced business complexities, demanding new business and governance frameworks and at the same time newer benchmarking of expected service delivery from professional service providers.

Simultaneously one has seen emergence and consolidation of Accountancy profession which expanded beyond its fiduciary domain by focusing on increasing competence across the financial value – chain to serve the industry, regulators and society at large. The profession with its business and financial acumen, expertise, integrity and ability to reinvent with the changing time would be at forefront of Value Creation by pursuing the inherent strategy of “Building Globally Competent Professional”.

In this endeavor the instant International Conference on ‘Accountancy Profession: Spearheading Excellence’ aims to bring together stake holders such as thinkers, policy makers, industry and financial institutions to ponder and conceptualize broad contours of strategic framework for Building Global Competitiveness for nation’s economic development, predicated positively for the future growth of our economy. The International Conference would be a ‘Window to Future’ to understand and acclimatize to the unseen forces in the global business and regulatory landscape. The exchange of ideas and deliberations through the leaders would provide an indicative roadmap for development of professional accountants.
