Q.THUGHT IN THE MIND WHEN WE FAIL IN CA?

- Introspect yourself first did u really fail. For me, if u have tried to give your best shot u never failed. Remember guys one thing **“CA me koi fail nihota, bs CA me sb pass nihota”**. Don't demotivate yourself..... Just start thinking what you did best and where you are lacking behind from others.

Q. YAAR DONO GROUP DE YA EK SAMJH NI ATA. TUM BATAO KYA KARE?

- This is so very common with a CA student. Think on this:-Ek group katyari ki apurapad hke and jab result aya fail. The problem with preparing one group only is that stake and expectation are really very high and when you fail then you feel like kyaa aritna padhne ke baad bhinihua. Guys think from a different point of u... when u try both group u realise syllabus is vast high.. But when u revise 2-3 times u realise that syllabus kam apna apha raha h. Itna padhne ke baad bhookhodi ha tmlog jo samajna aye..!
- When u give both group is that u are connected with every subject and at result time set off is a major possibility to achieve a magical figure of 400. I will say by concluding Try both! 3 month is sufficient!

Q. PEOPLE AROUND ME ARE SAYING LEAVE CA... THEY ARE NOT RARE TO FIND NOW-A-DAYS THEY ARE FOUND IN EVERY STREET? HOW TO REACT?

- Haha that is fact what people are saying. But, u have give 5 precious years of your life. CA is a profession for fighting for my friend. Start ignoring people who are they to decide what should u do and what not. People fail in CA because they cant manage time because they are ruining their time with people who doesnot even know the passion of CA aspirants.

Q. HOW TO COMPLETE THE SYALLABUS?

- While preparing both group u will feel nihoga confidence niaaraha. But himmat rakho. Revision is the key. When u revise 2 3 times u will start think like a CA. and that's the catch. REVISE!! REVISE!! REVISE!!
- Start from the subject u love the most, CA basically likes Accounts, SFM and IDT.
- Focus on two papers in each group to score the maximum. For me in 1st group Accounts and Law. And in 2nd group ISCA and IDT are highly score-able subjects. Though u need have enough knowledge in other subject too. But in those four subject u have think practice and learn maximum.

ROAD MAP TO CA FINAL NOV 16

- In my first attempt when I appeared in accounts paper may 2015, the paper was really very tough, I attempted only 50 marks I secured 43 marks. 50 marks were left naked. Understand, any paper may be tough, u r giving a competitive exams not a b.com exam so prepare for it. And Just attempt. Attempt pe hi marks hai.
- CA har subject kakhelahi. Koi Subject weak mat chodo bas.
- **FOR ACCOUNTS:** Follow Praveen Sharma Book. In last two attempts many question have come from his book. Do practice manual for AS- Generally maximum question appear from there, ven figures are same in the exam. For Holding practice Basic question and do Practice Manual there is hardly 20 question in practice manual. Goodwill q are also good but amny are from Sharma sir book ignore them which u did in Praveen sharma do only u find new, same also with Amalgamation. Enough!**MAY 2015 SHOULD BE ATTEMPTED AT HOME PROPERLY. It will provide u a reality check.**
- **FOR SFM:** Sanjay saraf book is enough. Sir has given theory notes too in every chapter while teaching just read that! NO PRACTICE MANUAL! And at the 2nd revision Just do RTP & Past papers questions, avoid from the desk topics.
- **FOR AUDIT:** Personally in my first two attempt I read only Surbhibansal and Practice manual. In my first attempt I didn't gave audit paper but in the second attempt I gave and failed. In my last attempt I again read Surbhi Bansal but confidence was low, when I see practice manual after reading the chapter it was like mahabharatpadharamayanka question puchtaihai... then I changed my book just a month before my Final exam and followed PankajGarg.. Chapters are much more organised and u will feel really easy in audit! Excellent compilation I must say !
- **FOR LAW:**Munish Bhandari handbook and Practice manual enough. U have to follow Practice manual if u are following his handbook. Do company law first! And then allied! Allied is indeed very irritating, definition from allied law are important 10 marks comes from there. Go through MAY 2016 amendments too. Important for NOV16.
- **FOR COST:** Cost is boring for many CA students. But friends, think from a banya point of view, karcha hi tounikalnahai. Never focus on OR. Now a days when OR question appear in exam, u feel like why the hell I didn't focus on cost part. OR takes just 3 days to complete..follow practice manual for it only, many new questions are added. For Cost- Sanjay Agarwal is sufficient.
- **FOR ISCA:** In CA Final there is only two subject when a student can fail badly one is Audit and the other one is ISCA. Why not Make ISCA ur strongest subject in Finals? Once read study material fatafat. Then Read Dinesh madan and read practice manual. When if u Foolow practice manual after once going through both the books, trust me question from practice manual appear same more than 40 marks. Just focus in topic heading and learn the points. Context if u read once properly u will be able to write nicely.
- **FOR DT:** Most Vastly rated subject in CA final. Vinod Gupta sir has thought us so well, That DT becomes icing on the came. DT is like a 50 marks scoring subject as because marks nideta institute jaldi se.

ROAD MAP TO CA FINAL NOV 16

- o Read the module First! If u read the module, then open only for reading the past years question.
 - o Start using summary module.
 - o Focus less on Capital Gain sirf 10-12 number kaatahaivobhi easy sa.
 - o Focus on PGBP. Do all the question of past years seriously.
 - o Assessment penalties chapter are the core.
 - o Amendments are really imp and do Case study properly. TDS chapter is important.
-
- **FOR IDT:** Service tax acha se padho. Sbse interesting part of CA finals. Look for a future in IDT. Service tax question should be done from Practice manual. Custom is easy do it just once, and next revision is to be done in the exam day. Excise is boring but upaynihai. 60 lanahaitoupadhnadhega hi.
-
- o Go through amendments.
 - o Service tax thrice must be done.
 - o Case studies.
 - o Valuation Chapters are important. Follow practice manual for it. SSI chapter is also to be done from there.
 - o FTP just practice manual 18 question are to be read. Ni hota koi baatni.

PRACTICE MANUAL IS LIKE A GEETA. START GOING THROUGH IT. SYLLABUS WONT BE EXTENDED BY IT. IT WILL BE REDUCED.

-FOCUS ON YOUR GOALS, ACHIEVING OR NOT ACHIEVING DOESN'T MATTER, BUT IF WE WONT TRY KUCH NI MILEGA, LIKH KE RAKH LO"

-AND REMEMBER FREE ME EK HI CHEEZ MILTA HAI, VO HAI "DANDRUFF".. SO JUST START PREPARING"

-o0o- BEST LUCK GUYS -o0o-
