

SAPERP (FI/CO) training is useful for CA/ICWA/ACS's

Now most of the Indian companies are run on SAPERP or going for Implementation of SAPERP

3024 Indian Companies are Implemented SAPERP

SAP India is now targeting to touch the 15,000 customer mark in the country by 2010.

SAP training is two types: 1. SAP consulting training 2.SAP enduser training.

SAP consulting training: - Which is suitable to people having domain experience in accounts, finance, taxation and auditing and qualified like CA, ICWA, ACS, MBA's. Here we can learn configuration, master records creation, postings and reports generation.

As the business needs are very complex in nature, the implementation of an SAPERP package needs Chartered Accountants with functional skills for evaluation, Business Process Reengineering (BPR), Mapping of Business requirements, Report designing, ensuring Business controls, customization of the package for the specific requirements, Documentation etc.,

Opportunities → to get SAP consultant job in companies like Infosys, TCS, Wipro, Satyam, HCL tech etc,

to get core team member job in companies which are going to implementation of SAP,

to get end user job in companies which are implemented SAPERP.

SAP end user training: - Which is suitable to all People having Qualification of CA, ICWA, ACS, MBA's, M.com, B.com with or without having domain experience in accounts, finance, taxation and auditing. Here we can learn master records creation, postings and reports generation.

Opportunities → To get end user job (As a Manager Finance/Manager Accounts / Officer-Sr. Officer, Finance / Assistant Manager - Finance / Accounts Assistant / Deputy Manager - Corporate Accounts / Internal Audit) in companies which are implemented SAPERP.

Visit www.sapendusers.com for SAPERP enduser jobs, Core team member jobs, SAPERP case studies.
