1247 TECHNIQUE FOR CA STUDENTS

Your brain is more powerful than you think it is . Let
me ask you a simple questions

Q. do you REMEMBER "Alphabets" ???

Yes !!

Q. Do you remember it in the exact sequence ?

Yes !!

Q. is there any logic behind its sequence ?

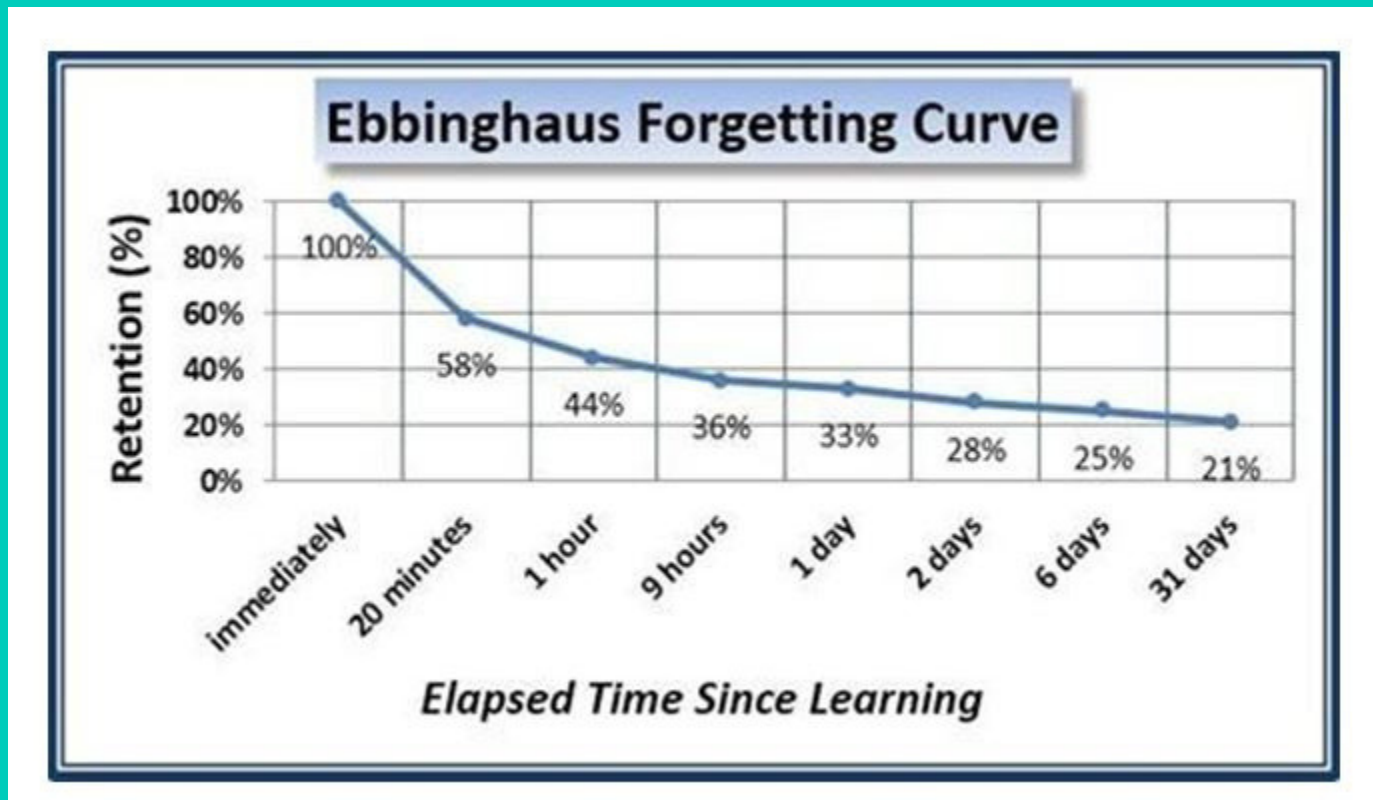

NO

- CA AMMIT AGGARWAL

Q.Then how did you memorised it so perfectly ?

Multiple Revisions

As a student we are putting so many efforts but if you follow a systematic approach/Pattern you will definitely achieve more . Human brain tend to forget 60% if we do not revise the same within 24 hours and so on .

HOW TO OVERCOME FORGETTING CURVE

Revision is very important for ca students . But a systematic revision is more effective for long term success and if you don't want your efforts to go in vain .

One of such technique is 1247 which was introduced to me by Purushottam sir . See, whatever we study today almost 80% of that gets erased automatically if we do not revise in next 24 hours . So , if you want to retain everything you studied you have to do a complete and systematic revision .

whatever you study today you should revise it one time within next 24 hours . next revision should be on 2nd day , 4th day & 7th day .

Maintain a proper diary and write down all the topics you studied in a day

Overcoming the Curve
