

IMPORTANT QUESTIONS OF EIS PAPER-7 FOR MAY 2018 -IPC
STUDENTS . MOB-9033-978-908
E-MAIL: ab.ali7861@gmail.com

Dear Friends,

Before giving you the list of questions relevant for may exams, let me share you my experience when I was in ipcc and I had ITSM the most dreaded subject I had faced in my student life.

I got 40 in first attempt but due to shortage of marks, I couldn't clear.

In next attempt I got 33. How surprising and frustrating when you face failure after getting 40 in previous attempts?

I pushed myself again and I got 73 in next attempt.

Friends I completed my CA in nov 2017 (recent). I am here to help you in EIS subject.

I realized that IT OR EIS is just based on logic.

Logic 1> Attempt correct answers. Many students write different answers but they don't have idea that the question is not asked. Get 70% Accuracy and this can be done if you have revised entire syllabus by heart.

Logic 2> Remember KEY Words in your answers. Eg. Don't write Mobile, Write DEVICE. Try to co relate EIS in your practical life.

Some of the Questions relevant for this may 2018 exams: BEFORE THAT, IF YOU TRUST ME THAN ONLY READ THIS. IT IS USELESS TO REPLY IF YOU DON'T HAVE FAITH. IF YOU HIT THIS QUESTION RIGHT, YOU ARE UNSTOPPABLE.

AND YOU SHOULD HAVE COMPLETED READING THE SYLLABUS 1-2 TIMES ATLEAST

Chap1: Automated Business Process.

1. Page 1.4 Categories of Business Process (Operational, Supporting and Management)
2. Page 1.7 Objectives of BPA and its Benefits (Table is very important)
3. Page 1.9 Only short explanations of Steps in BPA (8 STEPS FOR 6 MARKS)
4. Page 1. 19 Type of Business Risk (Code- FR ORS)
